

MEXICO WAITING IMPATIENTLY FOR WILSON'S MESSAGE

Not Believed That It Will Recommend Intervention or Lifting Embargo

MONEY BLOCKADE IS NOT A VITAL BLOW

Huerta's Friends Say He Has Money and Can Raise Plenty More

MEXICO CITY, Nov. 30.—The possible treatment of the Mexican question by President Wilson...

Not Broke. His friends point out that although the government may be bankrupt...

In the Mexican republic there are many men rated as millionaires and several large corporations...

There are millions to be had for the taking and General Huerta's admirers declare it would be acting in accordance with justice...

Special taxes have been announced, which tomorrow become effective and will net at least \$5,000,000 pesos...

Loan Not Confirmed. No confirmation is available of yesterday's report that the government has obtained a 7,000,000 peso loan...

The military situation throughout the country has shown no improvement.

PRES. WILSON FINDS NO CHANGE IN THE MEXICAN SITUATION ON RETURN

Official Washington Still in Attitude of Passive Observation.

NOTHING OFFICIAL.

WASHINGTON, Nov. 30.—President Wilson today found no change in the Mexican situation on his return to the capital.

GOVERNOR CRAIG SCORES PROTEST OF VIRGINIA CITIES

Says They Are Attempting to Perpetuate Injustice of More Than Twenty Years' Standing—Strong Statement.

Governor Locke Craig stopped at Asheville for a few hours yesterday afternoon en route to Hot Springs, Ark., where he goes to take a three weeks' treatment for rheumatism...

Daughtridge Governor. Under the constitution, Lieutenant-Governor Daughtridge, of Rocky Mount, becomes acting governor during Governor Craig's absence.

Governor Craig was asked what effect the Virginia cities could have in attempting to prevent putting into effect the lower freight rates which have recently been secured for North Carolina.

"On account of these discriminations the Virginia cities have been enabled to grow at the expense of the cities of North Carolina and the people of North Carolina have by this

wrong been forced to be tributary to the cities of Virginia. They are attempting to perpetuate the full measure of this injustice. They are attempting to prevent the people of North Carolina from obtaining lower freight rates...

Not Endorsed. "This action by the cities of Richmond, Norfolk, Petersburg and Roanoke surely cannot be endorsed by the representative people of those cities. If they do endorse it we have heretofore had an erroneous estimate of the standards of the people of the Virginia cities."

"I do not think that we can find in the history of the United States an act in the class of that which is now attempted by the Virginia cities. Aside from the consideration of right and wrong, the feeling that must necessarily arise would be unfortunate. It is but natural and right that North Carolina should bitterly resent this interference by these cities."

"The Virginia cities realize that the proposed reductions will be great advantages to the cities and the people of North Carolina, but we are justly entitled to these advantages, and more. An attempt to deprive us of this right is an attempt to thrive on the wrongs inflicted on a sister state, that has always been the best of her neighbors and customers."

SENATE CONFERENCE OF DEMOCRATS WORK LATE ON NEW CURRENCY BILL

Determined to Have Party Measure Ready for Consideration Today.

SOME CHANGES.

WASHINGTON, Nov. 30.—Determined to have the administration currency bill ready for consideration by the senate as a democratic party measure when the new session of congress opens tomorrow, the senate conference of democrats tonight worked far into the night settling the disputed details of the bill.

The conference decided, however, if disputed points of importance became apparent in the course of debate on the floor, each difference among democrats, as it arose, would be taken into the conference, the party disagreements straightened out, and the majority united to act on the floor.

The administration members of the banking and currency committee tonight reported to the conference on practically all the disputed propositions in the bill. The conference adopted the recommendation for a plan to guarantee deposits of banks which enter the new system. This would provide that after the new regional banks have earned a 1 per cent dividend on their stock and established a 40 per cent surplus, the excess earnings shall be divided half and half.

PARIS, Nov. 30.—Paul Tissandier today beat the world's record for speed on water in a test with his new type of glider autoboat at Triel-on-Seine. He attained an average speed of 24 kilometers (15.5 miles) an hour.

INDIANAPOLIS IN GRIP OF TEAMSTERS' STRIKE; BEGAN LAST MIDNIGHT

Special Exemption Granted Drivers of Milk Wagons and Mail Vehicles.

VOTED YESTERDAY.

