ELIZABETH CITY, April 17th 1896.

Ex-President Harrison's marriage to Mrs. Dimmick is prominent because of the fact that the bride is very anxious to be mistress of the White House.

The new woman is said to have enlisted in the Cuban insurgent army, where she appears as a company of infantry, twenty strong. Certainly, her place is with the infantry, if anywhere.

Chauncey Depew says it will be the field against McKinley at St. Louis, and that the field will probably will. Certainly the McKinleyites are not now so sure of getting the Ohio man nominated.

In the River and Harbor bill, under the regime of Butler and Pritchard, as Senators, North Carolina gets this time only \$125,000, whereas under Ransom and Vance, North Carolina was down for about \$275,000.

Watermen and commercial men, look on this picture and then on that.
 The Wilmington Star says that Russell claims 30 out of the 36 delegates to the Mecklenburg Republican county convention. A News and Observer special from Charlotte indicates that Dockery carried the county. The Russell returning board's agents are claiming everything, don't you know.

The Tobacco Edition of the Raleigh News & Observer was one of the finest and largest editions ever issued by a Southern newspaper. It contained forty pages of interesting and valuable matter and a large number of illustrations, giving a full account of North Carolina's tobacco industry. Editor Daniels will please accept the congratulations of the FISHERMAN & FARMER.

The funniest thing about the Republican party is that while they are extremely anxious to fuse with the Populists, they would "see 'em damned first" if they thought they could carry the State without the votes of that party. Another peculiar feature about fusion is the fact that only a few Populists realize this and haven't got backbone enough to return to their first love or drive their own dray.

The doubtful States this year are all in the list of those which have heretofore helped to constitute the "solid South," the main reliance of the Democratic party. Although our own beloved State broke over at the last election, the Populist who aided in making the Douglass legislature are now too thoroughly disgusted with the acts of that body to again allow themselves to be fooled by scheming Republicans.

Everything about Lincoln is interesting. He is one of the greatest characters in history. Coming from an humbler home and mere unpropitious surroundings than any other of the world's greatest men, there is an element of interest in his life that is wanting in most biography. McClure's Magazine, the best of all the newer magazines, has been publishing a series of articles upon the life of Lincoln that gives an insight into his early boyhood and youth that is more interesting than any novel. These articles which were profusely illustrated have been bound in a neat volume, and though an edition of 50,000 was issued less than a month ago, a second edition is now called for. "Early Life of Lincoln" is the title.

The awful responsibility involved in the practice of medicine has just received unusual and living demonstration in Pennsylvania. The scene is laid in a small town in the coal regions, and the facts in brief are that a physician was called to attend a mother and a daughter simultaneously; that they occupied the same room; that the result—or results—of the visit was—or were—a fine girl and an equally fine boy; that the physician after placing the pair in a convenient cradle, proceeded to forget which belonged to who, and in consequence chaos has been precipitated in a hitherto orderly household.

It is gratifying to be able to record that the physician was permitted to escape with his life and that the difficulty was at length amicably arranged by the elder lady voluntarily surrendering the boy to her daughter, and retaining the girl as her own without reference to the fact of actual ownership. But this settles nothing beyond the peace of mind of the two ladies concerned. It is an injustice to the infants thus to be metaphorically shaken up in a dice box while powerless to protest. It is a blow at the spirit of the time, inasmuch as the concession of the elder lady centers upon the boy a superior value. It cannot relieve the physician of the haunting consciousness that he may not only be responsible for making one woman the mother of her grandchild and another the mother of her own brother, but he may in addition have caused one child to become the aunt of its own uncle and another the nephew of its own niece.

Nor does the outrage stop here. It is possible, if the children have been mixed, that the boy will at some time become the father of his own grand nephew or grand niece, thus making the younger lady the grandmother of her own nephew or niece. If the girl baby marries and becomes a mother, the elder lady may become the grandmother of her great-grand child. The possible relationship of these babies of the future we will not attempt to follow. Our object is not to furnish a puzzle for long summer evenings, but to emphasize the responsibility attending the profession of medicine. If the doctor in question does not take to drink and become a mental wreck on mature contemplation of the mischief he wrought it will be a wonder. His anxiety for the comfort of the two ladies doubtless caused him to forget the children, but even this cannot relieve his worry of mind.

