CAROLINA MAN WITH PUZZLING STOMACH DISEASE WINS RELIEF

W. R. Davenport of Parker Better After First Dose of Remedy. W. R. Davenport of Parker, N. C., long suffered from a peculiar malady of the stomach. He sought treatment with but little relief. At times he seemed that he would have to give up hope. He took Mayr's Wonderful Stomach Remedy and found immediate relief. He writes: "For years I have suffered from a disease which puzzled the doctors. They termed it catarrh of the stomach, saying the only hope would be a change of climate, and that in all probability I would never get well. Then I heard of your remedy. One bottle gave me instant relief. It made me feel like a new man. Your full course of treatments has about cured me. Several of my friends have also been cured." Thousands of others suffering from

TO HONOR FATHER OF THE TORPEDO

WASHINGTON, Oct. 26.—Officers of the navy department are searching for a descendant, preferably a young, unmarried woman, of David Bushnell. She is wanted to act as sponsor for one of the new submarine tenders under construction for the United States navy. The new submarine will be named "The Bushnell," in honor of the father of the submarine, whose experiments, conducted 146 years ago, gave to the world the proof of the possibilities of under-sea fighting. David Bushnell, the father of submarine warfare, whose name is scarcely known to the builders of the submarine fleets now operating in

An Old, Family Cough Remedy, Home-Made

By making this kind of old-time cough syrup at home you not only save about 50 cents compared with the ready-made kind, but you will also have a much more effective and healthful remedy in every way. It cures the usual cough, throat and chest pain in 24 hours—relieves even whooping cough quickly—and is excellent, too, for bronchitis, bronchial asthma, influenza and spasmodic croup. Get from any drug store 2 1/2 ounces of Pin (10 cents worth), pour it into a pint bottle and fill the bottle with plain granulated sugar syrup. Full directions follow. Keep perfectly and tastes good. You can feel this taste of a cough or cold in a way that makes business. It is the only cough and cold remedy that kills the germ and breaks the inflamed membrane. It also has a remarkable effect in overcoming the persistent loose cough that causes the formation of phlegm in the throat and bronchial tubes. The effect of Pin on the membranes is shown by almost every case. Pin is a natural and powerful compound of natural Norway pine extract combined with glucose and other natural healing elements. There are many worthless imitations of this famous mixture. To avoid disappointment, ask your druggist for "2 1/2 ounces of Pin," and do not accept any other name. A guarantee of absolute satisfaction. If money is returned, you will get 25 cents back. 25¢ per bottle. 50¢ per 1/2 gallon. 100¢ per gallon. W. B. Sawyer, Asheville, N. C.

COMPLICATED CASE IS NOW BEING HEARD FOR COMMENCEMENTS

ACTION TAKEN UNDER ADVICE—MENT BY COURT.

Jury Unable to Agree in Case of Steele Against Southern—Other Cases Before Superior Court.

The case commonly referred to in the courts of the state as Pittillo against Lyle was brought before Judge E. B. Cline yesterday, following the recess taken at the close of the day's session in the superior court. After hearing evidence presented by Allen Morrison, attorney for the plaintiff, Judge Cline took the case under advisement and will render his decision sometime during the present term of court. The hearing of evidence occupied more than an hour, a large number of attorneys representing the interests of the defense being present.

This suit is one of the oldest on the docket of the Buncombe county superior court, having been filed several years ago and being carried to the Supreme court of North Carolina at one time. It involves the possession and division of certain land situated on the Swannanoa river and valued at the present time at about \$4,000. The land is owned by W. F. Randolph, who purchased it for the sum of \$1,200 at a sale conducted on the steps of the courthouse. Mr. Randolph has set out an extensive orchard on the land and has made many other improvements.

Following the sale the heirs benefited by it demanded that the property be returned to them and the purchase price be refunded, and when this was refused entered suit in the superior court. The sale was upheld by the court and the case was appealed to the Supreme court. That tribunal declared the sale annulled and sent the case back to the superior court for trial. It has been called for hearing on several different occasions, but has been put off from time to time.

The jury in the case of M. T. Steele against the Southern Railway company was unable to agree upon a verdict yesterday and was put in charge of an officer for the night. This case was taken up Friday and at the close of the term which ended Saturday night the evidence had just been completed. The attorneys addressed the jury yesterday morning, and after Judge Cline delivered his charge that body took the case. At a late hour in the night the jurors had been unable to reach an agreement.

