

NEW SENATOR AND OLD TELLING EACH OTHER WHAT TO DO

Situation in Georgia Assumes Peculiar Phase Which Has no Precedent

TERRELL ISSUES CARD PUTTING IT TO HOKE

Latter Characteristically Replies, Refusing to Accept Resignation

ATLANTA, Ga., July 15.—"My resignation is with you and it is irrevocable. You nor I can place the responsibility for your conduct. The people will do that."—Senator J. M. Terrell.

"I have not accepted your resignation and shall retain it unaccepted that you may have full time to realize the importance of your continuing the pair which kills a republican vote in the United States senate."

The above statements sum up the situation tonight in the controversy between Senator Terrell and Governor Hoke Smith, who has just been elected United States senator to succeed Mr. Terrell, who was the ad interim appointee following the death of Senator A. S. Clay, about nine months ago.

Following the governor's statement last night in which he declined to accept the resignation of Mr. Terrell, the latter replied late today in one of the warmest political cards ever issued in a political contest in Georgia.

In his letter Mr. Terrell declares that it would be presumptuous for him to return to Washington as senator after Governor Smith has been elected to that position by the legislature. He asserts that under no consideration would he continue further to discharge the duties of that office. It is imperative, that Governor Smith remain in Georgia as governor. Mr. Terrell says there is a way in which he can accomplish that desire, and still provide for the full representation of the state in the United States senate.

"The general assembly can elect another senator at once," he declares "if you feel that you must stay here notify the general assembly that you will not accept the senatorship to which you have been elected by it under the assumption that you would

GIFFORD PINCHOT MAY AGAIN COME INTO SPOTLIGHT

Probable That He Will be Called to Testify About Controller Bay Map

NEW MAPS WILL BE PREPARED FOR TAFT

Contended That Aforesaid Map Must Have Been Prepared on Advance "Dope"

WASHINGTON, July 15.—To erect terminal facilities in Controller Bay, Alaska, would cost about \$1,000,000, said Alfred H. Brooks, of the United States geological survey today before the house committee on expenditures in the interior department, which is investigating the Controller Bay lands.

The committee, which will meet again next Tuesday, may summon as witnesses former Chief Forester Gifford Pinchot and Secretary of War Stimson, to inquire into a declaration of Miss M. F. Abbott, a newspaper writer, that a map of Controller Bay district containing tracing of the Richard S. Ryan claims there had disappeared from the war department.

A map made for the interior department, showing the claims and proposed railroad promoted by Ryan, who is alleged to represent Guggenheim interests, has been furnished by Secretary of the Interior Fisher.

The missing map, dated Dec. 14, 1910, was shown Miss Abbott about January, 1911, she says. It is contended that there was not time for the map to have been made from surveys in Alaska following the president's executive order restoring the lands to entry, and that it must have been prepared on advance information.

In order that the congress shall have elaborate maps showing conditions in and about Controller Bay President Taft today directed O. H. Pitman, of the coast and geodetic survey, to make copies of the maps of the region in the possession of the government. The president spent more than an hour looking over the original maps this afternoon. He is convinced that when the senate sees the government surveys of Controller Bay; the extent of the water front and the length of the channel it will agree with him that for one man to obtain a monopoly there would be next to impossible.

ONE CONGRESSMAN THINKS INTERESTS WANT WILEY OUT

Representative Cox, of Indiana, Introduces Resolution for More Information

INVESTIGATION TO BE BROAD ONE

Cox Said He Was After Knowing Exactly What Interests Were After Wiley

WASHINGTON, July 15.—Expressing the belief that persistent efforts to have Dr. Harvey W. Wiley removed from office have been made by "powerful special interests, whose welfare in life attaches more to the dollar than to the health, happiness and prosperity of the people," Representative Cox, of Indiana, democrat, today introduced a resolution calling for further information. His measure contemplates a broader investigation of the Wiley case than was contemplated when the house committee on expenditures in the department of agriculture decided to investigate the charges against Dr. Wiley in connection with the department personnel board recommendation for his removal.

Mr. Cox declared today that he wanted to find out what interests were after Dr. Wiley. His resolution, he said, was in no way antagonistic to the work of the expenditures committee which will meet next week. Dr. Wiley had fearlessly performed his duty in the enforcement of the pure food and drug law to the benefit of the many millions of people throughout the country.

