EMERGENCY HOSPITALS TO CLOSE ON MONDAY

CITY HOSPITALS WILL CARE FOR ALL PATIENTS.

Abatement of Epidemic Makes It Possible to Close Emergency Wards. Twenty New Cases Yesterday.

Twenty new influenza cases and six not previously reported were announced yesterday afternoon by the health department for the last twenty-four hour period. The total number of cases up to that hour were 2,741 with 109 deaths.

Department officials stated last night that they had been considerably besieged in the past week by those who wish to see the churches, schools and motion picture houses opened again and business allowed to proceed as usual.

The Red Cross influenza committee through some of its members asks the people to be patient and leave the management of the epidemic in its closing stages to those who by reason of expert knowledge are qualified to do what is best for the entire community.

With less than thirty cases in the two emergency hospitals the influenza department announced that these hospitals will probably close Monday morning and those patients unable to go home will be transferred to the city hospital by Monday afternoon.

The Red Cross committee last night issued the following statement: "It is the expectation of the influenza relief committee of the Red Cross to close the emergency hospital on Monday morning, November 11."

"To accomplish this end, instructions have been issued to receive no more patients at the emergency hospital, and under agreement with the three hospitals addressed above, we will distribute the applicants for admission to the emergency hospital in the following manner:

"Meriwether hospital—To receive white men and women influenza cases not in excess of four men and four women.

"Mission Hospital—To receive all colored patients and all pneumonia cases, both men and women.

"Biltmore Hospital—To receive all children not exceeding six in number unless by special arrangement.

"Patients will be admitted to the various hospitals as follows: "Dr. Battle, representing the Red Cross, will admitted to all hospitals as above stated.

In addition to admission by Dr. Battle the following doctors will have the exclusive authority of admitting Red Cross patients: Meriwether hospital, Dr. Glenn; Mission hospital, Dr. Reynolds; Biltmore hospital, Dr. Elias.

The influenza committee of the Red Cross will be responsible for each bed occupied under the above conditions, provided the account cannot be collected by the hospital. But, the hospital will proceed to collect the account in the usual way, unless it is clearly a charity case, but if the collection is not made, then the Red Cross committee will pay the account.

"The above arrangement will hold good until November 24, and this committee will not be responsible for any admissions after that date.

"Each hospital must notify this committee within twenty-four hours after the admission of a patient that they have such a patient for which this committee is responsible for, and unless such a notification is made, the committee will not consider itself responsible as above provided for."

TIMBER WILL BE CUT IN SCIENTIFIC WAY

GOVERNMENT FORESTER ANNOUNCES BIG SALE.

Valuable Acid Woods Included in Stand of Government's Holdings Near Old Fort.

Unusual interest will be shown by Western North Carolina lumbermen and foresters in the announcement of the United States forestry service that it has decided to sell 29,000,000 feet of timber on the waters of Curtis creek. Two thirds of the stand is made up of the valuable acid woods for which this section is famous and announcement is made that five years will be permitted for the cutting of the timber.

Chief concern in the announcement comes from the fact that this is the first big sale announced by the government in this vicinity and the operations will be conducted under strict regulation looking to the natural reproduction of the forests.

Just at this time, when so much interest has been aroused in water conservation for the protection of southern industries and the preservation of South Atlantic agricultural property, the government announces a sale of large proportions. People of this section of the state will be presented with an opportunity to see just how Uncle Sam requires that his timber be cut when operations are conducted to a considerable extent.

"On the whole, the cutting will be beneficial," said Rudolph Dieffenbach, in charge of the local forest station, who will make the sale. "Only the mature stock will be removed and the government will mark every stick of timber which is to go down, except that which has already fallen. This big sale will furnish ample proof of the fact that the government's acquisition of timbered tracts in Western North Carolina for its preserves, will not tie up natural resources, but, on the contrary, will result in their wise use."

Four thousand acres of land are included in the tract which will be cut over. The property lies within close proximity to Old Fort and was obtained by the government along with other tracts of thousands of acres in the western counties of North Carolina for its huge preserves.

MATTERS OF RECORD

The following deeds were yesterday filed for registration: Blanche Acheson to Cornelia Fitzpatrick; lot on West Chestnut street, \$5 and other considerations.

S. D. Hall et al to William C. Smith; lot in West Asheville, \$10 and other considerations.

George Greenwood to J. R. Taylor; lot on Dor street, \$10 and other considerations.