At the close of court yesterday afternoon the evidence in the case of the city of Asheville against J. Kelly Chambers, Mrs. M. T. Allport and Mrs. Mary M. McCall, was being heard. This case was instituted to recover benefits assessed on the property owners for the construction of a street. The jury was dismissed until this morning at 10 o'clock, when the hearing of evidence will be continued. The case is being hard fought and is being watched with considerable interest.

A divorce was granted the plaintiff in the case of Mrs. Avonia Smith against Dr. Owen Smith, and the costs of the action were charged to the defendant. A voluntary non-suit was taken in the case of J. E. Martin against the Southern Bell Telephone and Telegraph company et al. A compromise judgment in favor of the plaintiff in the case of Adams Brothers company against the Red Shale Brick company was reached. The action was instituted to recover possession of a brick machine.

FIRST REAL SNOW.

CHICAGO, Oct. 26.—The first real snow of the season was reported at Green Bay, Wis., in the Lake Superior region, today in telegrams to the local weather bureau.

STATION REPAIRED. NEW YORK, Oct. 26.—It was announced tonight that the Tuckerton, N. J., wireless station, burned out several weeks ago, has been repaired. The navy department will continue strict censorship over the message handled.

To Cure Catarrh Purify the Blood

Reason it Out, Where Does it Start the Mucus From?

Immense catarrh sufferers have cured themselves by purifying their blood with S. S. S. Catarrh often invades the entire system before it shows the nasal passages. It becomes so chronic and extensive that the stomach, liver, kidneys, bronchial tubes and most of the glands are involved without such serious conditions being realized. Catarrh may be the result of some serious blood trouble of former years, and this is only one of the many peculiar effects of impure blood. Now S. S. S. is its inflexible upon the mucous surfaces, causes these catarrhal secretions to be changed or converted into a substance easily, quickly, and naturally expelled from the body. It changes the mucus that it is not the rosy, clogging stuff that plugs the nose, chokes the throat, causes severe bowel trouble, upsets the stomach and contaminates the food just entering the blood. It is often difficult to convince catarrh sufferers that chronic cough, chest pain, gagging, field breath and other symptoms are only the local evidence of deep seated trouble. Get a bottle of S. S. S. today and try it. You will get good results, real benefit and soon be aware of a gradual clearing up and a check to the progress and danger of catarrh. Avoid substitutes. S. S. S. is prepared only by The Swift Specific Co., 51 Swift Bldg., Atlanta, Ga. They conduct a medical department for free advice that is worth while consulting.

PEERLESS AND FORD TIE IN Y. W. C. A. RACE

EACH OF TWO LEADING TEAMS REGISTERS 350 POINTS.

Finish of Contest Proves Exciting—Results Obtained Are Satisfactory and Enthusiasm Aroused.

Turning into the last lap of the five-day membership race at the Young Women's Christian association, the cars representing different teams in the contest, made a spectacular finish yesterday, the Ford being tied with the Peerless as they sped under the wire at the finish. As they turned into the last stretch of the race the little four-cylinder Ford, piloted by Miss Louise Gay Williamson, dashed alongside the Peerless six, driven by Miss Eleanor Morrison, and held that place as they swept across the final tape at the finish. The sport of these two cars furnished the sensation of the race. Each was credited with 350 points.

Giving the engine all the gas it would take Mrs. W. B. McEwen, at the wheel of the Haynes, could only finish with 323 points and Mrs. J. W. Burdick, at the helm of the Chalmers, finished with 145 1/2 points. The Cadillac four driven by Miss Florence Barnard, went badly at the close of the race and could only register 110 points. The fire of this machine gave the driver trouble and much ground was lost through skidding on the sharp turns.

Misfortune was met early in the race by Miss Nona Hodges at the wheel of the Hudson six. This car got away to a bad start and at the end of the first lap something went wrong and only twenty points were registered by the driver.

General excitement attended the close of the race and the members of the various teams were on edge to see which machine would flash under the wire ahead. When it was seen that the Ford was closing up on the Peerless and while the drivers of the speeding cars were straining every nerve to make the engines respond further to the necessity of the hour, no one dared to venture a guess as to the winner.

