

BOOSTERS' EXECUTIVE COMMITTEE MEETS

Financial Side Will Be Given Special Attention at Meeting Here This Afternoon.

The executive committee of the "Greater Western North Carolina Association," which was permanently organized in Hendersonville last Thursday, will meet in the board of trade rooms in Asheville this afternoon at 2:30 o'clock.

This committee is composed of H. W. Plummer, chairman, of Asheville; E. J. Sloan, of Waynesville; Hon. W. E. Moore, of Jackson county; Joseph E. Silverstein, of Transylvania county; Hon. M. L. Shipman, of Hendersonville; and T. T. Ballinger, of Polk county.

The committee at the meeting today will consider matters pertaining mostly to the financial side of the organization, it having been decided at the meeting at Hendersonville to raise \$15,000 at an early date for the purpose of financing the mission of the association.

As the organization is in its infancy and covers a great deal of territory, involving matters of wide importance, a number of important subjects will come before the meeting today.

Officers of the organization are desirous of making it a useful factor in the boosting and developing of western North Carolina at an early date.

In connection with the advertising and developing of this section it will be of interest to know that Jackson county has been thoroughly worked up to the necessity of such a movement judging from the following Dillsboro correspondence in the Jackson County Journal:

"In accordance with the general plan of advertising Western North Carolina's resources the citizens of Dillsboro met on the 13th and organized a board of trade. Mr. R. F. Jarrett was elected president, and Mr. Holmes Bryson, secretary.

"It was agreed by the board to cooperate with all such organizations in Jackson county and with the general organization. The Dillsboro delegate to the general meeting was instructed to pledge the financial aid of the Dillsboro board of trade in the advertising campaign to be instituted by the business interests of Western North Carolina.

"Plans were discussed for securing and entertaining a greater number of tourists during the coming season. In fact, many persons who were desirous of spending the hot season in our town were unable to find accommodations. The board will endeavor to remedy these conditions and furnish greater facilities for handling the summer tourists."

COUNTER CABINET INSTALLED

The American Hotel Supply company of Chicago has installed at the Battery Park hotel, a handsome counter cabinet, which bears the advertisement of a number of local merchants, business and professional men and which is very convenient for the guests of the hotel as well as the clerks on duty. It is well gotten up, is attractively decorated and is a handsome piece of furniture.

RESUME OPERATION AFTER SIX MONTHS

Brevard Cotton Mill Again Running on Full Time, Giving Employment to 75 People.

BREVARD, N. C., Nov. 26.—The Brevard cotton mill has resumed operation after a shut-down of about six months and is again running on full time and giving employment to some seventy-five operatives. This mill is only about two years old and is modernly equipped in every particular. It is operated by electric power, obtained from the Cascade Power company.

This mill was formerly the Transylvania Cotton Mill. It fell into financial difficulties last spring and was sold under a deed of trust. In July it was purchased by Messrs. W. C. Cleveland and J. Hudson Williams, of Greenville, S. C., and it is these gentlemen who are now starting the mill up again under the active superintendency of Mr. C. M. Cooke, Jr.

The secretary of state recently issued a new charter for the mill under the name of the Brevard Cotton Mill, Inc., and yesterday a permanent organization was effected with the following directors elected: J. Hudson Williams, W. C. Williams, both of Greenville, and Welch Galloway, of Brevard. The following officers were elected: W. C. Cleveland, president and treasurer; and J. Hudson Williams, vice-president and secretary.

The mill is running on 30 1/2 skains, and has orders ahead at present beyond the turn of the year. There is a rumor to the effect that the new owners will at an early date enlarge the mill, putting in a sufficient number of looms to take care of the yarn made, but this rumor can not be confirmed at the present time. Mr. Cleveland is at present in New York on business connected with the mill and upon his return some definite announcement is expected of the future plans for the mill.

JOHN DRAKE STARTS HIS CLASS TONIGHT

Wrestlers at Y. M. C. A. Looking Forward to Free Instruction to be Given by Expert.

Many wrestling enthusiasts will doubtless gather at the Y. M. C. A. this evening at 8:45 o'clock, when John Drake will conduct his first class in wrestling. A number of the members of the association have expressed their intention of taking advantage of the opportunities which will be offered them to become mat artists and will enter into the ring this evening with fervor.

As recently announced, the exhibitions and lessons are open to the members of the association and no charge will be made for them, since Mr. Drake has consented to conduct the lessons free of charge.

DR. BUCHHEIT MADE ADDRESS AT Y.M.C.A.

Catawba College President Speaks on "The Eternal Question"—Special Music by Male Quartette.

"The Eternal Question"—If a man die shall he live again?—has confronted the followers of all creeds and beliefs since the creation of man, according to Dr. J. F. Buchheit, president of Catawba college, who addressed an appreciative audience at the local Y. M. C. A. yesterday.

