DOUBLE HANGING AT NORFOLK.

CHAS. WILLIAMS AND WM.
DOWNING PAY THE PEN-
ALTY FOR THEIR CRIME.

EOTH FOR MURDER.

The Second Double Hang-
ing in the city of
Norfolk.

Chas. Williams, the murderer
of George Bess, and William
Downing, the murderer of
Emma Lane, both crimes being
the most cold blooded in the
history of Norfolk, were hanged
in the jail yard of that city at
8:18 Tuesday morning.

The march to the scaffold
began at 3:03. The condemned
men, escorted by the officers
and their spiritual advisers,
showed no sign of weakness.
Williams seemed the most af-
fected and his eyes glittered
with an unnatural light, but the
tread of both men was firm and
they were apparently not as
much affected as some who stood
by. The men reached the top
of the scaffold at 8:14 o'clock.

They were seated. Downing
on the first trap and Williams
on the second. Sergeant Lawler
asked them in turn if they had
anything to say. The answers
were inaudible. Downing said:
"Mr. Lawler, let me pray," and
the opportunity was given him.
Williams answer was: "I have
nothing to say now. Ask all
my friends to pray for me."

The black cap was adjusted at
8:16 precisely. Sergeant
Lawler adjusted the noose around
Williams' neck. Constable Jack-
son, of Portsmouth, did the same
duty for Downing. The space
between the final adjustment of
Williams' noose and the moment
that Sergeant Lawler sprung
the trap was almost infinitesimal.

The drop fell at 8:18. The
two bodies shot through the
trap as quick as a flash. Down-
ing's body quivered from head
to foot like an aspen leaf. Wil-
liams' writhed convulsively. He
died harder than Downing.

Just eight minutes after the
drop fell Dr. Baker, the physi-
cian to the jail, felt the pulseless
wrist of the inanimate and mo-
tionless bodies, and pronounced
both men dead.

Don't worry. Don't run in debt.
Don't trifle with your health. Don't
try experiments with medicines. Don't
waste time and money on worthless
compounds. Don't be persuaded to
take a substitute for Ayer's Sarsaparilla
it is the best of blood purifiers.

ABOUT COTTON.

It is interesting to read the re-
port of the special agent of the
Agricultural Department on the
cotton crop, and the consumption
of the staple in 1895 by the south-
ern States. According to the re-
port the crop was 7,161,094, the
value of which was \$23,358,856,
and the average area required for
the production of one bale was
2.82 acres were required, and in
some others over four acres were
necessary to produce one bale.

The number of bales consumed
by Southern cotton mills during
the year was 875,835. North and
South Carolina and Georgia be-
ing the chief consumers. South
Carolina seems to have used the
greater number of bales during
the year than any other Southern
State, the number being 257,700.

The report also shows that
Texas raised more cotton than
any other State. That crop be-
ing 1,995,337 bales Georgia and
Mississippi produced over a
million of bales each, while
South Carolina made 764,700
bales and Alabama 683,916 bales.
These figures both as to con-
sumption and amount of crop
produced were collected with the
greatest care and are absolutely
correct.—Virginia.

The Washington Star says
that the report that the story of
Maceo's death was circulated by
the Cubans themselves in order
to facilitate their leader's escape
is calculated to arouse in Gen-
eral Weyler's mind the suspicion
that he is not the only Munch-
ausen on the island.

PENNY FROM A BABY'S THROAT

THE X-RAYS USED SUCCESSFULLY
IN A SURGICAL OPERATION.

A pioneer Roentgen ray sur-
gical operation was performed by
Dr. F. W. Zimmer, of Roches-
ter, N. Y., Dec. 27th.

A child 22 months old swallow-
ed a penny sixteen days ago. A
radiograph was taken a week ago
and the coin, approximately lo-
cated on the oesophagus. A pro-
longed attempt was then made
by ordinary means to extract
the coin, but without success.
It was finally determined to use
the fluoroscope during the opera-
tion, the observer directing the
movements from his observation
of the coin as it appeared of the
fluoroscope screen.

