## STOCK MARKET HAD VERY ACTIVE SESSION

NEW YORK, Aug. 11.—After four days of alternate declines and advances today's stock market took on an appearance of strength and activity in the final hour, transactions in that period more than equalling all the other hours of the session. The leader was United States steel by which large buying orders made their appearance. There was no news to account for the sudden inquiry of steel.

The buying later comprehended Canadian Pacific, Union Pacific, St. Paul, Canadian Pacific's gain of almost 4 points preceded the declaration of the regular dividend.

While considerable realizing was seen in the latter dealings, the market lost little of its advance, average gains extending from 1 to 2 points. Southern Pacific was almost the sole stock of prominence to show some backwardness.

The bond market was irregular but hardened toward the close in sympathy with stocks. Government bonds were unchanged on call. Total market value, aggregated \$1,125,000. Sales were 27,100 including American Tobacco 100; C. & O. 2,000; L. V. 1,000; N. & W. 2,200; S. A. L. 100; do pfd 300; Southern Pacific 27,100; Southern Ry 1,000; U. S. Steel \$4,100; V. C. 800.

## COTTON MARKET HAS A SHARP ADVANCE

NEW YORK, Aug. 11.—The failure of today's weather report to show rain in the southwest, as predicted on Saturday, caused a sharp advance in the cotton market at the opening, but a flurry of covering was followed by reactions, and fresh buying seemed to be restricted by reports of good rains in Arkansas, increasing new crop receipts, and favorable crop advices from the eastern belt. The close was steady with last prices 3 to 6 points net higher.

Business was active early, and many of Saturday's sellers appeared to be buying back their contracts on reports that nothing more than a few light showers had fallen in Texas over Sunday. Cables were a shade better than due, which naturally contributed to the nervousness of recent sellers, and first prices were ten to eleven points above the closing figures of last week. The first flurry of buying seemed to exhaust the immediate demand, however, while the market met considerable cotton above 11 cents for December and prices soon began to sag off. Business became less active on the decline, and after easing off to about the closing figures of Saturday the market was again steadied by covering, with the close showing rallies of 3 or 4 points from the lowest. Reports of good rains in sections of Arkansas and an official forecast for unsettled weather in Oklahoma encouraged private predictions of a break in the south-western drought. The detailed weather reports showed continued high temperatures in both Oklahoma and Texas, with a few light showers in the eastern part of the latter state and noon weather reports showing no change in conditions helped the closing rally. Weekly reviews of the crop outlook generally, noted deterioration in the western belt but claimed a favorable progress east of the river.

Spot cotton quiet; middling uplands 12.00; middling gulf 12.25. Sales none.

**NEW ORLEANS COTTON**

NEW ORLEANS, Aug. 11.—The cotton market was quiet but steady today, the continued drought in the west being the chief sustaining influence. Very little buying for long account was in evidence. The scattered selling was fairly well met by the demand from shorts who wanted profits, except in the early afternoon when the market went below last week's closing level.

On the opening the tone was steady and prices were four to nine points above the closing of the previous day in the west. Both Texas and Oklahoma sent in bullish crop accounts. After the call the most active months stood 7 points up. The forecast of unsettled weather for Oklahoma was considered a favorable feature and stimulated selling which put prices one to two points under Saturday's figures. At noon the market recovered, but in the afternoon fell off again to a net loss of three points. Toward the end of the day there was another recovery, the market closing steady at a net gain of two to three points.

Spot cotton quiet, unchanged. Middling 11 1/2. Sales on the spot 47 bales to arrive on the spot 47 bales.

## CHICAGO MARKETS.

CHICAGO, Aug. 11.—Corn prices broke today on account of the ending of the drought in Iowa and because of rain in northern Illinois and some other parts of the belt. The opening was half to 1 1/2 lower. Beneficial moisture northwest and liberal world shipments eased wheat. Oats weakened with hogs, provisions gave way to the influence of bearishness in coarse grain.

## NEW ORLEANS COTTON

NEW ORLEANS, Aug. 11.—The cotton market was quiet but steady today, the continued drought in the west being the chief sustaining influence. Very little buying for long account was in evidence. The scattered selling was fairly well met by the demand from shorts who wanted profits, except in the early afternoon when the market went below last week's closing level.

On the opening the tone was steady and prices were four to nine points above the closing of the previous day in the west. Both Texas and Oklahoma sent in bullish crop accounts. After the call the most active months stood 7 points up. The forecast of unsettled weather for Oklahoma was considered a favorable feature and stimulated selling which put prices one to two points under Saturday's figures. At noon the market recovered, but in the afternoon fell off again to a net loss of three points. Toward the end of the day there was another recovery, the market closing steady at a net gain of two to three points.

Spot cotton quiet, unchanged. Middling 11 1/2. Sales on the spot 47 bales to arrive on the spot 47 bales.

Cotton futures closed:
