be the next U. S. senator from Georgia to fill the place made vacant by the death of Senator A. S. Clay has been the question uppermost in the minds of the members of the legislature since the session opened to the exclusion of practically all other business The first ballot in the election for senator will be taken at noon Tuesday. At least two of the five candifor the place claim they will be elected on this ballot, but despite these claims others predict that the

contest may be long drawn out. Unlike many previous campaigns in Georgia, the present senatorial contest is almost totally lacking in personal animosities. Not until after he was inaugurated as governor did Gov. Smith actually announce that he was and since that time the contest has resolved itself into Smith and anti-Smith factions. The candidates op-posing Gov. Smith are Senator J. M. Judge W. A. Covington, P. A. Stovall and Thos. E. Watson, the latter being the last to enter the race. In the event the contest is long drawn out it is said that Congressman Wm. G. Brantley also will be a candidate. The first ballot for senator will be taken separately in the two houses of the legislature on Tuesday, and the first joint ballot will be taken on Wednesday. There, are 44 votes in the senate and 184 in . the house. Two members of the house are absent on account of illness. This will make 114 votes necessary to elect on joint ballot. Only one ballot can be taken Only one ballot can be taken
