### Do You Know It Requires 4 to 6 Years

to build a Stieff or Shaw piano, from the time the place the lumber in one lumber yard until the piano is finished? We are dry all our lumber and that is one reason why our pianos are so thoroughly good.

### The Lumber

in about two-thirds of the pianos made in Virginia forests less than twelve months before they are finished ready to sell. They are made out of kiln dried lumber and this is the principal reason they will not stand and are so unsatisfactory after a few years. One piano in a lifetime is enough and if that piano is Stieff it will.
