PECULIARLY APPROPRIATE AND  
APPLICABLE TO OUR PEOPLE.

The following from the *South-  
port Leader* is so full of truth  
that we publish it as peculiarly  
appropriate and applicable to our  
town just now.

The town or city whose citizens  
are not united upon all mat-  
ters which go to build up and  
increase the prosperity of their  
place, will never see their own  
town developed.

In the co operation of the peo-  
ple of any community for its de-  
velopment there are several  
things involved. The coming  
together upon a common basis of  
the citizens of a place, to agree,  
unite, and then work out the plan  
determined upon, means a suc-  
cessful result. Co-operation of  
the citizens of a place indicates  
faith and trust among its people,  
and confidence in the possibilities  
of the development of the natural  
resources of the place.

It is not alone sufficient that a  
town has natural resources. Its  
people must either themselves  
take advantage, and increase  
what nature has done or if un-  
able of themselves to do so, to  
bring in such capital and labor,  
which joined to their own, will  
produce results beneficial to all  
interested.

Such a union once happily be-  
gun should be increased into a  
firm and unchangeable desire up-  
on the people of the community  
to continue in a joint fellowship  
of action on every question  
which means the welfare and  
prosperity of the town and coun-  
try.

The measure of citizenship  
should be gauged not by any po-  
litical party,--there ought to be  
no politics in municipal affairs,  
but by the fidelity and effort of  
every man or woman who labors  
in behalf of the upbuilding of  
the town.

The co-operation which means  
success in material benefits,  
mean success in educational and  
healthy development along all  
lines for the present generation  
and very much more for future  
generations.

The upbuilding in the present  
by co-operation, will see an in-  
creasing growth with each suc-  
ceeding year, and with the years  
the benefits arising from this  
who are to day but feeble advoc-  
ates of the union in sentiment,  
purpose and action of the people  
of a city, for its development.

THE OLD RELIABLE

ALBEMARLE STEAM NAVI-  
GATION COMPANY.

Among the oldest, best, and  
quickest lines of transportation  
in this country is the Albemarle  
Steam Navigation Company with  
its principal offices at Franklin,  
Va. With a perfect system of  
connections with other steamboat  
companies and with the Norfolk  
and Carolina R. R. at Tunis; and  
the Seaboard Air Line at Frank-  
lin it presents to our people  
every facility for the transporta-  
tion of both passengers and  
freight. Its officers are all men  
of ability and thoroughly under-  
stand the needs of the travelling  
and shipping public. From Mr.  
J. D. Pretlow, its president, Mr.  
C. C. Vaughan, Sr., its secretary  
and treasurer, down through all  
the rank and file of its employees  
are found men whose aim and  
object is to meet in every legiti-  
mate way the needs of the pub-  
lic. Mr. R. A. Pretlow, the ex-  
tremely courteous superintend-  
ent, is especially to be congrat-  
ulated upon the perfection to  
which he has brought his de-

ANOTHER CHALLENGE.

ENGLAND WILL TRY AGAIN IN  
1896 TO WIN BACK THE  
AMERICAN CUP.

It is announced that another  
challenge has been issued for the  
America's Cup, coming from  
Charles Rose, a son of Sir John  
Rose, of London, who has cabled  
a challenge for a race in 1896 to  
ex-Commodore James D. Smith,  
chairman of the Cup Committee  
of the New York Yacht Club.

An Unfavorable Crop Report.

The State Weather Bureau issued  
this week a very unfavor-  
able crop report. The past seven  
or ten days have been the most  
abnormal on record in North  
Carolina during September, the  
temperature averaging 15 de-  
grees daily above normal, the  
maximum temperatures ranging  
from 90 in the mountain sections  
to 100 in the eastern. The per-  
centage of moisture is the lowest  
ever recorded here, in summer.  
The drought is serious and is in-  
juring all growing crops. The  
farmers say great numbers of  
the upper bolls of cotton have  
fallen off, that the lower bolls  
are all opening at once and that  
the entire crop will be open in  
three weeks. It is estimated  
that the damage to the crop in  
the past ten days is 10 per cent.  
The rice crop is being harvested  
with a fine yield. Late corn is  
cut short.

A Burning Issue.

From the *Saginaw Courier-Herald*:  
Shall we wash on Saturdays or  
on Mondays is the question that  
is agitating some society people.  
No doubt it would be a good idea  
to wash every day, but that is  
asking a great deal of some of us.

Money would be more enjoy-  
able if it took as long to spend it  
as to earn it. The money spent  
to go to the Edenton Fair gives  
a longer period of pleasure than  
can be had elsewhere for the  
same sum.

Snow was reported throughout  
Nebraska last Sunday night.

Wednesday, Oct. 22, will be  
Virginia day at the Atlanta Ex-  
position.

Efforts are being made to re-  
organize the colored Farmers'  
Alliance in this State.

In Sweden a man who if seen  
drunk four times is deprived of  
his electoral vote.

A new history of North Caro-  
lina will soon be published by  
Judge Walter Clark.

The State Press Association  
will go to the Atlanta Ex-  
position October 15.

There are now 111 veterans in  
the Soldiers' Home at Raleigh,  
all the counties save 20 being  
represented.

The people of Winston raised  
a purse of \$1,250, which was  
presented to Evangelists Sam  
Jones and G. R. Sturt, who con-  
ducted the recent meeting there.

The United States cruiser  
Brooklyn is to be launched at  
the ship yard of Cramp & Sons

October 2nd.

William Cline abducted the 16  
month old child of a woman  
named Herron, in Swain county.  
He snatched it from her arms  
and fled with it into the moun-  
tains.