Thin boards were placed ac-
ross two boxes and the patient
was placed under the Crookes
tube. The observer placed him-
self beneath, and with the use of
the new metallic screen of inch
mesh definitely located the coin.
The tube was then placed under
the patient and Dr. Zimmer
proceeded to grasp the coin under
the direction of the observ-
er.

The attempt was highly suc-
cessful, the coin being safely re-
moved after slipping once or
twice from the forceps. The
patient was placed under ether,
and the observer saw every move-
ment of the forceps. The child
is now out of danger.

White House Etiquette.

HOW THE OUTGOING HONORS THE
INCOMING PRESIDENT.

The etiquette between the out-
going and incoming President,
says the *Illustrated American*, is
exact and rigid. Mr. McKin-
ley will go to the White House
and drive to the Capitol, simply
a citizen, sitting by the side of
President Cleveland. On the
way to the Capitol the President
lifts his hat to the cheering
crowds occasionally, although
the new man does most of the
bowing. But coming back he
keeps his hat on, having then
exchanged places with the sim-
ple citizen who drove down sit-
ting on his right and President
of the United States. On the
return to the White House a
luncheon is given by the out-
going at which the first named is
host and the guests are the mem-
bers of the two Cabinets and their
families. When this is over the
outgoing President takes his
leave, the incoming President es-
corting him to the door of the
mansion. But this may not be
the last time he enters it. On
every occasion that an ex Pres-
ident visits Washington his first
obligation is a call at the White
House. He is immediately re-
ceived, no matter how much en-
gaged the President may be.
The head usher acts as his escort,
and he is paid more personal
attention than any guest who
ever enters the house.

Human Nature is Every Way.
From Council Bluffs, Iowa,
comes a story that illustrates
several phases of human nature.
In that city, the other day, a man
who is very poor and who is
likely to remain so, owing to
the fact that an accident has de-
prived him of both of his arms,
found a large roll of greenbacks.
The money lay in the gutter,
and the finder could almost hear
it beg him to pick it up. This,
on the account of his misfort-
une, he could not do, so he quietly
kicked the treasure into shadow
of a building and tried to think
out a safe method of transferring
it to his lamentable empty pocket.
Possibly a deduction as to
Western views regarding prop-
erty rights might be drawn by
a cynic from the circumstance
that the man does not seem to
have thought of returning the
money to its owner, through the
police or otherwise, while he
declared afterward that he did
not ask the assistance of any one
of several persons who passed by
for fear lest the stranger should
rescue the money for himself
and not for the helpless discover-
er. At last a small bootblack
sauntered by, and the man con-
cluded to take chances. With a
fine pretense of having just
dropped the bills, the man gruffly
ordered the youngster to assist him.
The boy comprehended the situ-
ation at a glance, seized the lit-
tle fortune, took to his heels, and,
easily distancing his angry pur-
suer, vanished permanently from
the scene.—Ex.

A special from Havana, Jan.
1st, to the *Imparcial* says that
fifty-one men, comprising the
filibustering expedition recently
landed upon a desert key by the
steamer Three Friends, have
been drowned. The men were
hastily put ashore on a barren
island after the Three Friends
had been pursued by Spanish
gunboats, with which the filibus-
tering steamer had an exchange
of shots, and the cargo of arms
and ammunition, provisions, &c.,
on board the steamer, was also
landed with the men. The
Three Friends, being closely pur-
sued by Spanish war vessels, was
compelled to put the men ashore
on this barren island, or take
them back to the United States,
and it was in making the at-
tempt to leave the island, the
dispatch says, that they were
drowned. The dispatch also
says 360 rifles, which the filibus-
ters had with them, were lost
in the sea.