INDIANAPOLIS, Ind., Nov. 30.—The Teamsters' union late today voted unanimously to go on strike at midnight tonight. The union, which includes the commercial chauffeurs, is one of the strongest in the city and has between 1,500 and 2,000 members.

A special dispensation for milk wagons, driven by union teamsters, was made at the meeting, on suggestion of Thomas J. Farrell, general organizer of the International Brotherhood of Teamsters, Chauffeurs, Stablemen and Helpers. Drivers of hearses are exempt from the strike order.

Several employers have signed the agreement, but their men will join the strike to make it more effective. The men were ordered not to report at their respective barns tomorrow morning, but to picket the barns.

The police department, reorganized under the direction of Captain George V. Coffin, acting superintendent of police, has been making preparations to handle the strike. An order was issued Saturday prohibiting congregating of crowds. A system of military patrol has been mapped out for the downtown districts and additional mounted and foot police have been added to the force.

Cold Storage Conspiracy

MUCH IMPORTANT LEGISLATION IS SCHEDULED TO COME BEFORE REGULAR SESSION OF CONGRESS

Special Session Ends and Regular Session Begins When Congress Convenes at Noon Today Currency and Anti-Trust Legislation Both Come Up at This Session of Congress.

WASHINGTON, Nov. 30.—The interest usually surrounding the opening of a new session of congress will be absent from the events of tomorrow. While the first session of the Sixty-third congress will end at noon, and the second session will be ushered in by formal proclamation of the vice president and the speaker of the house, the status of legislation will be little different from what it was when the senate and house adjourned Saturday afternoon.

President Wilson will appear before the two houses at 1 o'clock Tuesday to read his annual message at a joint session in the house chamber. Aside from this formality, inaugurated by President Wilson last April at the start of the special session, and the presentation in the house tomorrow of the annual estimates for federal expenditures, the first days of the new session will be scarcely distinguishable from the closing days of the old.

Important Projects. The significance of the new session lies in the fact that it opens the flood gates for legislative activity and inaugurates a period that promises to be crowded with the consideration of important projects and prolific legislative enactment.

Further regulation of railroads as rates and stock issues, government owned railroads for Alaska, regulation of trading in cotton and grain futures, federal aid for vocational education, establishment of a system of rural land banks, independence of the Philippines, constitutional amendment for woman's suffrage, regulation of working conditions for merchant sailors, legislation to promote safety at sea, two battleship naval programs, establishment of a federal armory-making plant, good roads legislation, investigation of cost of living problems, and all the annual appropriation bills.

The bill to give San Francisco express admiration for American sailors.

VILLE FRANCHE, France, Nov. 30.—The United States battleships Wyoming, Utah and Delaware today sailed from here. As they slowly drew out, the Wyoming's band struck up the Marseillaise and thousands of spectators who lined the shores fluttered handkerchiefs and cheered the departing Americans.

as the new session begins; but the administration program of anti-trust and railroad legislation, which is to follow, must share the field with a score or more of other important subjects.

It is the hope of democratic leaders that the currency bill can be disposed of in the senate by the end of December and can be completed by both houses of congress and signed by the president in January. In anticipation of this, the plans for anti-trust legislation will be taken up this week by President Wilson, in conference with Representative Clayton, Senator Newlands and other members of the judiciary and interstate commerce committees of the two houses.

The administration is to lay stress upon the proposed strengthening of the anti-trust laws from the outset. It is proposed to have the general plan of action laid out in advance of the opening of the subject in house and senate. Other important projects to be taken up in congress early in the year, and that will divide attention with the anti-trust bills, include:

French People Delighted With Actions of Americans on Shore Leave.

ALBANY, N. Y., Nov. 30.—Mrs. Charles Becker tonight arrived here and tomorrow will attend the hearing of arguments before the court of appeals on the appeal from the sentence of death hanging over her husband, former Police Lieutenant Charles Becker, of New York, for the alleged instigation of the murder of Herman Rosenthal, the gambler. Her husband requested her to be present during these proceedings.

water supply rights in Hetch Hetchy valley, over which a conservationist's fight has been waged for more than a year, is set for a vote in the senate December 5. Another agreement calls for consideration immediately afterwards of the bill to authorize construction of government railroads in Alaska. A similar measure has been favorably acted upon by a committee of the house. These bills, with the "seaman's servitude" bill which recently passed the senate, probably will be the first measures of a general character considered by congress.

