SECOND GALL FOR

More Than 250,000 of First Increment Still to Be Assembled.

QUARTERS READY FOR FULL BRIGADE

Delay in Production Clothing and Equipment Is Existing Factor.

WASHINGTON. Oct. 12.—Discussion of the advisability of expediting the call for the second increment of the draft army new is in progress at the war department and it appears likely that the date may be fixed for some time in December or January.

Mobilization of the first increment of 687,000 men is now far enough advanced to show clearly that there will be a big deficiency for the seventeen national army divisions. More than 750,000 of the first increment are still to be assembled, but it already is evident that there will be available at the sixteen cantonments quarters for an additional regiment at each post and at some for a full brigade of two regiments.

of two regiments.

The strength of the new regimental organisation is \$,600 men. With a regiment lacking at each cantonment, this alone would mean a shortage of nearly 50,600 men. In addition, there has been authorized a separate division of negro troops, which means nearly 20,000 men withdrawn from the original number assigned to the sixteen cantonments.

Cause of Shortage.

The shortage is due partially to the necessity of taking out of the national army men to fill up national guard divisions. Two complete army divisions of southern troops have been absorbed in this way. The remnants of three other southern national army divisions will be consolidated to form a single division unit, and the surplus men from other camps will be sent south to make up the missing divisions.

Drafts on the national army forces must be made to fill up the sulfsted personnel of the aviation service, the medical corps and the service battalions needed behind the fighting lines abroad. Eventually there will be 150,069 men in the last named service alone, and aviation and the medical service will take nearly as many more though not all of them will be taken from the calling out Cause of Shortage

NEGRO GETS PRACTICE FOR LIFE IN TRENCHES

Battling With His Own Wife.

Joe Herron, a young negro who comes within the draft age, and who is anticipating an early call into the fighting forces of his country, is an advocate of that sterling principle of preparedness, 'In time of peace, prepare for war.' Yesterday Herron put into practice his principle, and started a young war within his own domicile supposedly in order that he might be familiar with methods of offensive, and defensive combat. Herron was evidently unaware of the fact that the laws of this city are such as to make it unlawful for a male, regardless of color, to engage in combat with a female, also regardless of color. At any rate he spent last night in the city jail, and will explain to Judge Glenn why he wished to mar the facial contour of his wife.

Asheville troops at Camp Sevier yesterday bought \$17,300 worth of Liberty bonds and so indicated their firm intention of fighting the Huns with cold steel and with good American money, too. The campaign is still on among the boys and before the end comes there will be more of the good bonds sold to the soldiers. A feature of the day was a parade by Company F and Company K, and the appearance the men made was commented on with enthusiasm.

Company F subscribed to \$5,800 worth of Liberty bonds. Company K took \$7,300 worth, and the men of Troop B bought bonds to the extent of \$4,300. All three of the organizations had committees at work that were fully competent and they performed their full duty.
