National Automobile Shows Will Open in New York in January

The dates for the two national automobile shows, to be held next winter in New York and Chicago, have been decided upon. The New York exhibition will be held in its entirety in the Grand Central Palace during the week of Jan. 3-10. The Chicago exhibition will be held at the Coliseum and First Regiment armory as formerly, the date being Jan. 24-31. Both of these gigantic exhibitions will be conducted under the auspices of the Automobile Chamber of Commerce. This will be the first time one association has been in actual control of both exhibitions since the Selden-Patent litigation matters divided the membership of the N. A. A. M. into two camps, which brought about several shows.

Madison Square Garden, which has been the home of the New York show for many years, proved itself inadequate for exhibiting the products of the automobile industry, and last year the exhibition was held in both the garden and Grand Central Palace. The Grand Central Palace, a magnificent show building, will this year house the entire exhibition, and the space which has been secured is greater by far than that which was utilized in two buildings last year. Four floors of the palace will be pressed into service for the exhibits, and the additional space over that which was held last year is 50,000 square feet, which will afford a comfortable housing for all exhibitors.

Automobiles will occupy the first and second floors of the palace, and all of the wall spaces of the other floors. The space about the wall on the second floor and other sections on the same floor, which may be needed for the purpose, will be devoted to a special section for the display of electric cars. On the third floor, in the spaces not occupied by car exhibits, will be shown the product of the Motor and Accessory association, and in addition to this space 15,000 feet of the fourth floor will be utilized also for the product of the Accessory association will make the allotment of spaces to its members as has been the custom in the past. It is expected, also, that the Motorcycle Manufacturers' association will show their products on the fourth floor. Space can be had also on this floor for the accessory-makers and jobbers who are not members of any organization. In other words, there will be room for every manufacturer of motor cars, parts and accessories who desire to show his product during the period of the exhibition.

For the Chicago show the gallery of the Coliseum will be extended at the sides and each end of the building will be lengthened by twenty-four feet, this arrangement adding 5,000 more feet of space for the exhibits. The aisles will extend around the inside of the balcony instead of the outside, as heretofore, so that the exhibition space will be given far greater depth. There will be also a slight rearrangement of the main floor. Three-fourths of the center of the main floor of the armory will be devoted to the exhibition of electrical. So successful was the plan last year that the Electric Vehicle association has asked for and has been granted larger space.

Motorists are pleased with the idea of utilizing only one building in New York for the show, and also the fact of having the New York and Chicago exhibitions under one management, for this will result in saving many thousands of dollars to the trade and space rentals will cost less than in former years. S. A. Miles, general manager of the Automobile Chamber of Commerce is busily engaged on the plans for both exhibitions, and he expects that application blanks and diagrams will be issued by Sept. 1. There will be but a few changes in the rules governing the exhibitions. Exhibits of cars will be confined to passenger vehicles inasmuch as no commercial show will be held in conjunction with the passenger vehicle exhibition. At the request of the makers the commercial vehicle exhibition was abandoned. Another change which affects the admission is that there will be but one double admission day at each show instead of two, as was formerly the case in New York.

Several changes will be made at the palace to facilitate the purposes of the exhibition which will add to the comfort and convenience of visitors. Arrangements will be made for the carrying of passengers and freight on the elevators, and a plan is to be effected whereby the elevator operators will permit a satisfactory attendance on all floors, so that there will be no congestion on any one particular floor.

COUNTY SCHOOLS ARE OPEN FOR THE WINTER
Big Educational Rally Will be Held at Leicester Today With Many Prominent Officers Present.

With the opening yesterday of the schools at West Asheville, Biltmore, Grace and Woodfin, all of the Buncombe county schools are now in session for the fall and winter term of 1913-14.

The attendance this year at all of the county schools is quite large and indications point towards a successful year. New public school buildings have been erected during the summer months in several of the townships in the county while improvements and additions have been made to the old buildings in other sections.

