QUICK ACTION BY NORTHLAND'S OFFICERS

Mayflower Crosses Course of Passenger Steamer By Close Margin

OLD POINT, Va., June 9.-They presidential yacht Mayflower, with the president and Mrs. Talt and a party of their distinguished guests aboard, narrowly escaped a collision early today with the steamer North-land of the Norfolk and Wachington line not far from Point Lookout, where the Potomac river empties into Chesapeake Bay. Only the vigitance of the officers of the Northland and the Mayflower and their prompt action prevented what looked for a minute like an accident.

As it happened the Northland parrowly missed the Mayflower. Officials and one or two persons on the pas senger boat who were looking only got a momentary shock. It was perfeetly still moonlight morning, with no sea running and the lights of passing vessels could be seen for miles. The few passengers awake showed no signs of panic but they looked relieved when danger was over.

The Mayflower left Washington last night about 6.30 for Hampton Roads, In addition to the president and Mrs. Taft, General William Crosier, Representative Gillet of Massachusetts, Clarence H. Kelsey and Mrs. Kelsey, of New York, Mrs. Francis G. Newslands, wife of the Nevada senator, and Major T. L. Rhoads, U. S. A., and Lluetenant J. N. Timmons, U. S. Captain Posey made no attempt to pass the president. Shortly after the Northland passed into Chesapeaks Vay, however, where there is plenty of sea room the officer on watch decided to forme ahead of the Mayflower. At that time the navy boat was probably a third of a mile ahead Missouri and of the Northland and a few hundred yards to the starboard of the North

land's course. The fragment of moon and plenty of light stars made the bay almost light enough to read by, while there was hardly a puff of wind. Northland gave a signal that she wished to pass on the Mayflower's port side and a few seconds later came the response from the yacht
