would be controlled by the groves. The address of welcome at the morning session was delivered by John T. Wilkins, of Hendersonville and the able response was made by J. K. Kenney, of Balsam, District Manager of Transylvania and the Counties west.

Committee appointed were as follows: Resolutions, Mrs. Sallie M. Stringfellow, Asheville; Rev. E. S. Creamer, Black Mountain; V. P. Pressley, Hendersonville; Uniform Rank, L. V. Lyda, Hendersonville; W. H. Summey, Rosman; W. H. Grogan, Jr., Brevard; Woodmen Circle, Mrs. Virginia Hustus, Hendersonville; Miss Bertha Green, Old Fort; A. M. Paxton, Rosman.

In addition to the addresses of Mr. Lewis and Mrs. Rogers, at the afternoon session, J. Milton Todd, of Charlotte, representing Mecklenburg County, a Piedmont Log Rollers Association, also spoke. Mr. Todd came to Western North Carolina to take part in the proceedings and as a staff correspondent of the Charlotte Observer.

G. L. Hermon and Mrs. Sallie M. Stringfellow represented Laurel Grove Circle of Asheville. Mrs. Rogers traveled over 1,300 miles in order to be present at the convention. She came from Omaha, Neb., where she was attending a meeting of the Supreme Forest Woodmen Circle, and so anxious was she to attend the Western North Carolina Convention that she made the long trip from the Western city.

In his address, Mr. Lewis pointed out the fact that the Woodmen of the World is 101 per cent solvent, while the Woodmen Circle shows a solvency of 102 per cent. This statement brought forth prolonged applause. The statement that the W. O. W. had more money invested in Texas than any other State, with North Carolina second, brought from Mrs. Rogers the declaration that the Woodmen Circle has more money invested in this State than any other State in the Union.

# Conservatives to Have the Largest Group in Next House of Commons, Belief of Most English Newspapers

(Continued from Page One)

Irishman got into the last House of Commons. He is for clearing out at once and entirely from the House of Commons, the Conservative Party, which has been in power since the death of Mr. Bonar Law's program of moderation in all things.

Election of all things was again in full swing today. Premier Bonar Law, recovered from his indisposition, traveled to Glasgow where he addressed a meeting tonight. Former Premier Asquith was on the same train to attend a meeting of his constituents at Paisley. Mr. Lloyd George shows undiminished energy in this respect, surpassing all his competitors in campaigning activity. He left Glasgow for Bolton and North England, and as his custom, addressed little gatherings on the way.

All the great leaders, however, have long since exhausted anything in the shape of novelty in their various addresses, with the possible exception of Winston Churchill, who, having entered the fray at the last moment in still able to infuse the spice of interest in his speeches, and he is also perhaps more a victim of hecklers than the other leaders. He was even hounded down at Dundee today.

As the campaign nears its end it is interesting to observe how the

# INSURANCE COMPANIES ARE FINED \$8,055,975

JACKSON, Miss., Nov. 12.—The Supreme Court of Mississippi today, by a vote of 3 to 2, affirmed the decision of Chancellor V. J. Stricker, imposing fines and penalties amounting to \$8,055,975 on about 130 fire insurance companies formerly operating in this State and against whom State Revenue Agent Stokes, V. Robertson two weeks ago, filed suit in the Chancery Court of Hinds County charging them with violating the interest laws of the State by conspiring to control rates.

The Supreme Court in the Chancery Court consists of six members and in the event of a tie vote custom makes such a vote an affirmation of the case.

Attorneys of the insurance companies announced late today they would file a suggestion of error within the next few days. If this is over-ruled, it was said, an appeal will then be taken to the Supreme Court of the United States.

# TANGERINE PROVES SUCCESS OF SEASON

Swappy American Tunes With South Sea Atmosphere Blends in Manner That Strikes Home.

Mixing snappy American tunes with an atmosphere of the South Sea Islands, excellent scenery, beautiful girls and a good "Tangerine," a musical comedy satire, rode on the crest of the waves of popularity and broke against the shores of success at the Auditorium before a fair sized audience last night.

