REAL ESTATE

Dolobran; A Serial Story. This sub-division has reflected the greatest real estate activity of any of the several residence parks in Asheville. Relatively, of course. Within two years this firm has sold upwards of \$40,000 worth of lots in that allotment, and home sites there are still selling. There is no abatement of interest in the buying. Thoroughly restricted property, anchored with safeguards for the home. Lot 23, on the northern tier of the subdivision, was sold yesterday. One home was recently built and two other homes are now in the throes of construction. These are steep hillside lots, but most picturesque and commanding superb mountain views and an outlook on the golf links. Your immediate attention is invited to the consideration of Lots 26 and 27. The price is \$850 each. No reduction if you buy both and no discount for cash. All prices are fixed and stable. Terms of purchase reasonable. Eight lots, from 18 to 25, in-

clusive, have been sold; one continuous chain, up to these two

lots here offered. You need to arrange a personal inspection, accompanied by one of our salesmen, to clearly understand the boundaries of this idyllic woodland. Phone 1995 for ap-
