been transferred to a French auxiliary cruiser on which they have been interned. Extensive Turkish reprisals are already announced of the central powers.

The present situation in Albania was thus summed up today by Lord Robert Cecil, under-secretary for foreign affairs, in the house of commons:

"I regret to say that it is impossible to speak of Albania as an entity at present. In the central area over which Essad Pasha's authority extends, the relations between the Serbian soldiers and the population have been friendly and Essad Pasha has rendered them valuable assistance. The northern tribes, among whom the enemy has conducted a considerable propaganda, are hostile to soudan expedition in 1886. been received here giving details of Balkan campaign has come too late the recent operations in eastern Galicia, which were so meagrely described in the official reports. According to these dispatches the Russians, after artillery preparation, which showed there was no longer any shortage in their big gun ammunition, started an offensive which caused the Austro-Germans to rush every available division to Galicia. Austrians Hold Czernowitz.

Czernowitz is still in the possession of the Austrians and is filled with wounded. But the Russians apparently are directing their main attack Sadagora.

In the Balkans reports persist that the Germans are concentrating at Monastir preparatory to an attack on Saloniki, but the interest in the Macedonian campaign has become secondary to the operations of the Austrians in Montenegro. A determined attack is being made on Mount Lovcen, a Montenegrin stronghold overlooking Cattaro bay by the guns of the Austrian fortress at Cattaro and Austrian warships lying in the Adriatic. The formidable Austrian forces invading Montenegro extend over a wide front, from the River Tara in the west to the Ipek district in the

It can not be disguised that the invasion is causing great uneasiness among the entente powers, and especially Italy, which sees in its success an end to Italy's dream of dominating the Albanian littoral of the Adriatic. Heavy Fighting.

The Champagne region in France, Montenegro and Asiatic Turkey are the theatres of the war that are absorbing the greatest attention. In all of them, heavy fighting is taking place. The Russians' offensive against the Teutons in East Galicia and Volyhynta has come almost to a standstill. The Russians there are consolidating the positions they won and are meeting with little resistance from their antagonists

After the Germans had taken about seven hundred yards of French trenches in Champagne in an offen sive launched with large numbers of men with the intention of obtaining important results, the French troops according to Paris, stopped the attack short and in vicious counter-attacks re-occupied successively nearly all the terrain lost. In addition, on the heights of the Meuse, a heavy French bombardment did great damage to German trenches.

SUCCEEDS GEN. NIXON.

LONDON, Jan. 10 .- Sir Percy Lake has been appointed to command the British forces in Mesopotamia in succession to General Sir John Eccles Nixon, compelled by ill health to return home, it was announced in the house of commons today by J. Austen Chamberlin, secretary for India,

Lieutenant General Sir Percy Henry Noel Lake, who is fifty-nine years old, and has had a long and brilliant army career, has been chief of the general staff in India since 1912. He served in the Afghan war of 1878-79, and was awarded a medal and was similarly honored for his services with the master general, chief of the general staff, and then as inspector general, leaving the last named post to become division commander in India in 1911.

COTTON RATES ADVANCE.

GALVESTON, Texas, Jan. 10.—The ocean rate on cotton from gulf ports to Genoa has advanced to \$2.50 per hundred pounds. The last previous quo-tation had been around \$2 per hundred. The latest advance is the result of the recent action of the Italian government in commandeering a large number of steamships, shippers say.

Without, so dreary—within, so cheery!

Let us hope each storm-swept passer-by is hurrying on to the haven of a home where wife and the little folks are secure in their radiator-made, cheery climate, controlled by a mere turn of a valve. dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary mulsified cocoanut oil (which is pure and greaseless), and is better than the most expensive soap or anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage

You can get mulsified cocoanut oil at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months.
