## GAMES POSTPONED IN CAROLINA LEAGUE

DOUBLE-HEADERS WILL BE STAGED THIS AFTERNOON.

First Engagement Between Bulls and Mountaineers Will Be Called This Afternoon at 2:30 O'Clock.

For the second time during the present season, all games scheduled in the North Carolina league were postponed yesterday, and it was announced that double headers will be played today with Durham at Asheville, Charlotte at Raleigh and Greensboro at Winston-Salem. The first contest on the local lot will be called this afternoon at 2:30 o'clock. Under the laws of the league, it must go for nine innings although the second contest doubtless will be called at the end of the seventh, if the winner is chosen by that time. This line of dope goes if the weather today permits the Mountaineers and the Bulls to play at all this afternoon. The weather man last night wouldn't offer a great deal of encouragement to the members of fandom, as the management of the local bureau has a hunch that the inclement weather of yesterday will continue through today. The Bulls arrived here yesterday morning and a great game was expected by the members of the baseball club here. However, when they got up early yesterday morning to ask for more cover, the historic pitter patter and shrieking wind were doing duty and it was soon realized that Oakes park would be deserted during the day. With a double header on tap for this afternoon, it is expected that the supporters of the team will turn out in full force to take advantage of the offerings on the baseball bargain counter. Heretofore, Asheville hasn't had a great deal of luck with double headers, although the faithful fans who never concede defeat until the last man is out in the last inning are firm in the belief that the Mountaineers will break their double-header luck this afternoon and will be in a position to make life miserable to Kelly's manager.

### STANDING OF THE CLUBS.

Carolina.			
Club	Won	Lost	Pct.
Raleigh	23	16	.590
Winston-Salem	21	17	.553
Durham	21	17	.553
Charlotte	19	18	.514
ASHEVILLE	16	22	.421
Greensboro	14	24	.368

National.			
Club	Won	Lost	Pct.
Philadelphia	28	12	.700
New York	24	18	.571
Brooklyn	23	18	.561
Chicago	24	23	.511
Pittsburgh	22	24	.478
St. Louis	21	26	.447
Boston	17	25	.405
Cincinnati	17	30	.362

Montgomery	25	27	.481
Memphis	25	29	.463
New Orleans	20	35	.364

### RESULTS YESTERDAY.

**National.**  
At St. Louis 12; Boston 6.  
At Cincinnati 1; Philadelphia 10.  
At Chicago 3; New York 11.  
At Pittsburgh 7; Brooklyn 10.

**American.**  
At Boston 4; Cleveland 1.  
At New York 4; Chicago 1.  
At Philadelphia 5; St. Louis 0.  
At Washington 4; Detroit 6.

**Southern.**  
At Mobile 3; Memphis 2. (12 innings.)  
At New Orleans 4; Montgomery 2.  
At Birmingham-Atlanta, postponed.

**International.**  
At Newark 2; Baltimore 1.  
At Jersey City 2; Providence 0.  
At Rochester 4; Buffalo 9.  
At Toronto 0; Montreal 5.

**American Association.**  
At Milwaukee 4; St. Paul 2.  
At Columbus 7; Indianapolis 9.  
At Louisville 5; Toledo 4.  
At Kansas City 4; Minneapolis 7.

**South Atlantic.**  
All games postponed rain.

**Appalachian.**  
At Rome 12; Bristol 0.  
At Knoxville 9; Middleboro 1.  
At Morristown 1; Johnson City 2.

**Virginia.**  
At Norfolk-Richmond, wet grounds.  
At Roanoke 1; Petersburg 2.  
At Newport News 6; Portsmouth 1.

**College.**  
At Princeton: Yale 5; Princeton 4. (12 innings.)

**DIAMOND CHIPS.**  
It may have been a lucky rain for the Bulls.  
When the weather man does hit he strikes a heavy blow.  
J. Piny is batting up around the top. His work kept them all from winning.

Rain, rain everywhere. Double-headers, double-headers everywhere. With two days in which to rest the teams should pull some fancy performances this afternoon.

Yes, the report that the Highlanders won another yesterday has been confirmed. It's not a fake story.

Pitching a no-hit game appears to have been Carl Ray's undoing.

Last week's record is one to be proud of. If the Tourists can only keep it up.

Many fans had their overcoats and hot bricks ready in case the game should have been called.

