"I Know Just the Gift They Need - Correct Glasses"

"Eyeglass Gift Certificates will easily solve my Christmas Gift Problem."

"I can picture my friends now. In the very act of receiving the Certificates each will reveal one of the three 'eyemarks' by which you can always tell people who need glasses. One will peer awkwardly over his reading glasses; one will immediately shift glasses; and the third will be wearing her old-fashioned bifocals with their ugly seam. But when they wear Kryptoks, as I do, all their eyeglass troubles will end, and no one can tell that their eyes require double-vision glasses.'

Kryptoks enable the wearer to KRYPTOK see near and distant objects with THE INVISIBLE DIFOCALS equal clearness. They do not have the age-revealing seam or hump of old

style bifocals. Any friend of yours who ex-

hibits one of the "eyemarks" of the person who needs glasses will greatly appreciate them as a Christmas Gift. Drop in and let us tell you how easy it is to make somebody a present of a pair of Glasses.
