LIEGE, Belgium, June 18 .- At the using of the registers tonight seven of the aviators who started from Vincennes on the first stage of the European cincuit race had arrived a distance of 320 kilometres (212 miles). They were recorded in the following order: Vidart, 8 hours 13 minutes: Vedrine, 3 hours 33 minutes: Wermann, 3 heurs 55 minutes; Beamont, 4 hours 3 minutes; Duyal, 4 hours 31 minutes, and Garros, 5 8 minutes.

All the men who arrived declared that the flight from Rheims was the worst in their experience. They were beset with furious eddys amounting almost to whiriwinds; which forced them to mount far above the clouds and grope their way by compass. Vidart was completely exhausted. In addition to the difficulties he encountered in keeping his machine level he suffered from air sickness. Many times he thought his last hour had come and that he would fall. Nell came and settled himself for the trial-my trial. He hadn't said anything about being tried himself, and 1 didn't tell him that he was to be under observation. Nell went to business in the morning, returning about 5 in the afternoon. Jack took him in charge as soon as he arrived. Neil tried to get rid of him, but Jack stuck like a leech. Nell would be reading poetry to me in the garden. Jack would come up behind him and with a stick and a horse's hair and a tiny ball of paper would make him think that a bumblebee was lighting on his nose

Jack sneaked into Neil's room and filled his underclothing (on the inside) with burs. Neil got the clothing on. then had to take it off again and was half an hour picking out the burs. He was inte to business that day and came home in a very bad humor. By such innocent juvenile expres-

### "A CAVALIER OF VIRGINIA"

"A Cavaller of Virginia," one of Theodore Robert's best novels, published by L. C, Page and company of Boston, has met with a warm recep-tion from the reading public, and promises to reach a flattering record in the matter of sales. It is a novel which holds the reader's attention from start to finish, dull pages being the exception. The action is swift and thrilling, carrying the reader

from the rose-scented halls of Vir-ginia across the Atlantic to England, and thence to the Spanish main. A couple of hot sea fights precede the