Well, a double dose today will clinch the series. And Asheville needs the big end of the trio.

When fans heard the rain yesterday morning they went back to sleep. They realized that they would have plenty of time for business during the day.

The managers around the circuit continue to strengthen their teams. They evidently expect the race to remain warm.

And after that trip from Durham the majority of the Bulls were glad that the diamond was too soggy for a game.

In case she has to do it, Asheville can be relied upon to make nine runs in one inning.

## GEORGIA GIRL TO BE A JUNE BRIDE

**Miss Ruth Tribble.**  
The engagement of Miss Ruth Tribble, daughter of Representative and Mrs. Samuel J. Tribble of Georgia, to Mr. Samuel Kinney Dick of Atlanta, Ga., has just been announced. The marriage will take place June 19 at the home of the Tribbles in Athens, Ga.

### AMERICAN.

**TY COBB HITS SOME.**  
WASHINGTON, June 9.—Detroit's excellent all-around playing, aided by Washington's errors and Hughes' wildness, gave the visitors the game here today, 6 to 4. Cobb and Willett knocked home runs.

The score by innings: R. H. E. Detroit . . . . . 300 111 000—6 11 0 Washington . . . . . 000 004 000—4 7 4 Batteries: Willett, Dubeu and McKee; Hughes, Gallia and Henry. Time, 2:05. Umpires, Huldebrand and O'Loughlin.

**NEW YORK TAKES ANOTHER.**  
NEW YORK, June 9.—The New York Americans defeated Chicago today 4 to 1. The Highlanders won by bunching infield hits off Clotte in the fifth inning. Ford was hit hard in spots, but good support pulled him out of several tight places.

The score by innings: R. H. E. Detroit . . . . . 000 000 100—1 8 2 New York . . . . . 000 040 000—4 8 2 Batteries: Clotte, Lange, White and Schalk; Ford and Sweeney. Time, 1:45. Umpires, Evans and Egan.

**WINNING STREAK BROKEN.**  
BOSTON, June 9.—Falkenberg's string of ten consecutive victories was ended by the Red Sox today, Cleveland being beaten 4 to 1. Falkenberg was taken out in the seventh to allow Lafitte to bat for him. But the elongated twirler had some consolation, a dispatch from Washington announcing the arrival of a son.

The score by innings: R. H. E. Cleveland . . . . . 000 000 010—1 8 1 Boston . . . . . 010 010 110—4 7 2 Batteries: Falkenberg, Mitchell and Carich; Redlett and Carrigan. Time, 1:45. Umpires, Connolly and McGraw.

**BENDER IN GREAT FORM.**  
PHILADELPHIA, June 9.—Bender's great pitching for Philadelphia today defeated St. Louis 5 to 0. The visitors' two hits were of the scratch order and they never had a chance to score. Johnston, running after a fly in the seventh, fell over the cement coping, but later resumed play.

The score by innings: R. H. E. St. Louis . . . . . 000 000 000—0 2 2 Philadelphia . . . . . 000 120 020—5 11 1 Batteries: Hamilton and Agnew, McAllister; Bender and Schang. Time, 1:50. Umpires, Dineen and Ferguson.

**EX-KING MANUEL TO WED COUSIN SOON**

The engagement of ex-King Manuel of Portugal and his second cousin, Princess Augusta Victoria, was announced some time ago. The date for the marriage is not yet fixed, but the engagement is not likely to be a long one. Manuel still hopes that the republic will fall in Portugal, and that he will be re-crowned to the throne.

Reliable Pressing Club, Phone 445.

**PASTE THAT IN YOUR HAT!**  
You may think wife has an idea. That you're perfect and then some. And to your many, many faults. Is blind and deaf and dumb; You may take a sly joy ride And go on a quiet jag. And think she isn't on to it Because she doesn't nag. But wait, old sily junkhead. You'll get knocked flat. You can't fool a woman. Just paste that in your hat.

You may play saint before the town And snicker in your sleeve Because these silly duffers In your false rightness believe; You may put on your false face And fix yourself so slick As to think no one upon the earth Can tell you're a gold brick. But wait, you wolf in sheep skin. You'll get stamped like a cat. You can't fool the people. Just paste that in your hat. C. M. BARNITE.

