About June 1 Mr. Davis is to be transferred to Asheville to become advertising manager of the entire chain of stores operated by Anthony Brothers.

VAGRANTS NOTIFIED TO FIND POSITIONS
 County Will Find Employment for the Persistent Loafers.
 County Welfare Officer Thomas R. Parker yesterday issued final warning to vagrants, and notified those who are loafing around Emma that in the event they did not find a suitable job and stick to it, the county had some work over on Early mountain, where the convicts are stationed, that needs being looked after. Officer Parker stated that he has had a large number of complaints that boys and young men above the compulsory school age are spending their time loafing, cursing and fighting around Emma station. The officer has secured the assistance of some deputy sheriffs and a round-up of the vagrants will be conducted unless complaints stop reaching the welfare officer.

BOND ELECTION FOR SCHOOL IS CARRIED
 Citizens of Turkey Creek District Decide to Spend \$12,000 in Erecting New School Building.
 The first election held to decide the issuance of school bonds since Miss Terrell became superintendent of public instruction last fall, was held in the Turkey Creek special school tax district yesterday, and the majority voted to issue \$12,000 in bonds for the purpose of erecting a new school building.
 This special tax district is located in Leicester township and in one of the most progressive communities in the county. Agitation for a new school site and building was started some time ago by the people of this community, and it was learned at the close of the election that a great number of the citizens favored the immediate issuance of the bonds and construction of the building so that all students may properly be accommodated at the next term.
 There were 31 votes favoring the bond issue and 15 cast objecting to the issuance of the 12,000 school bonds. William Z. Penland, acted as register for the election and J. M. Plummer and H. N. Hawkins were the judges.

Watches
 In every class of merchandise there is a Standard that is always spoken of—compared to—and judged by. Our policy in every case is to secure just that line of standard merchandise for our customers. Until recent years it has seemed the policy of each European watch maker to produce a watch peculiar to himself. The Swiss watch makers of established reputation have, like their American brothers, standardized their models. The manufacturers of the celebrated Gruen Watches have now in their works watch makers from Switzerland to the end that they may furnish American watches made under Swiss supervision. We are now showing the most dependable makes—standard watches that have established reputations for accuracy and reliability.
