## BANK DAY of National Thrift Week

"Make Deposits Mount In Your Bank Account"

WHENCE comes the enormous sum of money that is necessary for the commercial and goverment. al business of this county? There is only a small proportion of the required total in circulation or held in the Treasury. There is, in fact, but comparatively little geed for actual cash in our financial scheme, for our banking system creates a more facile, elastic, adaptive and useful medium of exchange-credit. Given a few thousands of cash, our banking machinery turns out hundreds of thousands of its equivalent. So, in brief, we see the relation of the Bank to the Nation. Thus it is plain, at a glance, that the bank is the economic foun. tainhead from which flows the unique and unparalleled wealth that this country enjoys. And, in the individual analysis, it is clear that every American owes a large measure of his comfort and well-being to the excellence of our banking system.

As the Bank serves the Nation, just so will it serve vou! This, surely, is one of the great, inspiring truths that thrills the American Youth with his amazing, boundless, irresistible ambition. Any young man in this country may hope to command the Bank to do this or that for him. Yea, if he will enforce command of his own qualities of integrity, energy, and thrift, the Bank

will beg to do his bidding.