**SMASHED EGGS.**  
When the broody smashes eggs in a setting the wise fancier runs for warm water to wash the smeared eggs, for he knows that the albumen will act like varnish and close the shell pores, and the growing embryos within the egg will suffocate.

He washes and dries them carefully and places them at once under the hen and at the same time registers a doubt as to whether that hatch will make good.

Such accidents generally find their cause in too small a nest, too deep a nest where eggs pile on top of each other and can't be turned, nests that hens must jump down into, nests where clucks and layers are together, fighting broodies, lack of nest material, too full a nest, hard nest material, too large a setting, thin or rough shelled or misshapen eggs, clumsy clucks, overweight hens or sassy screechers that rough house whenever the nest is approached. By remedying these particulars smashed eggs and consequent poor hatches may be reduced to a minimum.

**FEATHERS AND EGGSHELLS.**  
A handler of pigeons in a live bird shooting match near Pottsville. Pa. tied freerackers to a pigeon's feet to make the bird lively, so it would be hard to shoot. The pigeon flew into a hay mow, the hay was fired, and the Reading's big stables, worth \$8,000 were burned, and the big Otto colliery barely escaped destruction. Such a cruel human should be sent to jail or an asylum.

Raydon, Ipswich, England, boasts a turkey farm that has been a success for thirty-five years. Over 200 turkey hens are kept for breeders to supply the trade with eggs and day-old turkey chicks. Can any of our Texas friends beat this?

York (Pa.) cops are wise on poultry. A bird burglar being reported to headquarters, a cop entered a suspect's coop, picked out a rooster of the breed described in the complaint, turned the bird loose in the alley, and the fowl made a bee line for the complainant's coop. On that evidence the thief went to jail.

The Emden goose should be selected in preference to the Toulouse. At best age they dress from nine to fifteen pounds, a popular size; are fine grained, white as marble, their feathers are more valuable and the carcass sells for more money per pound.

If you use acetylene in your house or for lighting your automobile pour the lime from the used carbide down the rat holes or where rats frequent, and the long tailed varmints will quack vamoose. They can't stand that acetylene smell.

The laying contest at Storrs, Conn., last year shows an average of 158 eggs per hen, while the Missouri competition shows the average of 134 per hen for the year. This does not give eastern breeders ground to boast that their birds are higher bred for eggs than the western, for the ration at Storrs had extras that the Missouri cacklers didn't get.

Six years ago we exhibited at a show, and among our winnings was a cup that had to be won two years in succession before the exhibitor owned it. On account of state lecture work we have not been at that show since. In the meantime five different fanciers have won the cup once. A prize with such a string to it is a farce. When won once and won fairly the prize should become at once the property of the exhibitor who has expended his money and time to win.

Johnny Bull is certainly having a crying time over poultry and eggs, and we suggest to him that good old remedy, "The Lord helps them that help themselves." He has depended on other nations for his poultry, and in 1912 importations shrank \$55,000. Canada even went back on him and imported from Uncle Sam for her own use only 7,476,242 dozens of eggs.

When you test out those infertile eggs there are fewer eggs to heat and more room on the trays for the fertiles and they can be turned to better advantage. When you make your second test about the fifteenth day you rid the batch of everything that's dead and bound to corrupt the air in the machine.

When the army worms started in on ten acres of corn belonging to M. M. Klecklighter of Groveland, Ga., he drove a flock of turkeys into the patch, and they went for the wigglers and saved him 500 bushels of corn. Congress recently appropriated \$25,000 to eliminate the worm. Better use that money to encourage turkey culture.

Some fanciers seem to breed birds entirely for the outside. Any old shape seems all right to them if it has feathers barred to the skin, red ear lobes, a fine point comb and seven feathers to the tail.

**REFUGEES ARE ARRIVING.**  
SALTILLO, Mex., June 9.—More than 100 refugees, chiefly Americans and British, arrived here today on a special train from Concepcion Del Oro in northeastern Zacatecas, about 78 miles from here. The refugees were compelled to pay rebels \$12,500 for the train and for permission to pass out.

A synthetic tannin, distilled from tar products, has been invented by an English leather industries expert for tanning light colored leathers.

Tiny but efficient electric lamps to be worn on their caps by bandmen at night and supplied with current by storage batteries have been invented.

**FARM ORCHARD AND GARDEN BY F.ETRIGG REGISTER. ROCKFORD, I.A. CORRESPONDENCE SOLICITED**

Dogs have proved a very effective type of guard for a railroad line in Greece in the recent war.

