The Allied Lines.

THERE has always been a precedent for associating a department of insurance and bonding with the real estate business. Frankly, we have hesitated to do so. For nearly 5 years we have haited. A number of banks have this feature identified with their business. Of course, competition isn't crossing swords. Sometimes, it leads to crossing wires, however. Banks are great public institutions; helpful to an incalculable degree in civic betterment and upbuilding all that leads to material, social and moral progress in a community. We are strong for the banks. We now think that it is "good business" in our real estate profession to add the related lines. We have not always been of this opinion. We have to "live and learn." Insurance is a form of protection all of us must have. Protection all of us must have. Protection to real property is essential. Absolutely necessary. We have so much property committed to our care, for saie, for rent and management, that we are glad to announce the better equipment and greater business facilities. Mr. William H. Harrison has been installed as manager of this new department. We will tell you something of our comager of this new department. We will tell you something of our com-panies in a few days. We would like a share of your business and we hope we can be of service to you.
