JUNE.

W. COTTEN DOWNING.

Oh! lovely is the April time
When warming zephyrs from the
south

Are bringing bumble bees, and rhyme
To smoothly flow from poet's mouth,
The cherry blossoms, frequent showers
From fleecy clouds, and the round
moon;

But lovelier dawn and evening hours
Are given us with leafy June.

And lovely, too, the month of May
With all its wealth of song and rose,
Perfuming each melodious day
From morning gray to evening's close.

Ah! bright the day and fair the flower,
And sweet each soft ornithic tune;
But softer song and fairer bow
Come with the lovely, leafy June.

For like a maiden plump and sweet,
With rounded limbs and breasts
mature,

A' tripping with unsandaled feet
Along some shining, fruitful shore,
And carolling a heavenly tune,
Doth come the lovely, leafy June.

Now sings the sprightly oriole,
The martins chatter from the eaves,
The mated partridges are bold,

The moaning dove no longer grieves,
The mocking bird trills all the night,
While shines the radiant, silver moon,
And fairies dance, by fire-flies' light.

Through all the shaded nooks, in June,
The peach is ripe, the roses blow,
The field and wood are decked in
green,

Strawberries down the meadows grow
With portulaca in between.

Oh! perfect days, fair sunny land,
Are these that come to thee in June,
The sun is bright, the sky is bland,
And summer's chords are all attune.

UNIVERSITY OF NORTH CAROLINA.

SPECIAL ANNOUNCEMENT.

The Legislature of 1885 passed an
act providing for the establishment of
an Agricultural and Mechanical
College, and transferred to that
college seventy five hundred dollars
of income then used for Agricultural
and Mechanical instruction at the
University. This transfer of funds
has made necessary the reduction of
the Faculty of the University, in
certain special departments; and a
false impression may be made in
regard to the effect of this reduction
upon the general work of the Uni-
versity. The authorities deem it
proper, therefore, to make a state-
ment of the facts.

It had been demonstrated by
experience that there was little
demand among our people for instruc-
tion in certain departments of the
University, notwithstanding their
importance, and the efficiency and
zeal manifested by the professors in
charge; and it was evidently the
desire of the Legislature that certain
other special studies be taught at the
Agricultural and Mechanical College
instead of at the University. Hence,
in the re adjustment of the work of
the University, the authorities have
omitted the following special branches
of study: Pædagogics, Ornithology,
Metallurgy, Mining Engineering,
Feeding and Breeding of Animals,
and Practical Horticulture.

No diminution nor change has
been made in any of the regular
collegiate courses of study. The
University still has a large Faculty,
and offers full and thorough instruc-
tion in all general branches of study.
Its Faculty now consists of a Profes-
sor of Constitutional and Interna-
tional Law and Political Economy, a
Professor of Mental and Moral
Science, a Professor of Mathematics,
with an assistant, a Professor of
Latin, a Professor of General and
Industrial Chemistry, with an assist-
ant, a Professor of Geology and
Natural History, with an assistant, a
Professor of Natural Philosophy and
Engineering, a Professor of English
Language and Literature, with an

assistant, a Professor of Modern
Languages, a Professor of Greek, a
fully equipped Law School, making
a total of fifteen professors and assist-
ants.

Although the Chair of Pædagogics
has been abolished, yet a course of
study extending through two years
has been arranged for the special
benefit of students preparing to
teach; and a special course of three
months is offered, each spring, to
teachers who desire to extend their
education.

The general studies of especial
benefit to farmers, merchants, manu-
facturers and other business men,
have been grouped into a small
course of two years, for the benefit of
students who are unable to complete
a full course. The completion of this
course would be of great value to
any business man.

Students of Medicine will find at
the University a short course of two
years, comprising such general
studies as are essential to the educa-
tion of a physician, and such special
studies in Chemistry, Botany,
Zoology, Physiology, &c., as are
included in the curriculum of all
Medical Colleges. By taking this
short course at the University, they
will not only receive the benefit or
training in general studies at the
University of their State, but will
also save one year, at least, which
would have to be spent at a Medical
College.

Full particulars concerning these
shorter special courses, as well as
the regular four years courses, may
be had by addressing the President
or the Bursar of the University, at
Chapel Hill.

