this little

story

has been told before

It is about CUMBERLAND CIRCLE. When the city builds its chain of boulevards, it must reckon with Cumberland Circle as the gateway on the North to the Montford and Cumberland sections. It is not a long stretch, just one block from the Broadway-Weaverville bithulithic pike via Catawba Street to Cumberland Avenue. The grade up Iola Place, skirting Montford Park, is now a trifie steep but it can be modified, and this beautiful little breathing spot will be more popular than ever. Before the paving is completed, perhaps; CUMBERLAND CIRCLE will present one long array of houses. Picture the seene, if you will, beautiful homes on beautiful lots, hedged with trees and shrubs, enjoying sunshine and shadows, sunrises and sunsets. The views there are different from any other section of the city. You look over tree tops, green even in winter, into the far spaces. All of Sunset Mountain comes into view, Mt. Pleasant Mount Lookout, Woodover tree tops, green even in winter, into the far spaces. All of Sunset Mountain comes into view, Mt. Pleasant Mount Lookout, Woodfin Mountain and the northern hills. Do you not want a home in this cerie spot? Have you ever paced off Lot 187. It has a frontage of 60 feet. An alley way, 16 feet wide, separaies it on the northern radius of CUMBERLAND CIRCLE from its neighbor on the East, No. 19. Of Lot 18; it has a depth along the alley of 178 feet, where it joins the course of another alley. Its Western boundary line is 190 odd feet, and, at its base, it widens to 84 feet. From Catawba Street, it is a short distance for an automobile exit. The price is \$1,500. Would you like to see it tomorrow? We will gladly take you out. If today is clear and bright, you can get a pretty good idea of the lot by strolling or motoring around the Circie; Just past the big sign and facing due south, with an eastern exposure on the alley way, separating it from Lot 19. The building restrictions on CUMBERLAND CERCLE call for houses. The building restrictions on CIIM-BERLAND CPRCLE call for houses to cost not less than \$3,000. To intending home builders, we would advise an early selection before the increase in prices and the increase of building cost in the restrictive covenants.

NEW YORK STOCK LIST.

Total sales for today 559,900 shares. N. Y. COTTON MARKET STRONGER.

NEW YORK, March 10 .- The cotton | NEW YORK, March 10.—The cotton market showed increasing strength and activity today on expectations that the arming of American merchantmen would lead to an improvement in export conditions. It seemed, too, that some of the lead to an improvement in export conditions. It seemed, too, that some of the press reports as to conditions in Germany created rather a more optimistic view of peace possibilities, and May contracts here sold up to 17.95 or 30 points net higher. Reactions followed under realizing with that delivery closing at 71.87 while the general list closed steady at a net advance of 10 to 25 points.

The market opened firm at an advance of 12 to 15 points with active months selling 16 to 32 points net higher before the end of the first hour. March contracts advanced to 18.13, making new high ground for the movement and new crop months also sold above the best prices reached last Monday. Houses with Liverpool connections were among the more active buyers of old crop months and there was a tendency to attribute this demand to expectations of narrowing differences as a result of increased shipments. The upward movement was checked ground 17.95 for May and 16.87 snipments. The upward movement was checked around 17.95 for May and 16.87 for October by realizing, and later fluc-tuations were irregular. NEW ORLEANS. March 10.—Announcement that the government would arm merchant ships gave ootton an upward tendency on this market today. The demand was moderately keen in the early trading and fairly good throughout, although later there was reaction under realising. At the topmost levels active months were 14 to 26 points over yesterday's close. The close was steady at a net rise of 6 to 21 points.

The great shrinkage in the visible supply of cotton accused much comment, the visible of all kinds of cotton this week losing nearly 250,000 bales. Bulls predicted that cotton lost on ships sunk in the war zone would become an intertant item in the final statistics of the season. The forecast of rains in the eastern portions of the belt stimulated buying because it was considered any further precipitation in the eastern belt would be injurious to new crop prospects.

N. Y. MARKET PRICES ADVANCE.

NEW YORK, March 10.—The latest measures adopted by the administration to safeguard American interests caused an unusually heavy turnover today and a general advance in industrials and specialties of 1 to 3 points.

United States Steel, Bethlehem Steel and kindred issues were lifted 1½ to 3 points, with 5 for Guif States Steel. Shippings gained 1 to 2½ points, coppers at one time showed average advances of a point and specialties rose 1 to 3 points, with an additional 5 points for general motors, resident and specialties are strong to the state of the with an additional 5 points for general motors, making an extreme advance of 10 points for that stock in two days. The course of rails was again disappointing, the only noteworthy movement being a gain of 1½ points for Southern Pacific, the rise preceding the announcement of a decision favorable to the company in the Central Pacific railway suit.

MARINE SHOWS GAIN,

WASHINGTON, March 10 .- The American merchant marine has made a net gain of 313,814 gross tons through registry charges since the European war began, the navigation bureau announced today. Actually, however, a greater number of vessels left the American flag than came un-der it, but those taking American registry in most instances were ships of

larger tonnage.