His resolution calls on both the attorney general and the secretary of agriculture "to furnish the house of representatives with all letters, records, telegrams, protests and objections now on file in their offices, protesting against his retention in office, with all letters and data of every kind protesting against his rulings and decisions in the administration of said law."

GAMES TRANSFERRED

CLEVELAND, O., July 15.—In order to provide baseball games here for the next two Sundays one of the games to be played between Cleveland and New York in New York next month will be played here tomorrow and another game to be played between Cleveland and Boston at Boston next month will be played here next Sunday.

MRS. ARMOUR CLAIMS TO HAVE BEEN ROBBED BY HER DAILY COMPANION

Seeks to Recover \$142,000 Alleged to Have Been Stolen by "Friend"

NO CRIMINAL SUIT

KANSAS CITY, Mo., July 15.—To recover \$142,000 alleged to have been stolen from Mrs. Margaret K. Armour, widow of Simon B. Armour, the packer, by Miss Harriet Byington, a young woman who for the past three years served as companion and housekeeper to Mrs. Armour, suit was filed in the Circuit court here today. Miss Byington had been conducting the majority of Mrs. Armour's business for her and she had the keys to her safety deposit box.

Mrs. Armour in an interview today, said she had no desire to bring criminal action against her former friend, that she was interested merely in recovering her money.

"The fact that Miss Byington is a woman should not protect her," Mrs. Armour said. "A woman should suffer for illegal acts equally with a man."—Miss Byington should be punished to prevent a repetition of similar thefts. But I do not wish to prosecute the woman, who was my friend and I will not bring a criminal prosecution against her though perhaps the county and state authorities will as it is their duty to see that those who disobey the laws are punished. All I want to do is to recover my money.

"I understand the main point to be made by the defense is that Miss Byington had a weak mind and evidence of luxury unsettled her; that she has no money or bonds belonging to me now in her possession that she has spent all the money she has not restored and that her poor memory does not allow her to remember where or when she made her purchases.

"These statements I know to be false. Miss Byington's memory always was a remarkable one and her mind is lucid. The story that she could have forgotten what she did with my property is laughable to any one who knows Miss Byington."

SUGAR WITNESSES CLAIM THAT A LOWER TARIFF WOULD KILL BUSINESS

Only Important Feature of Statement Brought Out at Investigation

"TRUST" METHODS

WASHINGTON, July 15.—The house sugar investigation committee today heard the evils of the sugar trust described by representatives of the Louisiana cane growers and manufacturers of unrefined sugar.

The witnesses discussed the tariff reduction in existing duties on sugar would destroy their industry.

Theodore S. Wilkinson, Myrtle Grove, La., planter and manufacturer, and former Member of Congress John Dimond, of New Orleans, and J. E. Burguiere, a manufacturer, testified. Burguiere, who was on the stand when the committee adjourned, will be recalled Monday.

Mr. Wilkinson said that two-thirds of Louisiana sugar was sold to refiners. The remainder was further refined at small cost and sold direct to consumers. The planters could not refine all their product and sell it directly to consumers, he said, because they did not have the capital.

All the witnesses agreed that they were compelled by the "trust" to accept a lower price for their product than the price prevailing in New York and to have the cost of freight from New Orleans to New York deducted, though none of the sugar actually reached New York. Mr. Burguiere told at length of how he had been "boycotted" several years ago by the American Sugar Refining company because he sold a large quantity of sugar to the Federal.

"FLIGHT OF VITAL SPARK" CLAIMED TO HAVE BEEN WITNESSED BY DOCTOR

But He Does Not Claim That it is Either Light of Soil or Spirit

TEST ON DYING MAN

CHICAGO, July 15.—The "flight of the vital spark" has been witnessed, according to a statement made today by Dr. Patrick S. O'Donnell, an X-ray experimenter who has been following up experiments made by Dr. W. G. Kilner, of London, Eng. Some time ago, using a chemicalized film sealed between two thin strips of glass, Dr. O'Donnell gave a demonstration to twenty physicians of the aura or "electrical radiation" of living bodies, four young women being used as subjects. The aura developed as a strong ray of light surrounding the entire form of the subject.