Chairman ex-office of the Board of
Trustees.

Secretary of State.

A DESPERATE BATTLE

BETWEEN MOONSHINERS AND REVENUE
OFFICERS.

ST. LOUIS, Mo., June 27th.—A
special from Little Rock, Ark., to
the Post-Dispatch says: A desper-
ate battle occurred between revenue
officers and moonshiners near Black
Springs, Montgomery county, yester-
day. Internal Revenue Collector
Frye and posse raided the moon-
shiners' camp in the vicinity destroy-
ing three distilleries. Shortly after-
wards the posse was attacked from
ambush by an armed band of moon-
shiners. A regular battle ensued in
which Deputy United States Marshal
Trammel was killed. Collector Frye
has telegraphed to Fort Smith for
reinforcements.

THE VIRGINIA DIFFICULTY AT CHICAGO.

Washington letter in Alexandria
Gazette, 29th: From people who
have just returned from Chicago it is
learned that not only Senator Rid-
dleberger, but ex-Senator Lewis and
his son Sheffey, "made up" with Gen.
Mahone there, and that in the row
that took place in the room of the
Committee on Credentials General
Groner stepped up to Mahone's side
and said, "though opposed to your
policy, in a personal fight I am with
you." These returned Virginia dele-
gates also say that Republican
meetings will be held in all the
Virginia districts to ratify the
Mahone electoral ticket, and that
nobody except, possibly, Messrs
Brady and Wise, will oppose that
ticket.

WILL SUPPORT THE DEMO- CRATIC TICKET.

An attempt having been made to
show that the Brooklyn Independ-
ents who, in 1884, refused to support
Blaine and gave their suffrages to
Mr. Cleveland would now return to
the Republican fold and cast their
ballots for Harrison and Morton, the
New York Times has looked into the
matter and finds, after interviewing
a large number of the leaders of the
Independents referred to, that not
one out of ten of them will fail to
support the Democratic candidate
this year. The nomination of Harri-
son and Morton is not likely to draw
away any of the so called Mugwump
support of the Democratic ticket. In
1884 the objection was mainly to
Blaine, the tattooed. This year it is
to the tariff plank of the Republican
platform which will not begin to do
in the opinion of any patriotic,
thoughtful citizen, whatever his
political creed, unless he be bound
irrevocably to the Republican jug-
ernaut of passion and prejudice.—
News and Observer.

"HEIRESS TO MILLIONS,"

The newspaper stated, and how
many women, probably, read the
same, and envied her. But little was
she to be envied, however; for inspite
of her great wealth she was miser-
able. It was her lot, in common
with myriads of women, to suffer from
those "chronic weaknesses," which are
peculiar to the female sex. Miser-
able, nervous, and discouraged, she
would gladly have given every dol-
lar of her fortune for one brief in-
stallment of health. How easy, and
how inexpensive, would be the journey
to health, if Dr. Pierce's Favorite
Prescription was selected as a remedy,
and the use of the same persisted in;
that is, the experience of thousands
of women afflicted in the above man-
ner, teaches us to predict so. It is
the only medicine for women, sold by
druggists, UNDER A POSITIVE GUAR-
ANTEE, from the manufacturers, that
it will give satisfaction in every case,
or money will be refunded. This
guarantee has been printed on the
bottle-wrapper, and faithfully carried
out for many years.
Dr. Pierce's Pallets, or Anti bilious
Granules, cure sick headache, dys-
pepsia and consumption.

HARRISON'S WEAK POINT.

The following, taken from the
News and Observer, shows that Har-
rison, the Republican nominee for
President, will ruin our country if
elected:

"The Chinese question is not a
burning one with us, but on the
Pacific slope and at the North a bad
Chinese record is a heavy load for a
Presidential candidate to carry—and
that is a weak point with Harrison.
In 1882 a bill passed Congress sus-
pending Chinese immigration for
twenty years, and the Republican
President vetoed it. On the question
of passing the bill over the veto
Harrison voted no. The bill failed
to pass.

Later when another bill was up
making it unlawful to land any Chi-
nese laborers in the United States,
and prohibiting the courts from
admitting Chinese to citizenship,
Harrison voted against that; but
nevertheless it passed over his oppo-
sition. Californians have good mem-
ories."
