AND PERSONAL

Bridge has again come into its own with the members of the younger set and each evening at the various residences of the young people throughout the city may be found a table of congenial card players passing an enjoyable hour or two. Owing to the city quarantine these small and informal gatherings have become quite popular.

Mrs. George Williamson, who is at Orlando, Fla., for the winter season, made high score at a large card party given last Wednesday afternoon at the Rosalind club, Orlando, under the auspices of the local chapter of the Daughters of the American Revolution. The affair was a benefit for the Children's Home society at Jacksonville, Fla., and over one hundred dollars was cleared. After the cards a splendid musical program was enjoyed. The prizes were given by the local merchants of Orlando, and were handsome and useful articles. During the social hour when delicious refreshments were served, the Payson orchestra rendered a program of popular music. Mrs. Williamson and her mother spend each winter at Orlando.

Mrs. E. N. Snow, of Greensboro, has recalled her invitations to a tea which was to be given this afternoon from four o'clock until six o'clock at the Greensboro Country club, on account of the illness of her cousin, Mrs. Owen Norvell, of this city.

A large and handsome picture of Miss Cornelia Vanderbilt with the following was shown in Harper's Bazaar of this month:

"Miss Cornelia Vanderbilt, only daughter of Mrs. George W. Vanderbilt, being closely allied with Washington, practically commutes between the capital and New York in order to attend the many parties given for her and her debutante friends. With all her social activities, she keeps in close touch with Baltimore, her mother's estate in North Carolina for the young heir, as takes a keen personal interest in the welfare and handicrafts of the little community. Miss Vanderbilt's childhood and girlhood were spent almost entirely within the bounds of the beautiful estate, and it is only recently that she has become identified with New York."

On account of the influenza situation the meeting of St. John's auxiliary of Trinity church which was to have been held yesterday afternoon was postponed. At a recent meeting of the officers, president, vice president, secretary and treasurer of the auxiliary, held with Mrs. Frank M. Lindsay, at her home, 194 Rankin avenue, on Saturday, the following delegates and alternates were appointed to attend the annual convention which meets at Trinity church, February 11: Delegate, Mrs. Frank M. Lindsay, alternate, Mrs. Clara A. Stone; delegate, Mrs. McCandless, alternate, Mrs. Niel Lee; delegate, Mrs. Hall, alternate, Mrs. Frank W. "LOBBY BUGS" ARE DEBATED IN HOUSE
Bugs Charged With Eating Books and Papers.
WASHINGTON, Feb. 3.—"Lobby bugs" invaded the austere pages of the congressional record today while the house turned aside from debate on the deficiency appropriation bill, to discuss their ravages and take a few laughs on the side.
"They have ratted a large supply of stationery which I recently got and which is charged up against my stationery account," complained Representative Harbour, republican, of California, while the house rocked with mirth, "they even have eaten the covers of my books."
"I have had the superintendent of the office buildings squirt a solution supposed to be bug juice, three or four times around my office and when he got through they seemed to be more numerous than when he started."
"They get fat on it," interposed Representative Juul, republican, Illinois.
Representative King, republican, Illinois, declared that perhaps if there were anything "fit to eat" in the house office building restaurant, "the gentleman's books would not be disturbed by cockroaches."
The house debated the "bugs" until assured that the "maintenance fund" provided in the bill would supply a war chest for counter-attacks upon the enemy.

SPIKER AND MISS KNOWLES WILL WED
FALL RIVER, Mass., Feb. 3.—Marriage license blanks were filed out late today at the city clerk's office by Miss Emily Knowles and Guy S. Spiker, and will be given to them on Sunday by the clerk, when the five day period required by law of non-residents, has been completed. They sought to have the time requirement waived but failed. It is expected they will be married on Sunday.
The police tonight said they did not intend to question Miss Knowles as to reports that she had been married in England to Parley R. Spiker. Guy Spiker issued a statement denying there had been any such marriage.
Mrs. Perley Spiker and her brother-in-law, left tonight for New York and Baltimore, the latter saying that he would return on Sunday to be married to Miss Knowles.

ACCEPT INVITATION TO JOIN THE LEAGUE
COPENHAGEN, Feb. 3.—The Scandinavian premier and foreign ministers at a conference held here, decided to accept the invitation to join the league of nations, it was learned today.
The decision was arrived at without enthusiasm, as it was considered that without the United States the league did not guarantee much. However, owing to the conviction that small countries are unable to afford an independent attitude on foreign policy, it was considered best to join the league.

SIXTEEN PER CENT. MAXIMUM PROFIT
NEW YORK, Feb. 3.—Sixteen per cent. was set as the maximum profit for woolen merchants today, by Arthur Williams, federal food administrator. Mr. Williams gave the firm of Binder and Hyman, who had made a profit of \$1.55 a yard on 1,272 yards of women goods which they bought for \$3.55, twenty-four hours to buy back the goods from the complaining firm. H. P. Belsinger and company at the price paid and resell at a profit of not more than ten per cent.; return \$1.25 for each yard to Belsinger and company or turn the \$1.25 a yard over to charity. The food administrator declared that merchants should work on a basis of cost plus fair profits regardless of market conditions.

To Overcome Winter Complexion Troubles.
If the chill air causes your skin to dry and scale or become uncleanly red or spotted, before you go to bed spread a thin layer of ordinary mercurized wax over your entire face. Remove next morning with warm water. This is the ideal complexion treatment for the winter girl. The wax gently absorbs the dead particles of surface skin, so gradually there's no discomfort. This gives the underlying skin a chance to breathe and to show itself in a week or so the new and younger skin is wholly in evidence and you have a really matchless complexion. Naturally all its defects disappear with the discarded cuticle—as chips, roughness, blotches, pimples, freckles, blackheads. Usually an ounce of mercurized wax, procurable at any drug store, is enough to renovate even the worst complexion.—Advt.
