All announcements and recommendations of candidates for office, whether in the shape of communications or otherwise, will be charged as advertisements.

EDENTON, N.C. Nov. 29th, 1895.

THE EDITOR'S TRIP

To the Great Cotton States and International Exposition.

A Show Worth Seeing.

A BRIEF DESCRIPTION OF THE BUILDINGS AND EXHIBITS, AND OF ATLANTA, THE HUSTLING CITY OF THE SOUTH.

Having just returned from Atlanta, where we spent about a week at the Cotton States and International Exposition we will give our readers a few observations in regard to this, the greatest of all Southern Expositions.

A visit to the Exposition will convince one that the exhibits are fully equal to the advertisements and in many respects superior.

The Exposition is (so said by many) an almost complete reproduction of the World's Fair on a smaller scale. It is also said that the Government exhibits and the exhibits in the forestry building are more varied and complete than they were at Chicago.

The foreign exhibits, fourteen foreign countries being represented, are also especially fine.

The Exposition grounds are situated just three miles from Union depot, Northeast from the city at Piedmont Park, on ground traversed by rifle pits, over which Sherman threw the first shell into Atlanta thirty-one years ago.

The grounds are laid-off beautifully, and in the enclosure there are about 400 acres. Near the center is a beautiful crystal lake. On this lake boats are run for the pleasure and convenience of those who wish to go from one part of the grounds to another.

Surrounding this lake are plats of pretty flowers, and green grasses, driveways and gravel walks, while dotted here and there are flowing fountains.

The buildings are all large and commodious and attractive—some of them are beautiful.

At the main entrance stands the Administration building, fronting 240 feet, 50 feet wide at center, and three stories high. This is occupied by the officers of the Exposition.

The main tower and broad rotunda of this structure are suggestive of the old Tower of London, and its general style is that of an old bronial castle. There are no exhibits here, but the business of the Exposition is transacted in these rooms.

Machinery Hall, 118 feet wide, 500 feet long and 60 feet high, is located near the Southern part of the grounds, fronting the lake and near Midway. Here are engines of every description at work; large dynamos that give electrical current to the lights on and in the buildings, machinery in practical operation, weaving silk and cotton fabrics, making pins, corkscrews, etc., grinding eye-glasses, turning wood and making a thousand of other things. There are also a long line of other displays of special interest.

The Mining and Forestry building is a rustic structure 350 feet long and 110 feet wide, and presents a most handsome appearance. In this building there is an extensive government exhibit of wood and mineral products, especially of the Southern States with object blocks of the relative quantities produced in each State. The North Carolina exhibit in this building is especially fine and will command the attention of capitalists and mining engineers all over the world. The roof of this build-

ing gives also a splendid view of the grounds.

The Agricultural building, 304 feet long, 150 feet wide and 110 feet high to center of dome, is located just south of the entrance. This is one of the most interesting exhibits on the grounds. In this building are novel methods of cooking cereals, etc., and a large presentation of the products grown and minerals mined along the route of the Seaboard Air Line. Here is a West Florida exhibit and a very fine display from Louisiana.

The Fine Arts building is one of the most imposing and elegant structures on the grounds, with its columnar front. It is 245 feet long, 100 feet wide and 50 feet high, and in it there is an exhibit of paintings from the best artists, crayon penciling, etchings, statuary, etc. This building is just west of the U. S. Gov. building and fronts toward the East.

The U. S. Government building is located on a high bluff, near the Chimes Tower. Romanesque style. Has a floor area of about 65,000 square feet. Here is a very fine exhibit of rare relics from the State Department; a fine show of food fish in brilliantly lighted tanks. These fish were all caught along the coast of North Carolina and taken from Morehead to Atlanta. There are also exhibits of great interest from the Navy, War and Interior Departments. Models of the ships of our navy from the beginning of the century to the present time, and a large torpedo boat belonging to some armored cruiser, are here exhibited; in fact, nearly everything that is connected with the U. S. government is here shown. We regret that we haven't the space to give a more fuller description of this exhibit.

