Don't Let Catarrh Drag You into Consumption

Avoid Its Dangerous Stage.

There is a more serious stage of Catarrh than the annoyance caused by the stopped-up air-passages, and the hacking and spitting and other distasteful features.

The real danger comes from the tendency of the disease to continue its course downward until the lungs become affected, and then dreaded consumption is on your path. Your own experience has taught you that the disease cannot be cured by sprays, inhalers, atomizers, jellies and other local applications.

S. S. S. has proven a most satisfactory remedy for Catarrh because it goes direct to its source, and removes the germs of the disease from the blood. Get a bottle from your druggist today, and begin the only logical treatment that gives real results. You can obtain special medical advice without charge, by writing to Medical Director, 27 Swift Laboratory, Atlanta, Ga.

The Whisper That Comes in the Night

The Glorious Knowledge Women Gain When a Wonderful Thought Steals Over Them.

B. A. PATTON ASKS FOR MONTHLY BILLS

Chairman B. A. Patton, county commissioner of public finance, has announced a new ruling in regard to bills which are to be rendered by any person or corporation to which the county is indebted. He states that all bills must be rendered toward the last of each month in which the bill was originated. He has had several bills against the county to come in recently which date back as far as three months ago. This keeps the monthly balances on the finance books mixed up, he states, and causes quite a little inconvenience in the office.

Hereafter, therefore, any person or corporation which does any work for the county that does not last longer than a month, or furnishes any material to the county, shall render the bill to the county toward the last of the month in which the work was done or the material furnished, the chairman stated yesterday.

Within a new electric flat iron is a fusible strip which melts if the iron becomes overheated and cuts off the current.

Apparatus has been invented by a Frenchman to compress air in a reservoir as doors are opened and use it to wind clocks.

SCHOOL-DAY STRAIN

A parent troubled over a child or a fast-growing youth, could do no better than to utilize the definite help that

SCOTT'S EMULSION

affords as a strengthening and nourishing factor. A very little of Scott's every day, during a time of stress, furnishes elements of nourishment essential to the blood and tends to confirm a growing child in robustness. For your boy or girl, you will not be satisfied with anything short of Scott's.

Scott & Bown, Newfield, N. J.

FARM AGENT OPENS EXCHANGE BUREAU

MADISON COUNTY FARMERS ARE AIDED IN MARKETING.

District Agent Gray Finds Madison Agriculturists Are Taking Great Interest in Demonstration Work.

E. D. Bowditch, Madison county farm agent, has organized a sale and exchange bureau which is expected to prove of much value to the Madison farmers. Mr. Bowditch has sent out invitations to all persons having commodities for sale to list them with him; those who are in the market for articles of any kind are also asked to supply the county agent with the information. Bulletins are issued periodically by the farm agent, showing in one column what is for sale and opposite a list of wants.

District Farm Agent James M. Gray, returning yesterday from a three days' visit to Madison, stated that this is one of the first bureaus of the kind established in Western North Carolina.

Mr. Gray accompanied Agent Bowditch on a tour of the county for the purpose of finding out if the people are interested in farm demonstration work. The district agent was much gratified to learn that the farmers have been quick to realize the value of modern methods in agriculture, and that it is practically certain that the county commissioners would not be willing to allow the appropriation for demonstration work to be removed from their budget of county expenses.

In the latter part of this month and in February Mr. Bowditch will visit the orchards of the county to give demonstrations to Madison orchardists in pruning and advice on proper methods of spraying. The Madison agent is an experienced orchardist. It is stated, having a large orchard in Yancey county.

District Agent Gray yesterday told Board of Trade officials that the interest that is now being taken by Western North Carolina people in livestock and scientific methods of farming is a matter of pride to the officials of the state agricultural department.

AGENT GRAY TO GO TO AVERY COUNTY

Will Conduct Experiments in Search of Early Variety of Corn for That County.

J. M. Gray, district agent of the agriculture extension work in the mountain section, goes on Sunday to Avery county, where he will arrange to conduct some experiments in corn production. Avery county, which is in altitude is one of the highest sections of North Carolina, has some trouble in finding a variety of corn which will mature in the comparatively short season of that country.

Three farmers of that section have offered their farms to be used in the experiment and have put their entire services at the agent's disposal. He stated that he does not anticipate much trouble in finding a suitable variety for Avery county.

The office of the agricultural extension work has recently moved into new office rooms in the L. B. building, and the agent is planning some extensive work for the coming season.

FUNERAL SERVICES FOR LATE A. B. SMITH

Funeral services for the late A. B. Smith, 46 Oak street, who died on Thursday, were held yesterday at his residence. Dr. R. F. Campbell officiating. Interment took place at Riverside cemetery and was in charge of the Knights of Pythias.