"Last night," said Dr. O'Donnell, "in the presence of several physicians at Mercy hospital I tried the experiment on a dying man. He was rapidly sinking. Suddenly the attending physician announced that the man was dead. The aura began to spread from the body and presently disappeared. Further observation of the corpse revealed no sign of the aura.

"We do not claim that the light is the soul or spirit. In fact, no one seems to know what it is. In my opinion, however, it is some sort of radio-activity made visible by the use of the chemical screen. My experiments, however, seem to prove that it is the animating power, or current of life of human beings."

CANTON OUT OF GOOD WATER

CANTON, O., July 15.—A break in the main pump at the city water works pumping station has necessitated the use of creek and lake water for two weeks.

Taking the accident as a basis for a resolution, the Canton W. C. T. U. went on record in a protest against alleged carelessness on the part of city officials in delaying the work on a stand pipe which will meet emergency needs of the city. The resolution says in part:

FEDERAL AUTHORITIES APPEALED TO FOR AID

Little Rock Has Epidemic of Typhoid Fever, Now Having 121 Cases

RELATIVES UP ON CHARGE OF MURDER

NASHVILLE, Tenn., July 15.—Henry Steimle, Frank Steimle and Mrs. Lizzie Steimle, brother, father and stepmother respectively, of Tilda Lurt Steimle, the young girl found murdered on her father's farm on Paradise Ridge, fourteen miles west of Nashville, Thursday were arrested this afternoon charged with the murder of the girl. The arrests follow an inquest. Not a great deal of evidence was brought out at the inquest but enough to show it a most revolting case. The girl was about to become a mother, it was stated, and the authorities believe possibly the murder was committed to hide another crime.

WILL CONTEST AGAINST PROBE

HOUSTON, Tex., July 15.—On the ground that they were wholly under state control, the greater number of oil companies in Texas today whose methods of operation a federal investigation has been ordered, will contest the right of the interstate commerce commission to inquire into their affairs. This was indicated today in statements issued in the offices of the different companies named. The inquiry ordered followed allegations that pipe line rates and regulations were unreasonable, discriminatory and otherwise in violation of regulated commerce.

STEEL TO PANAMA

PITTSBURGH, Pa., July 15.—Many tons of steel rolled by the Jones and Laughlin Steel company and turned over to the McClintock-Marshall Construction company, of this city, were shipped from here today to the Panama canal. The shipment, it is said, is practically the first lot of steel sent to the canal that, in a way, forecasts the completion of the waterway. The steel leaving here today comprises finished pieces for the gates.

Relief in Sight

TAFT'S ADMINISTRATION BROUGHT INTO LORIMER AFFAIR IN NEW WAY

Gov. Deneen Said That He Remarked Jokingly That President Was Man Who Sent Message That Elected Lorimer—Secretary MacVeagh Sent to Deneen to Find Out Particulars of Lorimer's Election

WASHINGTON, July 15.—President Taft's administration today brought into the Lorimer election a new way when Governor Deneen, of Illinois, testified before the investigating committee second in order with Mr. Secretary MacVeagh had been called to ascertain for the election of Secretary Lorimer.

This was about three days after Mr. Lorimer's election. Secretary MacVeagh was proceeding on his own initiative of whether the president had suggested that he interview Governor Deneen was not revealed. Nor was it developed whether an extensive inquiry was being conducted by the attorney general in the manner of Senator Lorimer's election.

Governor Deneen mentioned the name of Secretary MacVeagh when he was asked to whom he had given his version of the famous telephone conversation between Edward Hines and himself on the day Lorimer was elected. It was during this conversation,

so Hines testified, Deneen promised to support Lorimer. This Governor Deneen denied. Hines testified he said over the telephone that he was on his way to Springfield to bring Deneen a message from Senator Aldrich and President Taft about Lorimer's election. Deneen testified Hines said the president was sending him a message through Aldrich who would have George Reynolds, president of the Continental National bank, deliver it.

Gov. Deneen today testified that when he responded to Secretary MacVeagh's request to call at the federal building in Chicago, Mr. MacVeagh said, "He wanted to ascertain for the president matters regarding Senator Lorimer's election," and that he (Deneen) jokingly replied: "Ask the president; he was the man who is said to have sent the message that did it."