A big school rally is to be held at Leicester today and it is expected that many friends of the school will be on hand to assist. Addresses will be made by Dr. W. S. Rankin, secretary of the state board of health, Judge J. D. Murphy, president of the county board of education, Prof. W. H. Hipps, superintendent of county schools and others.

Yesterday a big educational rally was held at Hemphill in Reems creek township, which was attended by a large crowd of patrons of the schools and others interested. Addresses were made by well known educational workers and the meeting was a big success.

J. H. CHADBURN DIES AFTER LONG ILLNESS
Retired Banker and Lumberman Passes Away at "Witchwood"—Body Will be Taken to Wilmington.

After a lingering illness at his handsome home "Witchwood," which he purchased in February, J. H. Chadburn, formerly of Wilmington, and a resident of this city since February, died yesterday afternoon at 5:30 o'clock. The death of Mr. Chadburn was not unexpected, relatives having realized several days ago that his condition was such that he could not recover. The body will be taken to Wilmington this morning for burial and the funeral services will be conducted at that city tomorrow afternoon by Rev. J. M. Wells, pastor of the First Presbyterian church, of Wilmington. For more than twenty years, Mr. Chadburn was an officer in that church.

Mr. Chadburn was sixty years of age and was a member of one of the pioneer families of this State, having been the son of the late Mr. and Mrs. George Chadburn, of Wilmington. For many years he was prominent in banking and lumber circles of Wilmington and retired from business a few years ago on account of his health. He was a member of the First Presbyterian church of this city and was prominent in Masonic circles. The deceased is survived by a wife and one daughter, Mrs. J. W. Stanley, who were at his bedside at the time of his death.

During his residence in this city, Mr. Chadburn had made many friends, who will be grieved to learn of his passing.

J. C. Wallace, formerly of the American Wagon Co., has moved to his old stand on the corner of Lexington Ave. and Willow street and will be glad to have his old customers to call and see him.

WILSON TO LEARN AT FIRST HAND
(Continued From Page One).

ment today that the seizure of a steamer by revolutionists had held up eight Americans, ready to leave for the United States. The consul said he had made strong representations in behalf of his countrymen and believed they would not be mistreated.

Consul Canada reported from Vera Cruz that a large number of Americans were planning to embark there Thursday on the steamer Mexicano for Galveston. Nine refugees of the Norwegian steamer City of Tampico are due in Texas City tomorrow. Consul Letcher reported that many Americans in the vicinity of Chihuahua were disposed to postpone following the advice of President Wilson in regard to leaving the country, insisting that they would rather face hardships and the relatively small danger of present conditions than abandon their property.

Consul-General Shunklin gave notice that many Americans at Mexico City were desirous of leaving for Manzanillo. It was reported that about twenty persons wished to get out of that district, indications pointing to many more refugees from Mexico City and Guadalajara districts embarking at this port. Consul-General Shunklin reported having provided transportation for twenty-one refugees by west coast routes, sending all to Manzanillo; that route was cheaper than by way of Salina Cruz.

At Acapulco there are about twenty-five Americans who wish to leave the country; and there are a few others near the port of Minico.

Deputy Consul-General Allen is at Puerto Vallarta for such Americans as desire to leave the country. Distressing conditions are reported there.

SURPRISE PARTY WAS GIVEN LAST NIGHT

Mr. and Mrs. Leroy Harding, who have moved to Asheville from Syracuse, N. Y., were guests of honor at a surprise party which was given by the members of the Baraca and Philanthropic clubs of the Haywood Street Methodist Sunday school last night. The members of the two clubs went to the home of Mr. and Mrs. Harding in a body and the evening was spent in a most enjoyable manner.

Mr. Harding, for several years, was president of the Baraca club of which C. A. Hudson, the founder of the movement, was a member. He is prominent in Baraca circles and the news that he is to reside here has been learned with interest by local Baracas.

A five-story concrete building, the concrete being of oyster shells from the reefs of Galveston bay, has been erected at Galveston, Tex. The owners of the building and its constructors assert this material is better and cheaper than concrete made with gravel.

Every high school graduate in Nebraska receives a letter from the University of Nebraska congratulating him on his graduation and urging him to consider the advantages offered by the state university.