One of the finest buildings on the grounds is the Manufacturers and Liberal Arts, 206 feet wide, 356 feet long, and 90 feet high, with side and end galleries, including second and third stories in towers. In it are elegant exhibits from Britain, France, Germany, etc., fine statuary from Italy, fabrics from the mills of Europe and America, and a wide range of industries from the South American Republics. Here can be seen a line of costly jewels, diamonds set in rings, pins, brooches, ear-rings, etc. This building is always crowded with ladies.

The Woman's building, 150 feet long, 128 feet deep and 90 feet to top of statue on central dome, was designed by a woman and is one of the most beautiful features. It is of classic design, in perfect harmony with the larger structures. The building is arranged for the display of the work of woman, including a library for books written by women, their musical compositions and magazines, and patents and inventions by them. The artistic work of women, paintings in oil, etchings, water colors, architectural designs, sculpture and modeling in clay are all represented. Embroidery and plain and fancy sewing are represented, also ceramics and china painting. The cooking school and kindergarten exhibit is also a notable feature.

In the Transportation building are the exhibits of the several styles of standard bicycles, a fine display of carriages, harness, &c., the sections of the great railway and navigation lines, etc. The government post-office is located in this building, a branch of the Atlanta office, where letters may be mailed, stamps purchased, letters received, &c. This building is 150 feet wide, 450 long and 68 feet high, with two end galleries 48 by 117 feet.

The Electrical building is strikingly interesting in its exhibit of the great electrical inventions of this wonderful age of electrical science. Here are dynamos and motors, great and little, and all the varied appliances connected with the several uses to which electricity is applied. This building is 262 feet long, 85 feet wide and 109 feet to center of dome.

The Negro building is 276 feet long, 112 feet wide and 70 feet high, and is a handsome structure. Every visitor will be interested in the exhibits shown in this department, as evidences of the growing skill, advancing

intelligence and promotive industry of the colored race. The attendants are all colored men and women. The exhibits are numerous and handsome, and there is an attractive neatness here that is very commendable.

The Fire building is 205 feet long, 50 feet broad and two stories high. This structure is quite handsome, and thoroughly supplied with the best apparatus that has been devised up to date. The Auditorium building is directly in front of the main entrance, is 200 feet long, 135 feet deep and four stories high; is in amphitheatre style and seats over 3,000. It has a large music dias and the acoustics are most excellent. The concert entertainments, afternoon and evening, are given in the building by the Exposition Orchestra. It was our pleasure while there to hear the great Sousa Band. The police headquarters are also in this building.

In addition to the above buildings there are a number of State buildings, and other structures of interest.

On Midway nearly every nation of people in the world can be seen. The side-shows and other attractions are numerous and amusing. The buildings here are also large and attractive.

The Exposition not only represents Southern enterprise and development, but it is international in its name implies.

The accommodations at the Exposition are ample, convenient and cheap. The Southern Railway runs trains from the city to the grounds and returns every seven minutes during the day at ten cents each way. The street railway also runs cars to and from the city at five cents.

Very fair board and lodging can be obtained in Atlanta at from \$1.00 or \$2.00 per day. The people are exceedingly kind and attentive and are doing all in their power to make it pleasant for those who attend the Exposition.

Atlanta is a hustling city. There is more activity and push in Atlanta than in any other Southern city. It is second in size of all Southern cities—New Orleans being the largest. There are over 110,000 inhabitants by actual count. The population has more than doubled during the last ten years. The town is just sixty years old. Fifty years ago there was only one street (Whitehall, the leading business street in the city now) and a few country stores. Thirty years ago Atlanta was in ashes. For rapid development it now leads all the cities of the South. It is also a great railroad centre. As a place of residence it is very fine; in fact, we have never seen a more beautiful town anywhere.

The situation is high, dry and healthful, and the climate salubrious.

Our trip to Atlanta and the Exposition was exceedingly pleasant, and we advise all those who can, to go and see the South's greatest achievement.

While in Atlanta Stop at the Osburn House, 102 South Forsythe Street. (In The Heart of the City.) Good Board. Splendid Rooms. Attentive Servants. Rates \$1.50 per day.

