F your business keeps two or more horses busy, "are's just one reason why you are not using an International motor truck: You Don't Know What It Will Do for You!

That's true. If you knew how much actual cash it saves, you would buy an International motor truck because you could hardly make a better paying investment. If it added only fifty cents a day to your net profits—that would be better than 10 per cent interest on the price of a model H.

An International motor truck will save more than that for any man whose work keeps two hoses busy. That is not all it does, by any means, but that should

be enough to interest you, a business man. Write for our complete figures on motor truck saving.

SHARP ADVANCE IN NEW YORK COTTON

December showing a net loss of 28 points and January of 15 points during the middle of the morning while later months sold 2 to 7 points net lower with March touching 25.78.

The market then turned firmer on reports of an active spot demand in the southwest covering by early sellers and rumors that some of the people who had listed notices this morning were buying. December contracts later in the day That delivery led to the advance selling 94 points above last night's closing figures while later months showed net gains of 28 to 40 points with March selling at 76.20. Later fluctuations were very irregular, particularly in the case of Ingermber which showed a closing reaction of 64 points under renewed liquidation.

NEW YORK MARKET SHOWS HEAVINESS

NEW YORK, Dec. is flarly setbacks resulting from the circulation of a few December notices, were followed by a sharp advance in the cotton market today on trade buying and covering. The general flat closed steady at a net advance of 5 to 48 points.

Owing to the fact that previously this month only 100 bales had been delivered on December contracts the isauance of notices this morning seemed a surprise to the general trade. They were catimated at only 3,000 bales, however, and while they caused some scattering near month liquidation trade interests were obvers on the decline.

The market opened steady at an advance of 5 to 22 points on bullian overing hoard had assigned four ships to the cotton trade. Overnight buying or ders were quickly supplied and the market sold off during the early trading with December showing a net loss of 28 points and January of 15 points during the middle of the morning while later months sold 2 to 7 points net lower with March.
