EDENTON, N.C., Aug. 16th, 1895

A Mean Man.

One of the meanest, most contemptible men on earth, says the Warrenton Record, is the man who deliberately goes into a meeting of his fellow men, who he knows are striving to build up the community in which they live, with the express purpose and intentions to obstruct, delay, hinder and throw cold water upon the efforts of those who are endeavoring to build up and encourage progress and enterprise.

Encourage the Editor.

The editor can always write more cheerfully of the business interests of a town when his columns are liberally filled with the advertisement of the business houses. No editor can advocate the doctrine of buying from home merchants unless the home merchants show they are interested in catering to the home trade by advertising in the columns of the local newspaper.

A Woman Sheriff.

In Greene county, Missouri, Mrs. Helen C. Stewart has been appointed sheriff to succeed her husband, who died a few weeks ago. She is said to be the first woman sheriff in the United States, or in the world, and it is thought that when her term expires she will be nominated by the Republicans for that office.

All Quiet at Winston.

The Tuttle trial at Winston, over which the recent race riot occurred, has ended. The jury brought in a verdict of murder in the second degree, for which Judge Brown commended the jury.

Premium List of State Fair.

The premium list of the 35th annual North Carolina State Fair has been received. It will be held at Raleigh on October 22d to 25th, inclusive. Col. Julian S. Carr is President and John Nichols Secretary. A big effort will be made to make it a big success.

Abandon the Idea.

It is now announced that regard for the protests of the country against the Atlanta Exposition's sham bull fights has caused the authorities to abandon the idea of having them. A sensible decision.

A Colored Eye Doctor.

A colored doctor at Statesville practiced on the eyes of a colored child until he about succeeded in putting them out, and now he is in court, according to the Landmark, for practicing without license.

The Manufacturers' Record.

The Manufacturers' Record in its report of new industries inaugurated at the South last week gives this State six new cotton mills; it says there is unusual activity in all kinds of business and industries, especially that of iron. The contract of the Aniston (Ala.) company for piping for Japan calls for 30,000 tons, the largest foreign order ever placed in America.

In proportion to population.

Germany raises nearly ten times as many potatoes as the United States, and finds them a profitable crop. As this country is importing between 2,000,000 and 3,000,000 bushels of potatoes a year, our farmers should take the hint, and need have no fear of overproduction.—E.x.

The Democratic State Conventions.

That are being held prove that the silver men are sound. The talk about the single gold policy gaining is all bluster.

When Baby was sick, we gave her Castoria.

When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

Don't go West, Young Man.

We give the following for the encouragement of our farmers who think they are having an exceedingly hard time to live and make both ends meet. The raising of horses in our State is regarded as a safe, good business, and wheat is worth from seventy cents to one dollar per bushel.

A letter received from Dr. Lash, who, with his family, is traveling out West, while not written for publication, contains some interesting items, which we take the liberty of using. His letter is dated from Spokane, Wash., where he met Pat Winston, known throughout North Carolina. The doctor says Pat loves North Carolina and everybody in the State, and has shown them every attention.

What, he says, sells there for seventeen cents a bushel, costing thirty cents to raise it. "Four hundred and seventy-five horses sold here in the street this week for fifty cents each. You can buy them any time for \$3 to \$10. This is a silver-mining section, but the industry is very flat just now. If you want to get rich (?) come West. This town has five churches and 204 bar-rooms, each paying a license of \$500 a year. They are allowed to use screens and keep open all night if they want to"—bars not churches.—Greensboro Record.

No editor can advocate the doctrine of buying from home merchants unless the home merchants show they are interested in catering to the home trade by advertising in the columns of the local newspaper.

It is depressing to the editor to find business men patronizing every advertising fake that comes along, and at the same time the names of those business men are rarely, if ever, seen in the advertising columns of the local newspaper.—Salisbury Herald.

Skeleton on his Hook.

Ebenezer Likely was fishing in Sinnamon Lake, near West Point, Md., when his hook became fastened in some object on the bottom of the lake. With his friends help he succeeded in pulling the skeleton of a man to the surface. When it came in contact with the air it went to pieces. The bottom was dragged and a pair of big Hessian cavalry boots were brought up from their century-old resting place. An enormous sabre was also flashed up. At the time Fort Montgomery was captured by the British, the heaviest part of the fighting occurred on the banks of the lake and into its quiet waters were flung the Hessians who were slain.

It is said that on every voyage of a first-class ocean steamer about 3,000 pieces of glassware and crockery are broken.