Over Thirty Years Without Sickness.

Mr. H. WETSTEIN, a well-known, enterprising citizen of Byron, Ill., writes: "Before I paid much attention to regulating the bowels, I hardly knew a well day; but since I learned the evil results of constipation, and the efficacy of AYER'S

Pills, I have not had one day's sickness for over thirty years — not one attack that did not readily yield to this remedy. My wife had been, previous to our marriage, an invalid for years. She had a prejudice against cathartics, but as soon as she began to use Ayer's Pills her health was restored."

AYER'S Cathartic Pills

Medal and Diploma at World's Fair. To Restore Strength, take Ayer's Sarsaparilla.

Sold by Walter I. Leary.

WALTER I. LEARY, Sole Agent, LEXINGTON, KY.

CASTORIA

for Infants and Children. MOTHERS, Do You Know that Patent Bateman's Drops, Godfrey's Cordial, many so-called Soothing Syrups, and most remedies for children are composed of opium or morphine?

Do You Know that opium and morphine are stupefying narcotic poisons? Do You Know that in most countries druggists are not permitted to sell medicines without labeling them poisons? Do You Know that you should not permit any medicine to be given your child unless you or your physician know of what it is composed?

Do You Know that Castoria is a purely vegetable preparation, and that all its ingredients is published with every bottle? Do You Know that Castoria is the prescription of the famous Dr. Samuel P. Taylor. That it has been in use for nearly thirty years, and that more Castoria is now sold than of all other remedies for children combined?

Do You Know that the Patent Office Department of the United States and of other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the name "Castoria" and its formula, and that to imitate them is a state prison offense? Do You Know that one of the reasons for granting this government protection was because Castoria had been proven to be absolutely harmless?

Do You Know that 35 average doses of Castoria are furnished for 25 cents, or one cent a dose? Do You Know that when possessed of this perfect preparation, your child will be kept well, and that you may have unbroken rest? Well, these things are worth knowing. They're facts.

The fac-simile signature of Dr. H. Pitcher is on every wrapper.

Children Cry for Pitcher's Castoria.

The Two Johns, BOND & JONES

The only strictly Hardware dealers in EDENTON.

BARGAINS. BARGAINS! In STOVES and RANGES.

Wilson's improved air-tight wood heater at \$7.00. In Guns—Large assortment: Breach Loading Guns \$8.00 up. Muzzle Loading Guns \$4.50 up. Hunting Coats and Leggings very cheap. Loaded and Empty Shells, Ammunition.

FULL STOCK OF HARDWARE.

Saddles, Bridles, Whips, &c. White Leads, Paints, Oils, Putty, Oil stains and Varnishes. Celebrated Chinese Bristle Brushes, &c., &c. Harness Oil, and Axle Grease. While in town give us a call.

The First Wealth Is Health.

You may not have thought of Seeds in this connection, but all seeds have some sort of health, just as people have. If less they are dead and this condition is what determines their usefulness. There are weakly, diseased seeds which lack vitality enough to respond to cultivation, seeds whose impurities are only the more developed by opportunity into proper growth, and still another class—vigorous, well-developed, healthy—the kind of seeds we have been growing for the last twenty-five years; when you buy them, you know you are getting to get, and every dollar spent upon them in cultivation is simply well-invested, for you get it back manifold in the harvest.

Seeds. Seeds.

it's the same with all; you can't afford to use any except the best seeds which are not the best are not good enough for any use. If you realize this, write us for a copy of "The Seed Catalogue" and see how easy we make it for you to get the best and get it at fair prices from the growers.

Geo. Tait & Son, Seed Growers.

Albemarle Cash Store.

Has removed from King St., to the Hettrick building of the city.

Call and see the magnificent stock of Dry Goods, Dress Goods and Trimmings, &c., now being received daily.

NEW STYLES LOW PRICES

The Millinery Department is complete and the styles are all new, beautiful and attractive.

Our Milliner has Arrived.

Come and place your orders in time to avoid the rush. L. L. MOORE, Manager.