This question has been studied by all classes of the human race from the immemorial to the present day, the works of Robert Ingersoll even giving ground for the belief that of the possibility of life beyond the grave, said the speaker. Jobs, when sorely afflicted and when he had lost his earthly goods, cried out: "If a man die shall he live again?"

Dr. Buchheit said that there are some things which men are slow to believe, requiring indisputable proof of a fact, but there is a universal belief that there is an eternal life. He said that all the races of the nation may be examined but the testimony of them all will be the same—that the belief in a future life is as universal as the idea of religion itself. He said that there was never a race of people that did not have a religion of some kind. They all believed in something beyond the grave, let the future be called what it may.

In the most descriptive and convincing language the speaker took his hearers back to antiquity, describing the habits of different races at different times. Their customs pointed to the belief that there is a future life and that the chief business of this life is to prepare for the life to come.

Dr. Buchheit said that a perusal of the funeral address of Robert Ingersoll over his brother and over the death of a child would give ground for the belief that Ingersoll believed in the possibility of something beyond the grave. The speaker said that it is for us to decide where we shall spend the future—at a place of eternal bliss or everlasting woe.

Dr. L. B. McBrayer, C. H. Hones, E. B. Stinson and R. W. Hammersbaugh said: "Where Shall I Spend Eternity?" and "My Jesus, I Love Thee"

"BOHEMIAN GIRL" TO ARRIVE TOMORROW

Aborn's spectacular production of Balfe's famous opera, "The Bohemian Girl" appears at the Auditorium tomorrow night, there being no matinee. The seats which are now on sale are reported to be going well and a gratifying house is expected. Private advices from Charleston are to the effect that the opera is gorgeously staged with many novel features. The criticisms of both papers in that city were highly favorable.

A. W. L. MEETS TODAY. The American Woman's League will meet at 4 o'clock today in the Y. M. C. A. auditorium.

Bowels are Basis of Child Health

The careful mother, who watches closely the physical peculiarities of her children, will soon discover that the most important thing in connection with a child's constant good health is to keep the bowels regularly open. Stagnant bowels will be followed by loss of appetite, restlessness during sleep, irritability and a dozen and one similar evidences of physical disorder.

At the first sign of such disorder give the child a teaspoonful of Dr. Caldwell's Syrup Pepsin at night on retiring and repeat the dose the following night if necessary—more than that will scarcely be needed. You will find that the child will recover its accustomed good spirits at once and will eat and sleep normally. This remedy is a vast improvement over salts, cathartics, laxative waters and similar things, which are altogether too powerful for a child. The homes of Mrs. Yallie Utley, Keyser, N. C., and Mrs. E. L. Blair, Dalton, Ga., are always supplied with Dr. Caldwell's Syrup Pepsin, and with them, as with thousands of others, there is no substitute for this grand laxative. It is really more than a laxative, for it contains superior tonic properties which help to tone and strengthen the stomach, liver and bowels so that after a brief use of it all laxatives can be dispensed with and nature will do its own work.

Anyone wishing to make a trial of this remedy before buying it in the regular way of a druggist at fifty cents or one dollar a large bottle (family size) can have a sample bottle sent to the home free of charge by simply addressing Dr. W. Caldwell, 405 Washington St., Monticello, Ill. Your name and address on a postal card will do.

PRACTICE GAME TO BE PLAYED TONIGHT

First and Second Basketball Teams of Y. M. C. A. Will Line Up Tonight—Ready for Spartanburg.

The first and second teams of the Y. M. C. A. will play a game of basketball in the gymnasium of the association building this evening at 8:45 o'clock. The contest will doubtless be a well played one as the members of both teams are fast getting into good form for the season. The supporters of the first team believe that their favorites will clean up with the younger fellows, although those who are looking to the second team to show their mettle are of the opinion that the first team will find itself in a bad position when the game is called.

No admission will be charged, the game having been arranged for the purpose of getting the members of the first team into good line shape, so that they may develop good form for the game with the team of the Spartanburg Y. M. C. A., which will be played Wednesday night and which promises to be a hard fought contest. The Spartanburgers are expected to arrive here Wednesday morning at about 11 o'clock, and the members of the team of the South Carolina city are confident that they will take the opening game of the basketball season here. However, from the line of dope which the supporters of the locals are handling, there's likely to be some trouble for visitors when they stack up against the Ashevilleians.

PLUMBING "TRUST" ALERT

WASHINGTON, Nov. 26.—"The plumbing trust," which government officials say controls the sale of plumbers' supplies in most of the Rocky Mountain and Pacific coast regions, has capitulated to the department of justice and is seeking to avoid court proceedings. Representatives of the "trust," it became known here today, will present their ideas of dissolution and compliance with the Sherman law at a conference to be held at the department later in the week.
