"How Can They Do It?"

Said someone when the goods were opened. How can lawn waists be manufactured so neatly and substantially, and retail at only \$1.25! Well, we don't know; can't answer; we're not manufacturers,—but we know good stuff and good value when we see it, and we stake our reputation on both in these new waists. They're white, with stiff attached cuffs and plain white stiff fold collar detached. Three patterns: (a) wide and small tucks combined; (b) wide tucks, one inch; (c) small tucks, quarter inch. A good quality lawn and only \$1.25. If you doubt it, phone in; we'll gladly send you size on approval.

In all The World of Pianos

You will never find a Piano just like the artist's Steiff.

There is an individuality about the Steiff piano all its own. That beautiful singing sonorous tone, wondrous volume and perfect action, plays it in a sphere above all comparison.

Why should any one buy an inferior piano when they can buy the artistic Steiff or Shaw piano direct from its maker? The price is within reach of the most economical buyer while the grade is beyond competition.

Don't take chances of buying a cheap or medium grade piano. Write Steiff.
