THREE ACCIDENTS.

Twelve Men Dead and Six Injured at Petersburg, Va. - Three Men Killed by Powder at Brinton, Penn.-Three Perish at Lancaster, Ind., by a Boiler Explosion.

About 3 o'clock a few afternoons ago an alarm of fire was turned in from Blandford, a suburb of Petersburg, Va., and this was soon followed by a loud explosions. In fifteen minutes there was a second explosion. The explosion was caused by fire in the fireworks factory of C. N. Romaine & Brother. Twelve men were killed and six injured by the explosions. The flames spread very rapidly and were

quickly communicated to the other buildings used for the manufacture of fireworks, and thereafter there were frequent explosions. The dead were Chas. N. Romaine, John B.

Bland, Captain James W. Tosh, Jas. W. Perkins, James Bowland, who was a spectator after the first explosion : Robert Rowland, his brother ; J. F. Harris, Edward Traylor, W. Parker, Quincy Livesay, James Bryant and Thomas Woodfolk (colored). The injured were : Chief Engineer E. V. Farley, fatal, Charles Wells, injured internally; P. W. Redgray, probably fatally injured; Walter Nunally, hand broken and flesh wound on left breast : E. Stith Beasley, struck on thigh by a flying piece of tin and slightly injured ; William Parker, an employe at the fireworks factory, struck in the face by a piece of flying timber. William Traylor and Quincy Livesay, who were employes of the fireworks factory, were also supposed to have been

killed. The remains of Captain Tosh were identifled by his knife, sleeve buttons, eyeglasses and watch. Captain Tosh was a candidate for Commissioner of Revenue, in opposition to the present incumbent, James B. Blanks, and some of his election tickets were found in his pockets. He was a member of A. P. Hill Camp of Confederate Veterans. For some years he was engaged in the railroad business, both in Richmond and Petersburg. Up to a few months ago he was the auctioneer at the Tobacco Exchange. He had also carried on a dairy business. He

found necessary to use rowen from the highly esteemed citizens. mowing field and in this case the more clover there is in it the better. Grasses

arrived, but ladders were run up, and the men rushed on the roof, six stories from the ground. In doing so, Ollie Ries, one of the men, slipped and fell to the ground, being killed by the fall.

All the men from No. 4 Engine were directed to the rear of the roof, right over the stage, where the fire was the worst. Some men from other companies were with them when, without warning, the roof gave way, precipitating eight of the men eighty feet into the fire on the stage. All of them were either killed by the fall or burned to death or suffocated. The dead are: Archibald Campbell, Cap-

tain of the fireboat James Foley ; James C. Freeman, Lieutenant 4 Company ; John Caroll, 2 Chemical ; August Janssen, Third Assistant Chief of Department and brother of Chief John T. Janssen of the Police Department ; Frederick Kroeschmuer, 8 Chemical Frank McGurk, Lieutenant of 4 Truck and Acting Captain of 14 Conpany; Thomas Morgan, Company No. 1; Ollie Ries, 3 Company ; Frank Winne, 4 Chemical. The four other firemen went down with

he roof, but were rescued and taken to the Emergency Hospital. Fireman James Crowley was rescued soon

after noon after having been pinioned down under a mass of timber for several hours and after having faced death in three formsfire, drowning and suffocation.

at Milwaukee, Wis., Drops In,

Carrying With It Those Who Were

Fighting the Fire-Noble Deeds of

An engine was kept pumping away the water that steadily rose and threatened to drown him, and air was forced through a hose to keep him from being choked to death by the thick smoke that filled the building. The large building was used for a theatre on the ground floor and the rear. The part above the ground floor was the Hotel Davidson. The hotel was well filled with guests, but they were all warned in time and escaped without injury. The fire originated apparently on the

stage under the roof. The stage was a very large one, and the fire had made great progress in the olly scenery and was a perfect

furnace when discovered. The Liliputians, with an immense amount of scenery, were filling a two weeks' engagement in "A Trip to Mars" in the house. The stationary scenery, which was large, and that of the Liliputians gave the flames advantage, and the thing went like tinder. When the roof fell in the members of the insurance fire patrol were covering up the seats of the parquet. They ran back just in

time to escape the falling roof, as portions nto the parane f it dronne

year's salary. 76TH DAY .- Mr. Hale delivered a long

93D DAY .-- The House approved the jour-

imptory request, sent a statement to the United States Senate showing the available wheat supply. Under the exact terms of the resolution the Secretary finds an apparent shortage of 50,000,000 bushels. In another statement which he volunteers and which he says will definitely present the surplus available, he shows the amount available for export from March 1, 1894, to July 1, 1894, to be 69,000,000 bushels, and the apparent discrepency, 119,000,000 bushels, between the amount of supply and the quantity distributed due, he adds, to an underestimate of the reserve stock held by farmers on March 1, 1893.

Decline in Immigration.

Official figures prepare by Superinten lent Stump show that the number of immigrants entering the Port of New York since January 1 up to March 25 this year, as compared with the corresponding period of last year, had decreased 17,767.

Superintendent Stump says this decline in immigration is due to dull times and strict enforcement of immigrant laws. Ocean steamship lines report that the number of immigrants booked by them, for the United States this season is sixty per cent, less than at this time last year.

Peace and Prosperity Predicted. It is claimed that the Russo-German treaty will make for peace and prosperity all over Europe.

Time and Season.

All things have their time and season, and in the changeful temperature of a closing winter rheumatism ilourishes. The best treatment is referred to in a letter from Miss Lina Gunckle, Trenton, O., Feb. 22nd, 1893, who says : "I suffered for several years with rheumatism, but was cured by St. Jacobs Oil. I am now well and never feel anything of it." Better get the Oil in time and there will be no season of trouble afterwards.

Times. THE STUDY OF AGRICULTURE.

Agriculture is the basis of our national progress and prosperity. While this fact is widely recognized, yet the study of this most important of all callings is not placed in the curriculum of the public schools of the country. Generations of children pass through life without ability

to distinguish between wheat and barley when they see it growing. It seems necessary to be born on a farm to be acquainted with even the rudiments of agriculture. This is all

deep enough. wrong. The studies of the school-Dadant has asserted that bees canroom should be arranged to meet this oversight. True, men have become not bite. Senator Patrick Walsh the Succes sor of Colquitt, of Georgia.

PATRICK WALSH Senator Patrick Walsh, who was appointed by Governor Northern to fill the vacancy in

the United States Senate caused by the death of Senator Colquitt, of Georgia, was sworn en Medical Discovery" is not an exceptional one. Thousands of eminent people in all in upon his arrival at Washington and will participate in the tariff fight. He walked down the Senate aisle on the arm of Senator Gordon to take his oatn of office as Senator.

THE General Term of the Court of Common Pleas in New York City has affirmed a judgment of \$10,000 obtained by Anna E. Swinarton, of Chicago, against George La Boutillier for the loss of an eye, Miss Swinarton was in Le Boutillier's store when a cash boy snapped a pin and injured her eye. The Court holds that the defendant is responsible for having a mischlevous boy on the premises.

THE Japanese portion of the dwellers on the Hawaiian Islands are giving the Provisional Government much trouble by their bostile attitude.

THE Brilish revenue returns for the finantial year ending last March 31 showed an increase of \$3,690.165 over the previous year-

business.
