One of the most interesting events at Battery Park was an exhibition of lantern slides given in the ball room by Mr. Jack Bradley one night recently.

Mr. Bradley a few years ago made a hunting trip to the far north, with his own crew, and the pictures he took of arctic scenes in which Polar bears, walrus and the like figured large, were quite novel and interesting. Mr. Bradley also made a hunting trip into central Africa some years ago in the region where President Roosevelt is going on his hunting

trip, and many of the slides show scenes taken there also. The guests of the hotel who witnessed the exhibition were very appreciative of the entertainment Mr. Bradley afforded them.

The members of the French chamber of deputies include poets, dramatists, actors and a host of more or less mediocre, while a respectable number of the chamber contains sufficient talent to form a very creditable orchestra, though a song might seem more appropriate. Mr. Meline relieves the tediousness of the country by playing the violin. It would find a very clever accompanist in General Prigent, who it is said is a better pianist than a musician of war. M. Clemenceau is not particularly devoted to music, but there is one notable who has been before the public gaze lately who would not be least suspect of being a devotee of the gentle, it is M. DeMoy, or M. de Paris, as he is familiarly known, who performs on the violin with no mean ability which not perform on another instrument. London Globe

Home Cure For Eczema

Oil of Wintergreen, Thymol, Glycerine etc. Used as a Simple Wash. It really seems strange that so many people suffer year in and year out with eczema, when it is now no longer a secret that oil of wintergreen mixed with thymol, glycerine, etc., makes a wash that is bound to cure.

Old, obstinate cases. It is true, cannot be cured in a few days, but there is absolutely no sufferer from eczema who ever used this simple wash and did not find immediately that wonderfully soothing, calm, cool sensation that comes when the itch is taken away. Instantly upon applying a few drops of the wash the remedy takes effect, the itch is allayed. There is no need of experiment—the patient knows at once.

Instead of trying to compound the oil of wintergreen, thymol, glycerine, etc., in the right proportions ourselves we are using a prescription which is universally found the most effective. It is known as the D. D. D. Prescription, or Oil of Wintergreen Compound. It is made by the D. D. D. Co. of Chicago, and our long experience with this remedy has given us great confidence in its merits. For sale by all druggists.
