THIN PEOPLE **NEED BITRO-PHOSPHATE**

Increases Weight, Strength and Nerve Force in Two Weeks Time in Many Instances

Judging from the countless prepara-tions and treatments which are contin-ually being advertised for the purpose of making thin people fleshy, develop-ing arms, neck and bust, and replacing ugly hollows and angles by the soft curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness. hinness.
Thinness and weakness are often due

to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by Smith Drug Store and most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, bitro-phosphate should produce a welcome transformation in the appearance; the increase in weight frequently being astonishing.

Increase in weight also carries with it a general improvement in the health. Nervousness, eleeplessness and lack of energy, which nearly always accompany excessive thinness, should soon disappear, dull eyes ought to brighten, and pale cheeks glow with the bloom of perfect health. Miss Georgia Hamilton, who was once thin and frail, reporting her own experience, writes; "Bitro-Phosphate has brought about a magic transformation with me. I gained 15 pounds and never before felt so well."

CAUTION:—While Hitro-Phosphate is unsurpassed for the relief of nervousness, general debility, etc., those taking it who do not desire to put on fieth should use extra care in avoiding fat-producing foods.