Extensive hearings will be given by the house committee on judiciary preliminary to any decision as to the form of anti-trust legislation. The first measure to be brought forward probably will be designed to prevent interlocking directorates among industrial concerns. This interrelation of large corporations has been the subject of repeated attacks by congressional and federal investigating bodies. Other subjects of the anti-trust program will include price cutting by monopolies, over capitalization, restraint of trade and the more adequate control of corporations, probably through an interstate corporation commission.

Investigate Living Cost. Investigations to determine the cause of increased prices in food products are expected to begin soon after the session opens. Representative McKellar, of Tennessee, has introduced a comprehensive bill to provide for more adequate regulation of cold storage operations and to penalize combinations that control food prices or parcel out selling territory, and other measures of like character.

MRS. CHARLES BECKER AT ALBANY FOR HEARING

ALDAPE SEEKS FINANCIAL ASSISTANCE FOR HUERTA En Route to Paris and Will Try to Negotiate Loan for War Purposes.

WEEK'S CAMPAIGN OF SUFFRAGETTES FORMALLY OPENED

Colorado's Woman Senator Makes Principal Address of the Day

PRESIDENT WILSON IS ASKED TO HELP

Meeting Passes Resolution Calling on Him to Make Suffrage Party Measure

WASHINGTON, Nov. 30.—A week's campaign by the National American Woman's Suffrage Association to secure the adoption of a constitutional amendment to enfranchise women today was launched at a mass meeting in a local theatre. It was the formal opening of the forty-fifth convention of the association. An assemblage which packed the edifice from footlights to gallery listened for nearly three hours to discussions on various phases of the suffrage cause by conspicuous advocates of the women's movement.

"We demand an amendment to the United States constitution enfranchising woman." The association almost unanimously adopted resolutions introduced by Mrs. Hensel Ring Robinson, a member of the Colorado state senate, calling upon President Wilson, "in his forthcoming message to congress to adopt the woman suffrage constitutional amendment as an administration measure and to urge congress to take immediate and favorable action upon it."

The only protest was voiced by one of the delegates from Louisiana, backed by a small following. The opposing delegates however, were given an opportunity to explain the reasons for their attitude.

Dr. Anna Howard Shaw, president of the association, presided over the meeting, and in her brief address voiced the belief that "a deliverance—a speedy deliverance—of woman, is about to come through the action of the American congress and through the president of the United States."

Mrs. Robinson Heard. Mrs. Robinson, the Colorado senator, delivered the principal address in the afternoon, her subject being "Women as Legislators."

MEXICAN DESPERADO HAS COMPANION AIDING HIM HOLD OUT AGAINST POSSE

Bodies of Two Men Shot Saturday Are Brought to Surface. STILL DEFIANT.

BINGHAM, Utah, Nov. 30.—While Ralph Lopez, the slayer of six men, today was attempting to better down a bulk head at the entrance of the tunnel in the Utah-Apex mine, a posse penetrated an incline and brought out the bodies of Deputy Sheriffs Hulsey and Nadrieh, who yesterday were killed by the desperado in a subterranean fight. A new development late today was the report that Mike Crandovich, who shot and seriously wounded his wife several days ago, also is a fugitive in the mine and is co-operating with Lopez.

Two deputies on guard at the mouth of the mine opened fire with rifles when Lopez began breaking down the bulkhead and he retreated into the mine after prying away one board. That he is suffering from hunger is the belief of the officers, as he has been in the mine with only a small supply of food since Thursday. Hundreds of Americans and foreigners today begged in a dozen different tongues for the opportunity to search the mine for the murderer. Only five, led by E. P. Strappier, mayor-elect of Bingham, were allowed to penetrate the workings. After making two attempts they brought out the bodies which had been dragged by Lopez some distance up an incline. Repeatedly outwitted since Lopez began his career of bloodshed on November 21, the pursuing sheriffs of seven counties today decided to step up the mine and attempt to use physiatry the fugitive with the poisonous gas. Accordingly fourteen of the fifteen exits were stopped with heavy doors and the work of penetrating the mine in gas-sealed suits.

THE WEATHER. WASHINGTON, Nov. 30.—Forecast for North Carolina: Local rains Monday; Tuesday, probably fair.