Mr. Smith had lived in Asheville for many years where he represented the Jefferson Standard and the Prudential Life Insurance companies. He is survived by a wife and eight children and a brother. He had been ill for two years.

The pallbearers were: B. H. Taylor, E. M. Lyda, B. A. Patton, H. B. Walters, S. P. Burton and J. J. Worsley.

CLOSE GAMES IN DUCK PIN CONTEST AT "Y"

A very close and spirited game marked the last night's round of the Y. M. C. A. duck pin tournament. Three of them won two games out of three from Miller and his trio.

All the scores were close and some of them especially good. Miller bowled high man with a score of 348. Oscar White being a close second with 337. The tabulated score follows:

Miller	132	105	100	348
G. F. Stradley Jr.	83	100	97	280
W. Dermitt	106	98	103	307
Dr. Hoffman	81	86	83	250
Totals	402	393	389	1184
Rice	94	88	101	283
White	93	109	135	337
Shackleton	110	126	92	329
Brown	66	77	86	229
Totals	363	400	415	1178

The Soap, Ointment and Talcum 25c. each at all dealers.

INFECTED TOOTH MAY EXPLAIN DEMENTIA

Dentist Removes Bad Molar for Johnnie Jenkins, Who Is to Be Sent to Hospital.

An infected tooth may be the source of the mental aberrations which physicians have credited to Johnnie Jenkins, sixteen-year-old youth who is expected to go soon to the state hospital at Morganton. Yesterday Jenkins complained of toothache and Sheriff Mitchell sent one of his deputies with the boy to see a dentist. A huge molar was extracted after strenuous exertions on the part of the exponent of oral surgery, assisted by the deputy who held the boy while the dentist pulled.

Army and school physicians have lately testified to hundreds of cases in which extreme nervous disorders of mental affection was caused by defective teeth and local physicians state that Jenkins now has a good chance to recover from his physical ailments. He is still in jail awaiting commitment to the state hospital.

Since the county reformatory was closed, several small boys have had to be confined at the county jail. One of these, James Setton, of Black Mountain, fifteen years old, is in jail on conviction of stealing automobile tools at Black Mountain. Commissioner of Public Institutions Stradley expects to have Setton accepted at the Jackson Training school this week. The boy is so innocent looking and is such a handsome, well developed youngster that it was hard for spectators in court recently to believe that he was guilty of larceny. But he does not deny the accusation.

MARRIAGE LICENSES.

CASUALTIES ANNOUNCED.

WASHINGTON, Jan. 10.—Casualties among enlisted men of the navy serving with the marine corps in France were announced today by the navy department and include Algeron G. Brumbeo, pharmacist's mate, Spray, N. C., severely wounded in action.

FREEDOM VOTED WILSON.

CORK, Jan. 9.—The corporation of the city of Cork has voted the freedom of the city to President Wilson "as a mark of appreciation for the high principles enunciated for a settlement of the world peace."

"And was the widow so inconsolable?"
 "Oh, yes. Why, they had to hide her powder puff to keep her from weeping."—Columbia State.

THE NEW CALOMEL FINE FOR COLDS AND GRIPPE

Calotabs, the New Nausealess Calomel, Breaks Up a Severe Cold Overnight.

Physicians and druggists have at last found a quick and dependable remedy for colds, influenza and grippe. One Calotab on the tongue at bed time with a swallow of water—that's all. Next morning your cold has vanished and your liver and digestive system are purified and refreshed without the slightest unpleasantness or interference with appetite, diet or work.

Doctors have always contended that calomel is the best medicine for colds, bronchitis and a gripe and the first medicine to be given in pneumonia and acute fevers. The new calomel, Calotabs, is purified and refined from all of its sickening and dangerous impurities and with the medicinal virtues vastly improved.

Calotabs are sold only in original sealed packages price 35c. Your druggist recommends and guarantees them, and will refund your money if you are not delighted.

ADVT.

brief Spanish-American war, and history has repeated itself during the present war. In this connection it is interesting to record an established fact that the total enrollment of the United States forces in war was just about one-half of all that was expected of us by the recent epidemic of Spanish influenza. Nor should it be overlooked that times of peace, the deaths are estimated to be approximately 100. In infants and young children patient is not killed, he or she escapes from the hospital a hopeless cripple. But the new surgery, the surgery developed during the war, will only save many of these and these victims, but will help to restore usefulness the lame and the halt of the blind.

In a hospital in Milan, Italy, they have been experimenting successfully with a new apparatus which insures immobility of the mouth and jaws and thus makes it possible for the physician to rebuild, reshape and even to actually restore lost functions to men who were suffering from mouth wounds. This marvelous jaw-lock consists of two light metal arcs, one of which is placed on the outside of the lower range of teeth and the other on the upper range, the whole being fastened to the teeth by metal ligaments in such fashion that no