The members of Miss Williamson's team were busy throughout the day working with might and main assisting their leader to close up the gap behind the flying Peerless. The last point for this car was registered by Mrs. Wallace Davis and it was predicted then that the big racer would be the winner but the Ford would not be denied and finished with its hood on a line with the other.

The exact results of the race could not be given out last night but general satisfaction was expressed and besides new members gained considerable enthusiasm has been aroused.

MEXICANS ON TRIAL.

PHOENIX, Ariz., Oct. 26.—Nine Mexicans, part of the band led by Miguel Ortiz, who is still at large, were placed on trial in Federal court here today. The men were arrested in August after the discovery of their alleged plot to seize the militia's arms and ammunition here and in nearby towns. The plan was said to be to raise a force to terrorize and sack Phoenix and other towns and then to dash across the border and persuade the Yaquis to join the revolution.

CANADA NOT WORRIED.

HOT SPRINGS, Va., Oct. 26.—Sir Robert L. Borden, the Canadian premier, saw here tonight for the first time since the published statement of Count von Bernstorff, German ambassador, that invasion of Canada by Germany would not be a violation of the Monroe doctrine. He remarked that Canada did not consider a German invasion imminent and that the relation of the Monroe doctrine to such an improbability hardly had been much considered.

Corns Quit, Pains Stop, With "Gets-It"

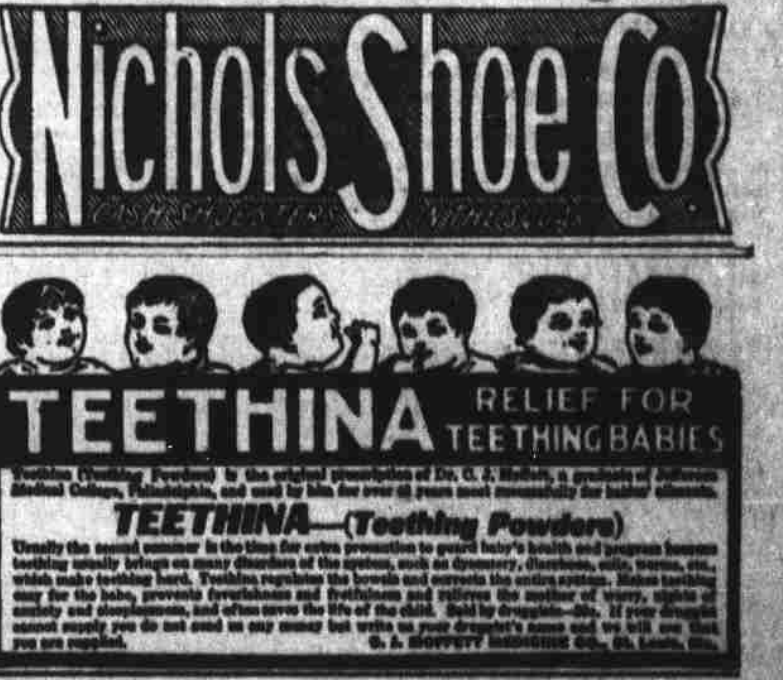

Quit Plasters, Salves and What-Not. After using "GETS-IT" once you will never again have occasion for asking, "What can I do to get rid of my corns?" "GETS-IT" is the first sure, certain corn-ender ever known.

If you have tried other things by the score and will now try "GETS-IT," you will realize this glorious fact. You probably are tired sticking on tape that won't stay stuck, plasters that shift themselves right onto your corn, contraptions that make a bundle of your toes and press right down on the corn. Put two Drops of "GETS-IT" on that corn in two seconds. The corn is then doomed as sure as night follows day. The corn shrivels. There's no pain, no fuss. If you think this sounds too good to be true try it tonight on any corn, callus, wart or bunion. "GETS-IT" is sold by druggists everywhere, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago. "GETS-IT" is sold in Asheville by Smith's Drug Store, C. A. Rayson.

WOMEN'S Patent Shoes

\$3.00 to \$5.00. There are no prettier shoes than these, if there was we would have them. Long or short, Cuban or French heels. Befriend your pocket book by buying shoes here.