Heavy applause greeted the down-trodden husband and fair wife, tired with business cares and giving money to hubby, refused to take him to the dance.

The scene was arranged into two acts, opening with Alimony Jail, New York and ending with the King as the second closing at Main Street, Tangerine Island.

Novelty is the keynote of the attraction and nothing more can be said than the next is an excellent show, well worth seeing.

# Three Charged With Abstracting Monies From Bank in Winston

# RICKARDS APPROVES OF NATIONAL GUARD PLAN

WASHINGTON, Nov. 12.—Opposition of the Militia Bureau to any attempt to change the National Guard into a regular army, and the maintenance of the National Guard component of the Army of the United States as a separate and distinct national defense act, was expressed by Major-General Rickards, chief of the National Guard Bureau, in his recommendations to the committee of National Guardsmen called to consider the proposed change.

General Rickards said he realized the "impossibility, due to insufficiency of funds" of completing the plan to convert the National Guard into a regular army, but he declared that he considered it a "feasible, advisable, easily adjustable" scheme of first importance.

General Rickards said the 18 infantry divisions of the guard, four cavalry divisions and 12 separate corps and army troops and State militia units would be armed with 165 guns.

To organize these troops at full strength the Militia Bureau would have to change the National Guard from 178 men per Senator or Representative to 400 men per Senator or Representative.

The officer added that the present strength of the guard aggregated 178 men per Senator or Representative, and that the plan would require an increase of 222 men per Senator or Representative.

General Rickards said he believed that the plan would be a "great benefit" to the country, and that it would be a "great step" toward the creation of a national army.

**TEACHERS THINK ONE OF CLASS SHOULD BE ELECTED SECRETARY**

Slight Uprising Does Not Promise to Unseat J. B. Warren.

RALEIGH, Nov. 12.—A slight uprising in the North Carolina Teachers' Assembly over the recently created full-time secretaryship does not promise to mature into a successful fight on J. B. Warren, who holds the post.

Wilson County teachers, assuming the position that a medical man would have a physician as secretary of their organization, the bankers have the services of a banker, etc., contended through resolutions passed at a recent meeting of the Wilson county Teachers' Assembly that a teacher should occupy the position of assembly secretary.

Mr. Warren, for several years prior to his selection as secretary belonged to the newspaper profession, having been the Raleigh correspondent of State papers. He taught school, however, for two years before entering newspaper work, and those supporting him for the secretaryship looked on the correspondent of State papers as a feat of corresponding importance to the license held by a non-practicing attorney, a physician who has not actively engaged or relating to the position of a banker's association who may not have been actively engaged in the banking business.

The committee selecting Mr. Warren felt that his experience in newspaper work would make him of exceptional value to the teachers, and his experience in each of these professions would give him sympathy for the profession. The Wilson teachers apparently see things differently, however, and they are fighting to turn the place over to a teacher.

Thus far no other counties have joined with the Wilson teachers and it is not thought the movement will reach the floor of the Assembly which convenes here Thanksgiving week. The stand is considered significant, however, in that it proves the growing pride in professionalism among the professors and "professionals" and indicates favor among them for the usual close corporation and professionalism.

the grand jury was prepared. County Detective George Totten tonight announced the authorities possessed the evidence tending to discredit the statements of the affidavit filed yesterday with Mr. Mott by Nellie Lo Russell, negro, who lives in a shanty a short distance from the pig farm of Mrs. Jane Gibson. In her affidavit Nellie swore that she had been talking to Mrs. Gibson on the night of September 14, at which time the pig raiser claims to have witnessed the slaying of Mr. Hall and Mrs. Mills.

Last Spring, according to Totten, complaint was made to prosecutor Beekman of the sanitary condition of the negroes' farm. The woman was declared to have neglected her stock and was called to Mr. Beekman's office. The Russell woman, according to Totten, has credited Mrs. Gibson with having made the complaint against her, saying the relations between the two had been strained ever since.
