## When the Stomach Stops Working Properly, Because There is Wind in it, Use Stuart's Dyspepsia Tablets to Set it Going Again

Working Properly, Because There is Wind in it, Use Stuart's Dyspepsia Tablets to Set it Going Again

A Trial Package Free

The doctors call it flatulency, but unprofessional folks know it as "wind on the stomach," and a most distressing condition of things it is. It is a serious, always annoying and painful in the extreme, at times often leading to bad and fatal results. The stomach embarrassed and hampered with wind cannot take care of its food properly and indigestion follows, and this has a train too appalling to enumerate. The entire system is implicated—made an active or passive factor in this trouble and life soon becomes a questionable boon.

All this is explained in doctor books; how undigested food causes gases by fermentation and fermentation in which process some essential fluids are destroyed—burnt up—wasted by chemical action, followed by defective nutrition and the distribution through the alimentary tract of chemically wrong elements and as a consequence the stomach and entire system is starved. Plenty of food, you see, but spoils in preparation and worse than worthless.

A deranged stomach is the epitome of evil; nothing too bad to emanate from it, but the gas it generates is probably its worst primary effect and the only way to do away with this is to remove the cause. Stuart's Dyspepsia Tablets go to the root of this trouble. They attack the gas-making foods and render them harmless. Flatulency or wind on the stomach simply cannot exist where these powerful and wonderworking little tablets are in evidence.

They were made for this very purpose to attack gas-making foods and convert them into proper nutriment. This is their province and office. A whole book could be written about them and then not all told that might be told with profit to sufferers from this painful disease, dyspepsia.

It would mention the years of patient and expensive experiment in effort to arrive at this result—of failures innumerable and at last success. It would make mention of the different stomach correctives that enter into this tablet and make it faithfully represent all.

Stuart's Dyspepsia Tablets are not alone intended for the sick, but well folks as well; for the person who craves hearty foods and wants to eat heartily and run no risk of bad effects, they act like a charm and make eating and digestion a delight and pleasure. They keep the stomach active and energetic and able and willing to do extra work without special labor or effort. Don't forget this. Well people are often neglected, but the Stuart's Dyspepsia Tablets have them in mind.

A free trial package will be sent any one who wants to know just what they are, how they look and taste, before beginning treatment with them. After this go to the drug store for them; everywhere, here or at home, they are 50 cents a box and by getting them at home you will save time and postage. Your doctor will prescribe them; they say there are 40,000 doctors using them; but when you know what is the matter with yourself, why go to the expense of a prescription? For free trial package, address F. A. Stuart company, 159 Stuart building, Marshall, Mich.

## DICTIONARY DAY TOMORROW

Books Are Going Fast and One Should Come Early Before the Rush

The Initial Shipment is Limited and Will Soon Be Exhausted

Tomorrow will be Dictionary Day. Come early and avoid the rush of the wise ones who will seek to take advantage of The Citizen's offer of a Webster's New Standard Dictionary, illustrated, for six coupons clipped from consecutive issues of the paper and a small expense bonus.

Early tomorrow the dictionary distribution will start, and judging from the crowds that have been examining the volumes during the past few weeks, they are going to go like the proverbial hot-cakes.

So far, the flexible black leather binding of No. 1 style has made that type of book the favorite.

"It looks like a Bible" is what they all say. The comment is justified, as the book is made up of the best print on the best Bible paper. In fact, as the work is almost as indispensable, the Dictionary should be placed beside the Bible on every shelf, no matter whether it be five feet or fifty feet in length. In appearance it is a fit companion volume of the best Bible ever printed.

A dictionary of such common-sense size and compiled in such a comprehensive manner is just as indispensable to the business man as the telephone book or the city directory.

Knowledge You Use is What Counts. It is not how much knowledge you have but how much knowledge you use that counts in your work, and it is the same with books. You might have the largest dictionary or encyclopedia in the world, but it would not do you as much good, as the dictionary which The Citizen offers its readers. The volume is small enough to keep constantly at your elbow and you will use it ten times to the once you will cross the room to consult the big Webster's on the stand or table, and that you will use it a hundred times more than you will use a library or encyclopedia.

A well known business man explained yesterday why he was clipping the dictionary coupons. A visitor noticed that he was preparing to secure a dictionary from The Citizen and expressed his surprise, as he had a big volume of Webster's in his office.

"I want that flexible leather dictionary," he said. "It's the handiest book of the kind I've ever seen and the most complete. Do you know most people don't realize how many more words are listed in our language every year. This book is up to date and I need it in my business. It's dollars to doughnuts that I'll use it ten times as much as I ever use that cumbersome one. This Citizen book is a Carnegie library at your elbow."

If you have not started clipping already, start now.

You can get any one of the three styles of books by mail by sending the six consecutive coupons, the expense bonus and twenty-two cents postage.

From all indications tomorrow will be the big day and from all reports several hundred dictionaries will be distributed. Many people have already availed themselves of The Citizen's great offer and have shown the dictionary to their friends. Those who did not start clipping the coupons at first have now collected the six coupons and will get their copy of this useful work the first thing tomorrow morning. The initial shipment is limited and the first 600 copies will soon be exhausted and it will take some time to get another lot to Asheville. For this reason it will be well for those who are in a hurry to get the dictionary to call at The Citizen office early in the week. Don't be among those who may be disappointed by having to wait for the second shipment to arrive. Mail orders will be filled as fast as they are received.