50 lbs. of Coal

A day would keep your rooms
warm in winter. But that small
stove will burn only
twenty-five. Hence, discomfort
and misery.
A certain amount of fat,
burned daily, would keep your
body warm and healthy. But
your digestion is bad, and you
don't get it from ordinary fat-
food. Hence you are chilly,
you catch cold easily, you have
coughs and shivers; while
pneumonia, bronchitis, or con-
sumption finds you with no re-
sistive power.
Do this. Burn better fuel.
Use SCOTT'S EMULSION
of Cod-liver Oil. Appetite and
digestive power will revive;
and soon a warm coating of
good flesh will protect the vital
organs against the cold and the
body against disease.
Two sizes, 50 cts. and \$1.00
Book free for the asking.
SCOTT & BOWNE, New York.

SWEEP BY FIRE.

Nashville, Tenn., Visited by
Disastrous Flames.

LOSS 1,000,000 DOLLARS

TERRIFIC WIND FANNED THE FLAMES
INTO A FURY, DESTROYING MANY
BUILDINGS.

Fire broke out at 11 o'clock
Saturday night at Nashville,
Tenn., and at 2 o'clock Sunday
morning Lebeck Bros. whole-
sale and retail dry goods, Grimes,
Daily and Robinson, dry goods
dealers, and the public market,
having an area of a block and a
half, were totally destroyed.

The fire is undoubtedly the
most disastrous in the city's his-
tory and the loss will reach into
the millions.

The fire originated in the
second story of Lebeck Bros. and
spread westward.

Soon after the fire began a
terrific wind arose from the
southwest, which fanned the
flames into a fury. The City
Hall and markethouse, which is
located opposite the ruined build-
ings, caught from sparks and
was very seriously damaged.

Burns & Co., harness man-
ufacturers, on Market street, in
rear of Lebeck Bros., caught and
was totally ruined. The total
loss is estimated at \$1,000,000.

FITZSIMMONS SIGNS

TO FIGHT JIM CORBETT ON THE
17TH OF MARCH.

Bob Fitzsimmons is matched
to fight Jim Corbett for a purse
of \$15,000 and a side bet of \$5,
000 on March 17th. Fitzsim-
mons signed the articles Monday
afternoon at Taylor's hotel, Jer-
sey City. Corbett signed them
three weeks ago. Dan Stuart,
of Dallas, Texas, who made the
match and claims to be able to
pull it off, was present.

There are two reasonable things
which everybody should do: take good care
of one's health, and if lost, regain it quick-
ly, and to this everybody will agree.
And there are a great multitude of peo-
ple who are agreed that for both pur-
poses Simmons' Liver Regulator is the
best helper. "I am troubled with tor-
pid liver and nothing gives relief ex-
cept quick like Simmons' Liver Regulator,"
—R. K. Strange, Lake City, Fla.

A Deadly Duel.

A special from Sumter, S. C.,
says: "Thomas Rhame and
Ralph Deschamps, of Panola,
met at the house of H. D. Rhame
Sunday night and became in-
volved in a personal difficulty,
and Rhame drew a revolver and
began shooting at Deschamps,
who drew his revolver and re-
turned the fire. Rhame was
mortally wounded and died.
Ralph Deschamps fled im-
mediately and left his horse and
buggy and has not been heard
from since. It is believed that
he was seriously injured and has
since died.

A Handsome Present.

Mr. R. P. Schilling, the
foreman of the Norfolk and
Southern railroad, on returning
to Berkeley, was the recipient of
a very handsome lamp and easy
chair, donated by the employes
as a token of their high esteem
for him. Engineer W. A.
Ellington made the presentation
speech in his cordial humorous
way. Mr. Schilling responded
in a few well chosen words to
set the occasion, and after thank-
ing the donors for their unbound-
ed generosity towards him he
concluded by wishing them all
the compliments of the season.—
Virginia.

\$100 Reward \$100.