The Grand Lodge of Odd Fel-  
lows, in session at Atlantic City,  
added another section to article  
keepers, bartenders or profes-  
sional gamblers shall be eligible  
for membership in the order.  
There was a spirited debate, but  
it passed by 167 to 32, the requi-  
site number being 135. This  
question has come up at every  
Grand Lodge session for several  
years past.

Booker T. Washington, in his  
speech at the opening of the  
Atlanta Exposition, which was  
so favorably received by the  
country, uttered a well recog-  
nized truth when he said: "It  
is well to bear in mind that what  
ever other sins the South may be  
called upon to bear, when it  
comes to business, pure and sim-  
ple, it is in the South that the  
negro is given a man's chance in  
the commercial world."

Some newspaper readers seem  
to think that they must not sub-  
scribe for a newspaper the editor  
of which has opinions which in  
some respects may differ from  
those which they themselves  
have formed. Did ever a dozen  
people meet together upon all  
in perfect harmony upon all  
topics! No, indeed. Man isn't  
built that way. And yet the  
editor is expected to formulate  
opinions which shall harmonize  
with the ideas that several thou-  
sand readers entertain.—Norris-  
town Review.

Treasure in an Old Violin.

Hugh McQuire, a farmer  
living near Goodland, Kan., re-  
ceived by express a violin that  
had in it something more sooth-  
ing to the Kansas farmer than  
music. Two years ago his uncle  
died at Washington city. He  
was supposed to have some  
money saved up and as McQuire  
was his only heir he anticipated  
a little fortune. When his will  
was opened it was found he had  
left him nothing but an old viol-  
in. McQuire was so indignant  
that he would not pay the ex-  
pressage on it to Kansas. A few  
nights ago he dreamed the fiddle  
was full of money. He told his  
wife, who believes in dreams,  
and she appropriated \$3 out of  
her egg money to pay the ex-  
charges. It arrived Tuesday  
and when examined was found to  
contain \$1,800 in money and a  
deed to 160 acres of land in  
Virginia. There was not a word  
of explanation with it.

Civil Service Extended.

The President has issued an  
order, under date of September  
20th, placing all grades of the  
Consular service with a compen-  
sation between \$1,000 and \$2,500,  
under a modified civil service,  
which provides for the class, but  
not competitive examinations.  
This order will effect little more  
than one-half of all those engaged  
in the consular service of the  
United States. The order was  
suggested and strongly recom-  
mended in a report to the Presi-  
dent by Secretary Olney.

BUTLER DENOUNCES SENATOR  
TILLMAN.

HE CALLS HIM A THIEF AND A  
CONSTITUTIONAL LIAR.

Gen. M. C. Butler, of South  
Carolina, has given out the fol-  
lowing card with reference to  
Tillman's attack on him in a  
speech in the Constitutional con-  
vention recently held in Colum-  
bia:

"I have denounced Senator  
Tillman to his face as a liar, a  
coward and a thief, and I cannot  
keep up with a constitutional  
liar. If I should kick him now,  
he would probably run off and  
howl and have me indicted for  
assault and battery. His state-  
ments concerning me in the con-  
vention on Monday were a tissue  
of falsehoods from beginning to  
end."

"A Trip Suggested to Northern  
Prospectors."

Under this caption the able  
editor of the *Wil. Messenger*  
writes the following interesting  
article:

North Carolina offers very ex-  
traordinary advantages and oppor-  
tunities to Northern investors and  
capitalists. If an hundred  
or five hundred Northern men  
would enter our State by way of  
Elizabeth City, and thence ex-  
plore the Albemarle section, so  
fertile, so wonderfully watered,  
and then take the section lying  
along the Washington, New  
Berne, route to Washington, and  
after seeing the attractive points  
in each county would then go to  
the Cape Fear and take in the  
entire Western section as far as  
the Tennessee line, and after this  
exploration, next make a tour of  
observation towards Raleigh,  
taking in the counties as far as  
Warren, and thence returning to  
Raleigh would return to Wil-  
mington by the way of Hamlet,  
they would view important parts,  
although necessarily failing to  
see some of the finest, greatest  
of the South—the Potomac, Cas-  
prospect along the line of Wil-  
mington and Weldon railway to  
Weldon, and thence go through  
Northampton and Bertie coun-  
ties by way of water to Edenton  
and thence through the sounds  
and canal to Norfolk. What a  
revelation of variety of climate,  
soil, products and capabilities  
would strike the eye and arrest  
attention! What marvelous  
water power; what great fishing  
and oyster resources; what vast  
opportunities for profitable truck-  
ing; what splendid corn and  
wheat and tobacco resources;  
what fine chances for rice grow-  
ing and manufacturing of fine  
woods into carriages and adorn-  
ments for homes and public  
buildings and furniture in end-  
less variety; what rich mines of  
coal and iron and minerals of  
precious kinds; what a vast area  
that could be profitably utilized  
for the growth of the best and  
finest flavored fruits—apples,  
pears, grapes, figs, cherries, etc.,  
—all these and other vast advan-  
tages would be made to appear.  
A visit like that indicated rapid-  
ly and imperfectly would intro-  
duce them to the most remark-  
ably diversified of all the States  
and would afford them advan-  
tages for investment they could  
get in no other way. They  
would see the grandest scenery  
in the States outside of the Rocky  
Mountains.

R. H. Pannill Acquitted.

The third trial of R. H. Pan-  
nill, at Lynchburg, Va., formerly  
ticket agent of the Chesapeake  
and Ohio Railway there, charged  
with aiding and abetting Walker  
G. Hamner in embezzling the  
funds of the First National Bank,  
was concluded Saturday, the jury  
rendering a verdict of acquittal.  
The trial consumed six days.  
Three ballots were taken by the  
jury. The first stood 10 to 2 for  
acquittal, the second 11 to 1, and  
the third all for acquittal.
