The Third Adventure

With "The Home Office."

Not infrequently it happens that a residence is sold at a considerable profit, this; after having been lived in for quite a while. Various conditions and exigencies govern the sale of a home. All these factors have to be taken into consideration. A house serves its purpose for one family and is handed down to another company of individuals. It is sold because it is too small. Again, some of the children have "married off" and it is too large. And, so it goes, Then, the demands of taste, of fashion, of social position, forsooth; all these things enter into the equation. Of course, the eminently proper course is to buy a lot "on the side," so to speak. Then, you should worry!

A Perfect Treasure

Referring to a superb building site in a very exclusive northeide location. Select homes all around. Frontage over \$5 feet and quite generous in depth. Wonderful site for a high grade apartment house. Price under \$5,500. If you see this level, elevated lot with trees and fine views; if you will but compare all existing standards of valuation in Asheville; you will agree that this ranks with any property priced at \$70 per front foot anywhere in town. And, here the price is less than \$60 per front foot. There is but one drawback; no terms will be given. It is a strictly cash transaction. Call 1995 and date up with Mr. Humphreys to see this ber-

Tea Room or Home Retreat.

This is a perfectly wonderful discovery. Just now, a charming little cote stuck away in the woods. But not far away. Indeed just a step from the car line. I cannot imagine a location better suited for a tea room than this little bungalow. Winter is still with us and also Old Man Flu but the Spring will soon be here. Magnificent oaks afford abundant shade and the turn around for an automobile is all that could be desired. Possession may be had in a month's time. This is the trimmest little house you ever saw. Hot water heating system. \$5,250 is the price. Such a yard for a strawberry festival, more than 65x150 feet in size. It is the very best price that I can procure. The location of this property in a splendid residence section and its proximity to the Golf Links es tablish its value. Look at it; you will be just as enthusiastic as the office staff over it.

Possession in April

No price fixed as yet on this charming house. It is being built now in Dolo bran, near the Howland Road crossing of the Charlotte Street car line. I cannot figure with you on a price until it is practically finished and its actual cost established. Stone foundation. Modern in every particular. When you look at the trees that surround it; you run out of superlatives. And, the views and surroundings are so pretty. Come up to the office in the Drhumor Building to-day or to-morrow and go over the plans with us. It's one of the daintiest Spring models. We have a waiting list already but we do so want every one who loves beautiful things to have a chance at this home. 1995 is our phone number.