AROUND TOWN
SLIGHT BLAZE.
The fire department was called to the Florence hotel yesterday morning, shortly after 10 o'clock, where a slight blaze was discovered by guests of the hotel. The blaze was extinguished before a great deal of damage was done.

DR. DANIEL SPEAKS.
Dr. Charles W. Daniels, the pastor of the First Baptist church, of Atlanta, will conduct the mid-week service at the local First Baptist church tonight at 8 o'clock. Mrs. W. H. Woodall will lead the teachers' meeting, which is to be held at 7:15 o'clock.

OPERATION PERFORMED.
The five-month-old son of Mr. and Mrs. Ernest Allison, of 59 Phifer street, underwent an operation at the Meriwether hospital Monday afternoon, following an attack of illness Sunday afternoon.

The operation was performed by Drs. W. J. Hunnicutt and E. B. Glenn.

DIED SUDDENLY.
Lawrence Wainwright was found dead in his bed yesterday morning at his home at 24 Cherry street. The death of the deceased came as a surprise to the members of his family. He was thirty-two years of age, and is survived by a wife, a mother, a father and one brother.

GOES TO HOOD'S STORE.
Mrs. Robey, who has been in the military department of the Box Marches, has accepted a similar position at Hood's millinery store.

Mother's Advice To Her Daughter
A Real Live Doll to Fondle is Woman's Greatest Happiness.

She is wisdom itself who knows of it learns of that famous remedy, Mother's Friend. It is an old-fashioned, reliable remedy for the rheumatic muscles and joints. It has a wonderful effect, banishes all pain, restores all strength, and permits her to go through the period happy in mind, destined to anticipate woman's greatest happiness as nature intended she should.

The action of Mother's Friend makes the muscles pliant and responsive to expansion. Thus all strain and tension upon the nerves and ligaments is avoided, and, in place of a period of discomfort and consequent grief, it is a season of calm repose and joyful expectation.

There is no nausea, no morning sickness, no nervous twitching, none of that constant strain known to so many women. This splendid remedy can be had of any drug, at \$1.00 a bottle. Write to Bradford Regulator Co., 232 Lamar Bldg., Atlanta, Ga., for their book to expectant mothers.

WASHINGTON Sept. 2. — Announcement today by the department of agriculture that the condition of the growing cotton crop of the United States was 64.2 per cent. of normal on August 25 disclosed the fact that the plants had deteriorated 11.4 per cent. since the July report was taken. The August figures were the same as those of August, 1909, and the condition at this period has been lower three times during the past 23 years, in 1886 when it was 64.3 per cent., in 1902, when it was 64.0 per cent., and in 1909, when it was 63.7 per cent.

The greatest deterioration was in Oklahoma, where the condition dropped 16 per cent. to 49 per cent. In Texas the condition of 64 per cent. showed a deterioration of 11 per cent. Deterioration in other states in the part of the belt spoken by drought was:

Arkansas 14 per cent.; Missouri, 14 per cent.; Louisiana, 13 per cent.; Tennessee, 10 per cent.; Mississippi, 9 per cent.; and Alabama, 5 per cent. In all these states the condition was much below the ten year average condition figures.

FAR HERR, BOSTON MASTERS.
WASHINGTON, D. C., Sept. 2. — G. Vance Hurrell was today appointed postmaster at Burr, Madison county, and S. Clyde Garrison at North Cove, McDowell county.

Mrs. J. B. Hester, wife of the manager of the Landon hotel, Asheville, and Mrs. Green, of Asheville, were visitors here today.

The production in Germany during May of 1,661,466 metric tons of raw iron surpassed all previous records for that country.

CORTRIGHT METAL SHOE
Rocks put on twenty-six years ago are as good as new to-day, and have never needed repair. What is the result? Why practically every other shoe manufacturer is trying to imitate it, so he not deceives—look for the words "Cortright Reg. U. S. Pat. Off." embossed on the cushion. It is put there for your protection. Accept no imitations.
