Kenliworth for the three which taxes were last a years of 1915, 1916 and Particulars.

NEW YORK, July M.—There was a further break in the cotton market today under liquidation prompted by bear-lish crop news from all parts of the belt. Frices made new low records of the present dewnward movement, October seiting as low as 20.79 and December 22.17 reagreementing net declines of 85 to 14 points. Old crop was also weak in absence of any further built interest and the whole market closed steady at a net loss of 11 to 70 points, having railed slightly in the last few minutes on covering Besides the favorable crop advices, the market was influenced by apprehensien over the Bussian crists and by increased offerings of cheaper new crop cotton from Teass, while trade demand, which was active on Baturday shreak was absent aimost entirely loday (shod rains were reported in southern Teass and while showers continued to prevail over the sastern belt, private advices claimed the previous complaints of dattage from this course had been exaggerated and that the crop was making excellent progress. Less activity was reported in the goods market after the goods unessy.

Open High Low Close

March

#### NEW DRLEAMS COTTON

NEW ORLEANS July 23 improvement in weather and crop conditions over the central and western portions of the belt stimulated heavy selling of cotten today, and the market fell off 70 to 73 closing near the bottom, at a net loss of 68 to 72 points. Little support was offered at any time and while in the early trading the tone was steady on rains in the eastern belt, the tone was weak at times in the afternoon, especially after the receipt of private reports of rains in south and southwest Texas. In the early trading the most active months were 32 to 41 points off. The decline was widened gradually to about half a cent a pound, but a quick slump in the afternoon brought about new low levels for the day.

The census bureau report on cotton-seed and its prospects was considered bearish and had some effect on values because of the figures on linters, showing a total production of 1,216,943 bales to the end of June, breaking all records. Cotton futures, closing bid. July 22.63; October 22.03; December 27.66; January 23.15; March 22.28.

Spot cotton quiet and unchanged. Sales on the spot 453 bales; to arrived 102; midding 25.75.