Marriage Licenses. Perry Brinkley and Mary McIntyre. Gilmer Wentz, of Georgia, and Katherine McKenzie, of Buncombe.

PEACE WILL INCREASE DUTIES OF ALLIES

PEACE ONLY SPURS ON UNITED WAR WORKERS.

Dr. Best Says Welfare Agencies Will Soon Face Greatest Task in Their Existence.

Instead of the duties of the seven agencies allied in the United War Work campaign decreasing with the coming of peace they will rather increase. It is with this idea in mind that the Buncombe county campaign will begin on the 25th.

Dr. Roland B. Best, noted editor of the continent, who has just returned after six months service as a Y. M. C. A. worker with the American expeditionary forces, says that the man power of England and France has been depleted in order to maintain their armies, and the welfare agencies must look after the matter of reconstruction. He says that it is reasonable to expect that the armies of France and Great Britain will be first to demobilize in order to free their men for work in rebuilding their devastated countries.

American forces will be called upon to do the policing of the countries in Europe, and that means that a vast army will have to be maintained in those countries.

Welfare agencies will have the greatest task of their existence during the reconstruction period. Dr. Best says that a soldier described war as follows: "War is damn dull, damn dirty and damn dangerous." He believes that when the fighting is over is the time when the boys over there will be most in need of the care given by the welfare agencies now at work among them. The dullness of routine is unbearable to the soldier. The period of fighting is joy and excitement. When the idle times arrive the boys will need every word that can be spoken that will tend to cheer and brighten.

"It has taken eighteen months to get our boys over there," says Dr. Best, "and their transportation was accomplished under pressure. It is inconceivable that their return home can be accomplished in less than two years. During this period the United War Work agencies will be indispensable to the soldiers."

REPUBLICANS GAINED TWO OFFICES IN POLK

TRYON, Nov. 9.—The official canvass of the election returns of last Tuesday made some changes in Polk county, giving the republicans two more offices than unofficial returns showed. Hon. William F. Swann, present incumbent, beats W. B. Feagans, democratic nominee seven votes for representative. The other was for county commissioner, Lafayette Thompson, of Saluda township, defeated W. J. Scrivens, of Tryon, the democratic nominee, by five votes.

Republicans claim irregularities and have employed counsel and will bring contest proceedings against the remainder of successful democratic candidates.

They claim that in Greens Creek township the county democratic ticket is unrepresentative. In less than two years the republicans claim that the democratic majority in Greens Creek township should have been but seventeen, whereas it was almost 100.

Refrigerator trucks of twelve-ton capacity, hauled by motor tractors, have been placed in service by a Chicago packing company for local deliveries of fresh meats.

CHRISTMAS ANNEX TO OPEN AT WEAVERVILLE

Residents of North Buncombe May Have Soldiers' Packages Inspected at Weaverville Postoffice.

For the convenience of North Buncombe people who intend to send Christmas presents to men overseas arrangements have been made whereby representatives of the Weaverville branch will be at the Weaverville postoffice November 18 to inspect packages of presents to be sent abroad. The ladies will be on duty at the postoffice from 1 o'clock until 5 o'clock.

This plan does not preclude people who have received labels from soldiers abroad from having their cartons inspected by the Asheville inspectors in the Oates building, these being on duty daily from 9:30 in the morning until 4:30 in the afternoon. But if any North Buncombe people prefer they can wait until the 18th and have their packages inspected by the Weaverville inspectors.

North Buncombe people who have received labels may get cartons for containing their presents from Mrs. William Reagan at any time. After the carton is filled it and the label should be taken to either the Weaverville inspectors at the time named, or to the Asheville office. The label must not be affixed by the sender, this to be done by the inspector after the carton is inspected and wrapped.

The manufacture of synthetic rubber is reported to have become a practical success in Germany and a large dye making company will establish a plant for its production on an extensive scale.

An English railroad has equipped long, high bridge with automatic wind gauges, which set signals against trains when the wind blows at a dangerous velocity.

Society Brand Clothes

Comfort means efficiency

—Efficiency Means Conservation

Those men who stay at home to do the important work "behind the lines" must be efficient—more efficient than they have ever been before. And no man can reach the top notch of efficiency unless he is comfortable.

The comfort of good clothes—well made and well fitting—has much to do with the success of many a day's work.

We'd like to show you our line of SOCIETY BRAND overcoats. You'll find the full measure of comfort in them. And you'll find more than that. You'll find style, expert tailoring and durability.

The "Escadrille" illustrated is a mighty popular style—let us show it to you.
