### LIBRARY OBSERVES EMERGENCY RULES

OPEN ONLY FOR RECEIPT AND DISTRIBUTION OF BOOKS.

Night Service Is Abolished and Privilege of Reading in Library Is Entirely Suspended.

Effectuating the health regulations enacted yesterday by the city commissioners, several new regulations are in effect at the Pack Memorial Public Library.

The library will be open only for the taking out and return of books, being closed for reading purposes. Because of this the library will close daily at 7 p. m.

Loitering in the library, using it as a place for meeting friends or a waiting room, and gathering in groups is not permissible.

Not more than four persons are to be at the book desk at one time, the health department being insistent that grouping be eliminated. Patrons are asked to remain away from the desk until those there are served by the librarians.

The library board and librarians earnestly ask the co-operation of the public in carrying out regulations which it is hoped will be but briefly temporary. The class of people who use the library makes it probable that patrons will conform cheerfully to temporary inconvenience.

### NEGRO HELD FOR ASSAULTING AFFAIR

Cornelius King, a young colored boy, was tried yesterday before Magistrate T. F. Hunter, charged with interfering with an officer in discharge of his duties, and assault on an officer with a rock.

Probable cause was found and bond was fixed at \$100 and he was bound over to superior court, and will probably be tried during the first week of March.

### WILL HOLD SUPERIOR COURT UNDER ORDER

Only Court Officials, Attorneys and Litigants in Case at Issue to Be Admitted.

Dr. C. V. Reynolds, city health officer, has upon inquiry from John H. Cathey regarding the holding of court next week, advised the clerk that the regular three weeks' term of court can be held notwithstanding the ban put on general public gatherings. However, certain restrictions were placed when the permission to hold the court was granted.

No persons will be allowed in the court room save the judge, jury court attendants, lawyers and litigants actually engaged in the question at issue. It is believed that with the placing of these restrictions which the sheriff and his deputies will stringently enforce, that no detrimental effects will ensue from the holding of the court. It is further pointed out that this being only a civil term that it will only be necessary for a few persons to be in the court room at a time.

### SILK SPECULATION TO BE INVESTIGATED

NEW YORK, Jan. 29.—A commission to seek a remedy "for the excessive speculation in raw silk" will sail from San Francisco February 21, for Japan and China, it was learned today. The commission was selected by leading American silk manufacturers who met in secret session here last night.

The present price of \$18.50 a pound is declared "unprecedented and prohibitive." The normal rate had been \$14.50 a pound.

Most of the speculation in raw silk has been going on in Japan, but it has been financed largely from New York, it was stated. Manufacturers claim that prices are so high now that they are unable to sell their goods at a profit after buying it.

### Y. W. HEADQUARTERS OFFICIAL, IS HERE

Conferring With Committee Regarding Financial Matters Here.

Miss Beach of the Y. W. C. A. South Atlantic field headquarters, was in the city yesterday conferring with the secretary of the local association on the finance committee and their plans for the coming campaign for the yearly budget of the association which will be held during the latter part of February.

The chairman for the committee was appointed and soon as possible other minor details for the completion of the plans for the campaign will be arranged. The prospects for the raising of the yearly budget are good and no doubt a successful campaign for the association will be waged.

On account of the influenza epidemic the association has cancelled all activities, including all the club meetings, committees' meetings and class meetings. Until further notice the association will only keep open the cafeteria and lunch room.

### ARMY STATION TO LEAD THE STATE

Local Station Will Probably Continue at the Head.

Clyde L. Barlow, of Yadkin Valley, was accepted yesterday at the local army recruiting station for one year's service, in the chemical warfare service, and will be sent to a post where a school of this service is conducted.

During the past month a large number of applicants for this service were accepted at the local station. The local station generally holds the record of the other stations in the state for the largest number of recruits accepted during the month. It is expected that the local station will hold this honor for January.

### WILL NOT MUSTER OUT RESERVE INFANTRY

Meeting Called for Monday Night Is Postponed on Account of Influenza Situation.

The special meeting called for Monday night of the Asheville reserve infantry has been called off on account of the influenza epidemic. It was stated that the men would be mustered out of the service but Captain John H. Cathey said today that there was no foundation for such a statement, and that no one knew the date on which the company would be demobilized.

It will be impossible to muster out the members of the reserve company until the new cavalry troop is accepted by the federal government, Mr. Cathey points out, and as yet it has not been ascertained when the recruiting of the new troop will be completed.

In the meantime all who belong to the reserve infantry are under the same rules and regulations as governed them during the war.

**RINGS**

Wearing of rings has been a custom from the beginning of the world. Ancient rulers conferred authority by giving their subordinates rings. The form of a ring can never change—but its design will vary. For many years wedding rings have been the same plain gold band, varying only in the width. The wedding ring in the time of Louis XVI was a work of art. The new wedding ring, chased, set with diamonds and otherwise embellished, made in gold and platinum, has surpassed the ancient ring in its beauty and perfection. We have these rings in all the new designs made in green, white and yellow gold, or platinum set with diamonds.