Governor Deneen added that in response to further inquiry from the secretary he related the conversation between himself and Hines.

"The conversation only lasted ten or fifteen minutes, for the secretary after I had related my part in the election, said that he was astonished at the reports," added Governor Deneen.

The afternoon session was practically devoted to the Hines-Deneen telephone conversation. It is regarded as having an important bearing on the Lorimer claim that Deneen favored Lorimer's election.

"Do you think Mr. Hines might have mentioned Mr. Reynolds' name for the purpose of identification?" inquired Senator Fletcher, referring to Hines testimony.

"No," Mr. Reynolds could not have identified Mr. Hines for I did not know Mr. Reynolds very well."

Governor Deneen declared that it was not necessary for him to answer them because the contest had been won by Lorimer the night before.

When the committee resumes its hearings Monday, the testimony will be regarding the activities of Edward Hines in the Lorimer election.

DIFFICULT TASK GIVEN AVIATORS BY LONDON PAPER

But Makes It Worth While by Offering Winners Prizes Aggregating \$50,000

CHAS. T. WEYMANN TO REPRESENT U. S.

Experts Feel Certain That It Will be Almost Impossible to Finish Race

LONDON, Saturday, July 8.—England is to witness this month one of the most ambitious attempts at long distance aeroplaning yet seen—a circuit of the island over a course of 1,010 miles—for a prize of \$50,000 offered by The Daily Mail.

The chief point of interest to Americans will be the appearance of Chas. T. Weymann, who, as the representative of the United States, won the international aviation cup at East Church on July 1.

He is the only American entrant but is expected to make a notable showing against the best flying men of Europe, who will compete. The latter include Beaumont winner of the recent European circuit, competition; Verdines, who finished first in the Paris to Madrid race, and Valentine, the Englishman who completed in one day a circuit of the island divided into circuits ranging from 30 to 142 miles in length.

Whether any of its competitors will complete the race is doubtful, as the conditions, in the opinion of experts, are almost impossible of fulfillment. More depends upon the stability of the machines than has been required in any previous race. The flying men must do the circuit of over one thousand miles practically with their machines intact. The most important parts of each machine are to be marked and these parts must be kept together throughout the course. The few men who finished in the recent European circuit race changed their aeroplanes at some stage of the journey or made substitutes of the most important parts so that they returned to France with almost entirely new machines.

The crucial stage of the journey, in the opinion of air men, will be between Harrogate and Edinburgh. The country is so uneven and the air currents so troublesome there that it would be no surprise if the race ends its quietus along this stretch.

HUNDRED PROPOSALS OF MARRIAGE TO MAN WHO WILL INHERIT MONEY

Must Marry and Have Family by Time He is Fifty Years Old

HE IS NOW FORTY

MATTOON, Ill., July 15.—Charlie Montague, who, by the terms of the will of his father, Joel T. Montague, will inherit a quarter of a million of dollars if he marries and has a family by the time he is fifty years old, has received more than a hundred proposals of marriage from young women who say they offer good reputation and character but no money to the proposed union.

"Forty years I have lived without a wife," Mr. Montague said, "but some of these proposals are so touching I may reconsider my determination to contest the will."

OFFICIAL BALLOT WILL BE PREPARED

JACKSON, Miss., July 15.—The democratic state executive committee will meet here Monday at noon to prepare the official ballot for the state primary to be held on August 1 and to declare as nominees of the party all candidates who have no opposition. The list of candidates thus far unopposed is as follows:

For governor: Earle Brewer, of Clarksdale.

For clerk of Supreme court: Geo. C. Meyers of Jackson.

This will be the first time in history that an aspirant for the governorship has captured the office without opposition. Mr. Brewer was a close second in the campaign four years ago, being defeated in the second primary by E. F. Noel by a little more than 2,000 votes.

BLINDNESS PREVENTABLE

NEW YORK, July 15.—One-half the total blindness in this country is preventable. The Association for the Conservation of the Vision claims and it announced here today that it will appoint a day in 1913 for the purpose of educating the public regarding the importance of good vision and the methods of preserving it. The day will be called "Conservation of Vision Day," and the comprehensive plan of the association is to have practically every person in the United States instructed on that day in the care of the eyes.
