COMING ATTRACTIONS

AT THE AUDITORIUM.

"Experience"-Tuesday and Wednesday nights, January 29 and 30, matinee Wednesday.

(The following press notices are furnished by the advance agents of the attractions to which they refer and do not necessarily reflect the views or opinions of this paper. When The Citizen, of its own knowledge, knows that an attraction is meritorlous it will say so elsewhere.)

"EXPERIENCE."

From all over the country reports agree that "Experience" which begins an engagement of matinee and night at the Auditorium, Wednesday, January 30, is a play of extraordinary popular appeal, and that the author, George V. Hobart, has turned out a combination of comedy, drama, and musical comedy that teaches a lesson and at the same time offers a form and at the same time offers a form of amusement that appeals to every kind of theatrical appeal. As most people know, "Experience" deals with the adventures of Youth—the average young man of today—on his journey through life and the producers, William Elliott, F. Ray Comstock and Morris Gest, have dressed his journey in bewildering and lavish fashion. All sorts of conditions of places and things are shown in the play. They are the gilded places of the Primrose Path of Pleasure, the grimy dives of the underworld: all that is gay, brilliant and enticing and all that reveals the life of today. It runs the gamut of everything a young and at the same time offers a form runs the gamut of everything a young man is liable to encounter in the course of his adventures out in the big world in search of fame and for-

tune. In the Golden Cabaret scene in the In the Golden Cabaret scene in the play there is a gathering of young women which would put to shame the average featured chorus of the most elaborate musical show. As for gowns, these who know say the dresses make the ladies in the audience really envious, In fact the

fashion promenade in the Golden Cabaret is one of the most delightful episodes of the play. The young ladies who take part in this are chosen as much from the standpoint of their ability to display smart gowns to advantage as for their ability to act, and they are garbed in the very latest creation from the modistes of this

WHEN HARRY LAUDER GOT BACK HIS FAITH.

When Harry Lauder's son was killed, he could not at first see the jus-tice of it. It was for his boy that Harry Lauder had been working all these long years. In an article which he has written for the January American Magazine he says:

"And then one day it suddenly came to me as if in a revelation that I had not made use of something in which I had always believed. All this time while I had been raging against the cruel fates which had taken my son, there had been comfort and peace in store for me and I had not known it. And that comfort and peace lay in my belief in God and a future life beyond this cauthly subject. not made use of something in which I

this earthly sphere.
"While the pain and grief had been blinding my eyes, God had been wait-ing patiently for the first sharp agony to pass away and when it did he gen-tly lifted the veil from my eyes and showed me the promised land beyond I mean that suddenly I realized that I had not seen the last of John, and that we were sure to meet in another world.

"Oh, that I could convey unto you "Oh, that I could convey unto you the healing balm that that thought was to my soul! I would that I could picture to you the joy of the thought that I was to see my John again at some future date, just as if he had simply gone on a long journey, and was waiting for his mother and me to come to him. And I broght his impact before me and investment to him. age before me and imagined ham holding out his arms to his mother and myself to fold us with n his loving embrace, and in the joy created by that picture I was able to assuage some of my pain and distress, aid re-turn to an almost normal state of

Significant of the importance of women in industry in war-time is the appointment of Miss Hulda Mulhauser of Cleveland as assistant man-ager of the newly organized employ-ment service of the United States department of labor. Miss Mulhauser's work will concern the placing of women in positions previously held by men now in the military service, and dashes to be heard.

Sage Tea and Sulphur Daskens So Naturally that Nobody can tell.

Hair that loses its color and lustre

or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so at-tractive, use only this old-time recipe. Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, beand Sulphur Compound is that, be-sides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it

an appearance of abundance.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite to impart color and a youthful ap-pearance to the hair. It is not in-tended for the cure, mitigation or prevention of disease.

as well as the placing of wage earners made idle through industrial changes.

To prevent eavesdroppers listening to telegraph messages sent in public places an operator has patented a sounder that reverses the signals and causes a meaningless tumble of dots