A Suggestion.
 If the merchants of Elizabeth City desire a booming big trade and properly celebrate the glorious Fourth, they must begin now to agitate the matter and make preparations. For the past few years this most important of all the national holidays has gone by without notice in Elizabeth City. Do not let this be the case this year. A barbecue would cost comparatively little—if all would contribute—and would induce several thousand people to come, all of whom would have "money to burn." Prof. Hinton could possibly be induced to make an address and J. Heywood Sawyer, Esq., would probably read the Declaration of Independence. The Naval Reserves would parade and fire a salute with their Howitzers, and perhaps the Fire Department and some of the lodges would take part to make the day interesting. The FISHERMAN & FARMER will do its share towards advertising the affair and manage the display of fire works at night. Who will take hold of this idea and push the matter along? It can be done and ought to be done; besides it will pay.

H. H. Holmes, the heartless wretch who will be hung in Philadelphia on the 7th of May, has made a full confession of his many heinous crimes, and thereby started even the court in which he was tried for his life and found guilty. His criminal career dates back as far as 1875, and in all his victims number twenty-seven, some of whom were murdered in the most unthought-of and cruel manner. The case has excited interest equaled only perhaps by the San Francisco church tower murder, and the confession of Holmes is quite a relief.

DEMOCRATIC CONVENTION.

Of this State Will Meet in Raleigh June 25th.

The Democratic campaign in North Carolina may now be said to be opened. The State Executive committee in session at Raleigh on the 9th appointed the date and place of the convention, changed the plan of organization so as to allow the minority a representative in all meetings, and transacted other business pertaining to the conduct of the campaign.

The State convention was called to meet in Raleigh June 25th. It will nominate candidates for Governor and other officers and presidential delegates at large. It will also elect a State Executive Committee, elect delegates to the National Democratic convention and transact other business coming properly before the meeting.

The committee changed the party's plan on organization so that minority representation will be given in all conventions, beginning in the township. This is an innovation which the last State convention directed the committee to make. The committee also made the precinct the unit of organization, instead of the township.

It is said that some of the extreme free silver men held a secret conference for the purpose of seeing what could be done to induce the Populists to co-operate but it was a failure.

The Press Visitor published a list of those present who are known as "sound money" men members of the committee. There were seventeen in the list out of 57.

A large majority of the committee are declared to be in favor of the free coinage of silver and the News & Observer says the sentiment seems to argue the adoption of a ringing free silver plank in the platform to be adopted by the State Convention.

The meeting was harmonious and the discussions profitable and the committee adjourned with the best of feeling existing among the members, and the general purpose seems to be for Democratic unity and Democratic success in the coming campaign.

The discussion of all questions in the meeting of the committee was full and free and the members expressed their opinions as to the situation at length. There was no time to debate and the meeting lasted until three o'clock in the morning.

Over Thirty Years Without Sickness.
 Mr. H. WETSTEIN, a well-known enterprising citizen of Byron, Ill., writes: "Before I paid much attention to regulating the bowels, I hardly knew a well day; but since I learned the evil results of constipation, and the efficacy of
AYER'S
 Pills, I have not had one day's sickness for over thirty years—not one attack that did not readily yield to this remedy. My wife had been, previous to our marriage, an invalid for years. She had a prejudice against cathartics, but as soon as she began to use Ayer's Pills her health was restored."

Cripple

The iron grasp of serofula has no mercy upon its victims. This demon of the blood is often not satisfied with causing dreadful sores, but racks the body with the pains of rheumatism until Hood's Sarsaparilla cures.

Made Well
 Running sores broke out on my thighs. Pieces of bone came out, and an operation was contemplated. I had rheumatism in my legs, drawn up out of shape. I lost appetite, could not sleep. I was a perfect wreck. I continued to grow worse and finally gave up the doctor's treatment to
Hood's Sarsaparilla. Soon appetite came back; the sores commenced to heal. My limbs straightened out and I threw away my crutches. I am now stout and hearty and am farming, whereas four years ago I was a cripple. I gladly recommend Hood's Sarsaparilla. URBAN HAMMOND, Table Grove, Illinois.
