superior Team Work

Harvard's victory was probably due as much as to superior team work based on experience gained on eastern fields, as to any single factor. Their superior weight seemed to have little to do with it, judging from the way their opponents held their line smashes. Speed was equally divided, the backs of the opposing teams seeming to get over the ground with equal faculty. In interference and blocking the easterners had a shade the better of it, according to press experts, but the teams were so evenly matched that there was little choice.

GERMANY MUST REDUCE **ARMY TO 100,000 MEN**

LONDON, Jan. 1.—Under the terms of the peace treaty, Germany is compelled to reduce her regular forces to 100,000 by March 31 and the number of gendarmes must not exceed those functioning as military police in 1913. The reduction of the regular army in compliance with the treaty obligations is proceeding, although at a slower rate than originally was contemplated owing to the delay in ratification of the peace treaty, the unsettled state of Germany and the desire of the German government not to increase the number of persons unemployed.

British army officers returning from Germany declare there is no truth in the stories that Germany has a secret.