According to tradition, the use of asphalt is very old, it having been used as a binder in masonry by the Babylonians.

There is no article of food that is finer when it is fresh than fish and none that loses its character sooner when put in storage.

At the beginning of the present year 12,000,000 phones were in use in the world, and there were nearly 30,000,000 miles of wire strung to accommodate these instruments.

Some one has said that the loneliest type of persons he knows of are those who, failing at most everything else, go into the poultry business on a large scale to get rich quick.

The smell of onions may be removed from the hands by rubbing them with stalks of celery or parsley and in a large measure from one's breath by eating portions of the same vegetables.

Kansas has in sight a winter wheat crop estimated at 125,000,000 bushels, the largest in the history of the state, and already an urgent call has been issued for emergency harvest hands to help garner it in.

Giving an animal a drop of raw eggs broken into a broad mouthed bottle is said to give immediate relief in case an obstacle sticks in the animal's throat. The head should be raised in giving the lubricant.

Vigorous, pure bred cock birds of any of the standard breeds will have much the same effect in improving a flock of scrub hens on the average farm that the purchase of a registered sire will have on the scrub cattle.

No matter how gentle a horse may be, it is always a good plan to speak to it before stepping up behind it in the stall. In many cases gentle horses have been known to kick when taken by surprise, simply through the natural instinct of self preservation.

The other day there was felled in Bushey park, Hampton court, London, an elm over 300 years old. When cut up there was found imbedded in its trunk an old fashioned street lamp, which had evidently been nailed to it and gradually covered as the tree increased in size.

A serum discovered by the Rockefeller Institute in New York city has been tried with very gratifying success in the treatment of pneumonia in both cattle and horses by an Indiana veterinarian. Although the animals were in the last stages of the disease, the treatment seems to have given immediate relief.

An excellent bait for killing cut-worms is made by mixing one-half pound of paris green with twenty-five pounds of bran. A spoonful of this put at the base of each plant will furnish it protection during the period when the worms are on the warpath. It is said that this preparation may be made the more attractive to the worms if it is moistened with sweetened water.

Both gooseberries and currants bear fruit on wood that is two, three, four and five years old. Neither one nor five-year-old wood bears to amount to anything. This indicates the method of pruning that should be followed—namely, cutting out wood that is more than four years old and thinning out the one-year-old shoots to three or four of the strongest each season. Those left should be cut back to a height of about two feet.

The Los Angeles water supply tunnel has lately been completed at a cost of more than \$20,000,000. The system extends from the snow fed streams in the Sierra Nevada mountains across the Mohave desert, a distance of some 230 miles. The system will furnish the water needed for a city the size of London. Until Los Angeles needs this amount of water the surplus will be utilized in irrigating 125,000 acres of orange land.

The hog raiser who lost more than 40 per cent of his little pigs because of their being born dead or dying shortly after birth had not learned the fundamental truth that corn does not constitute a balanced ration for brood sows and does not contain those food elements which she must have if her offspring are to be vigorous and healthy. To avoid this trouble in the future he should feed clover or alfalfa hay, bran or shorts and barley instead of so much corn.

A synthetic tannin, distilled from tar products, has been invented by an English leather industries expert for tanning light colored leathers.

Tiny but efficient electric lamps to be worn on their caps by bandmen at night and supplied with current by storage batteries have been invented.

**WHY—**  
FONTECELLO MINERAL WATER IS USED BECAUSE IT IS ALKALINE, LIGHT AND PURE, TESTED MONTHLY BY STATE CHEMISTS, ALL BOTTLES AND CORKS STERILIZED, WILL KEEP FRESH INDEFINITELY. BECAUSE

It is highly recommended and prescribed by some of the greatest specialists on surgery and medical science in America and Europe. Geo. Ben Johnston, M. D., Stuart McGuire, M. D., Lewis C. Boscher, M. D., J. C. Walton, M. D., and others prescribe it for the following ills:

Rheumatism, Gout, Kidney, Bladder and Digestive diseases. Prevents Urinary deposits, Stone and Gravel; Eliminates uric Acid, the Toxins of Typhoid and other fevers.

**IS ESPECIALLY GOOD FOR WEAK STOMACHS.**  
**ACHS.**  
Can be had from all Leading Druggists.