DEALERS MAINTAIN EGG AND BUTTER QUOTATIONS

Attorney General Declares Chicago and New York Have Agreement.

CHICAGO, Oct. 26.—Arrangements to maintain butter and egg prices exist between New York and Chicago dealers, according to assertions by Franklin Kennedy, deputy attorney general of New York state, here accompanied by John Lanyon, chief investigator, in an inquiry into methods of marketing of butter and eggs.

"We have learned that Chicago commission merchants, before making a sale, ask the mercantile exchange in New York city for quotation on prices," said Mr. Kennedy. Mr. Kennedy and Mr. Lanyon conferred with attaches of the United States district attorney's office to obtain information of recent suits against the Chicago butter and egg board and the Elgin board of trade by the government.

TRAVELERS ARE ASKED TO PREACH OPTIMISM

LETTER IS MAILED BY SECRETARY OF BOARD OF TRADE. "Angels of Commerce" Asked to Increase Their Efforts to Shatter Feeling of Depression.

Asking the traveling salesman to increase their efforts looking to the restoration of confidence in business, Secretary N. Buckner, of the board of trade, has sent the following letter to the secretary of the local council of the United Commercial Travelers: "Asheville, N. C., Oct. 21, 1914. Secretary, U. C. T. Asheville, N. C. "Dear Sir: The traveling salesman is one of the most important factors in American business life. They are the 'angels of commerce' and the exponents of good cheer and optimism. I have had occasion to speak to a number of business men in Asheville the last few days, asking for comparison of business now in contrast with the same period of last year. Invariably, those whom I have asked stated 'my business is increasing, but times seem to be tight.' This is conflicting, and if our merchants and business men would leave off the awful 'but' money is tight, times are hard, etc., conditions would materially improve in the south, and stay good, especially here in Western North Carolina, as before the European war started. "The war cannot last indefinitely, and there is just as much money, and just as much lumber, and just as much every other kind of material and substance in the country as before, except lack of confidence in our country, the district, the community, the city, and each other. Many of our troubles are imaginary instead of real—in fact most of our worst troubles never happen. "For the present it may be a case of 'sit still in the boat for awhile,' but in the meantime conditions, of which general complaint is made can be immeasurably improved if every man will preach the gospel of optimism and do his full duty as a citizen of the greatest country in the world, by adding the weight of his personality in an effort to make the best of a situation which, though possibly somewhat trying, is to a great extent imaginary. Everybody knows the commercial traveler preaches optimism and practices what he preaches, and this is just a suggestion that the efforts of the traveling man be redoubled along this line. Everybody help the other fellow all along the line and then we can readily discern a betterment of general conditions. "Attention is especially called also to the editorial in The Citizen of Sunday, October 14, entitled: 'Stop Talking It,' which is with reference to the war and hard times. "With best wishes, I am, "Yours very truly, "N. BUCKNER, Secretary."

A NURSE TAKES DOCTOR'S ADVICE

And is Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Euphemia, Ohio.—"Because of total ignorance of how to care for myself when verging into womanhood, and from taking cold when going to school, I suffered from a displacement, and each month I had severe pains and noises which always meant a lay-off from work for two to four days from the time I was 25 years old. "I went to Kansas to live with my sister and while there a doctor told me of the Pinkham remedies but I did not use them then as my faith in patent medicines was limited. After my sister died I came home to Ohio to live and that has been my home for the last 18 years. "The Change of Life came when I was 47 years old and about this time I saw my physical condition plainly described in one of your advertisements. Then I began using Lydia E. Pinkham's Vegetable Compound and I cannot tell you or any one the relief it gave me in the first three months. It put me right where I need not lay off every month and during the last 18 years I have not paid out two dollars to a doctor, and have been blessed with excellent health for a woman of my age and I can thank Lydia E. Pinkham's Vegetable Compound for it. "Since the Change of Life is over I have been a maternity nurse and being wholly self-supporting I cannot over-estimate the value of good health. I have now earned a comfortable little home just by sewing and nursing. I have recommended the Compound to many with good results, as it is excellent to take before and after childbirth."—Miss EVELYN ADELIA STEWART, Euphemia, Ohio. If you want special advice write to Lydia E. Pinkham Medicine Co. (consultation) Lynn, Mass. Your letter will be opened and answered confidentially and held in strict confidence.
