MEXICO CITY, June 7.—Sound- ing a note of political freedom for all the troubles of North and South America, Francisco I. Madero, jr., was welcomed with wild acclaim today to the capital of Mexico as the hero of a successful revolution that threw off the old style, despotic rule of the Diaz regime, tonight expressed the hope that the Mexican revolution would cause the peoples of Central and South American countries to seek political freedom. Mr. Madero asserted his confidence that perfect harmony would prevail and that the administration would busy itself in tranquillizing the entire country.

Fine Equipage The coach to which Mr. and Mrs. Madero was escorted was drawn by four iron grey horses, which were managed by postillions in green jackets, white trousers, colonial wig and green caps. With Senator Madero and his wife rode Alfredo Robles Dominguez, now chief of this military zone. Lines of khakied borismen made a line of rearing and plunging horses through which the members of the party walked to the coach. Bouquets of flowers and wreaths of myrtle were tossed in the path of the victor and his wife and into the carriages as the Madero party strove through the cheering multitude.

WILL REFUSE TO ACCEPT DELIVERIES OF POTASH SUBJECT TO SPECIAL TAX

Representatives of American Interests Serve Notice Upon Germans

MAY BRING SUIT

BERLIN, June 7.—Representatives of American potash interests today served the owners of independent German potash mines with the formal notice that they will refuse to accept deliveries of potash subject to the payment of super-contingent tax. After an agreement regarding contracts was reached between the Americans and the German potash syndicate May 18, negotiations were opened with the independents, whose contracts with the Americans are responsible for the present German potash law. The German contractors insist that the American firms are responsible for the tax. The Americans' action today indicates that the negotiations have failed and the firms probably will bring suit against the Americans in the United States courts to enforce their agreement.

He was appointed page of the house of representatives by Representative Doughton but after coming here and looking the land over he said to himself: "Nay Pauline, none of this glitter for me. The water is pure, the people honest and air wholesome." He remained here two days, resigned, took the train for home, and is now back in the sticks. Glenn McKay, a bright-eyed Mooreville lad, took his place and has been given a place in the House Press gallery, where he will be looked after by such old-time Tar Heels as T. Pence. UNDERWOOD HOLDS HIS OWN AGAINST BILL'S OPPONENTS

Much Bitterness Engendered Into Debate on the Wool Tariff Schedule

CLAIMS TRUST FIXES PRICE OF COMMODITY

Says Tariff Board Has Wasted Quarter of a Million and Done Nothing

WASHINGTON, June 7.—Bitterness of political debate, such as has not characterized any of the opening skirmishes of the present session of congress cropped out in the beginning of the wool tariff discussion in the house today. Democratic Leader Underwood, chairman of the ways and means committee, devoted the afternoon to an explanation of the proposed revision of the wool tariff and to an attack upon the Payne tariff law and the republican party. He was met at almost every stage of his argument by replies from former Chairman Payne, now the ranking republican on the ways and means committee; and by other republicans who questioned his statements and his arguments. Mr. Payne denied vigorously the democratic charge that the Payne law had not fulfilled republican promises of tariff revision; and he criticized in detail Mr. Underwood's statement that the country's revenue was declining and the treasury approaching a deficit. Mr. Payne will lead the opposition to the democratic bill and will probably make the opening speech tomorrow. No limit has been set to debate and notwithstanding Mr. Underwood's hope that it can be concluded in a week, it is expected to last well into, if not through the second week.