The readers of this paper will be
pleased to learn that there is at least
one dreaded disease that science has
been able to cure in all its stages, and
that is Catarrh. Halls Catarrh Cure
is the only positive cure known to the
medical profession. Catarrh being a
constitutional disease, requires a con-
stitutional treatment. Halls Catarrh
Cure is taken internally, acting direct-
ly upon the blood and mucous surfaces
of the system, thereby destroying the
foundation of the disease, and giving
the patient strength by building up the
constitution and assisting nature in
doing its work. The proprietors have
so much faith in its curative powers
that they offer One Hundred Dollars
for any case that it fails to cure. Send
for list of testimonials.

A FIRE FIEND AT WORK.

TWO STORES BURNED
AT WILLIAMSTON.

FLAMES SPREAD FAST.

The fire the Work of an
Incendiary.

The fire fiend again visited the
little town of Williamston, N. C.,
Tuesday morning. The fire was
in the brick block of two stores
owned by J. R. Mobley, and oc-
cupied by A. J. Mizel, groceries
and a bar, and F. K. Hodges, toy
store with oyster saloon in rear.
The fire originated in the Mizel
store and is supposed to be of an
incendiary origin. The flames
spread rapidly to the other store,
entirely consuming both. The
building was situated in the heart
of the business portion of the
town, and it seemed almost
impossible to save the remain-
der, but by the heroic efforts of
the citizens the fire was gotten
under control and confined to the
two buildings named. The loss
is as follows: J. R. Mobley, two
stores \$3,000, fully covered by
insurance; A. J. Mizel, stock \$2,
000, insurance \$1,000; F. K.
Hodges and H. Cowan, loss \$150,
no insurance.

MURDERED BY A SERGEANT

INDIGNATION OVER THE KILLING OF A
CITIZEN OF SHENANDOAH, VA.

A Woodstock (Va.) special to
the Richmond Dispatch says:
On Wednesday of last week John
M. Sibert, a constable living at
New Market, in this county, hav-
ing a claim against a man by the
name of Bowers, living near Ork-
ney Springs, took C. G. Rice,
Town Sergeant of that place, to
assist him in making the claim.
They went to the home of Bow-
ers, who went with them to a
neighbor to settle.

Arriving at the neighbor's
home and not finding him, Bow-
ers turned to go home. Sibert
ordered him to stop, and upon
Bowers, refusing to do so, order-
ed Rice to shoot him, which Rice
did. Warrants were issued for
the arrest of Sibert and Rice for
attempt at murder.

Rice fled, but was captured at
Staunton, and Sibert has been
placed under bond to await de-
velopments. Yesterday Bowers
died in great agony, and Com-
monwealth Attorney Baker has
ordered an autopsy. Consider-
able indignation is expressed in
the vicinity of the tragedy.
Bowers was a man of family and
about 50 years of age.

THE COMMODORE SINKS.

Goes Down While Bound to the
Rescue of Shipwrecked
Filibusterers.

Three Friends' Crew Taken Off.

RESCUED BY THE DAUNTLESS.
THE MEN WERE IN A TERRI-
BLE CONDITION FROM
EXPOSURE.

A special from Jacksonville,
Fla., dated Jan. 2nd, says:
The steamer Commodore sank
in twenty fathoms of water 20
miles northeast of Mosquito inlet
at 5 o'clock this morning. All
the men on board were saved
and twelve of them reached Jack-
sonville to-night.
The story of the accident as
told by one of the men is as fol-
lows: The steamer crossed the
St. John's bar at 2 o'clock Fri-
day afternoon, and at midnight
was 100 miles down the coast.
One of the men went into the
hold for something and found it
half filled with water. Great ex-
citement prevailed but the
pumps were started and every
one on board put to work bail-
ing. The water gained steadily and at
3 o'clock the steamer was de-
serted. R. A. Delgado taking
command of one boat with eleven
men in it, and Captain Murphy
commanding the other. The
boat is said to have been over-
loaded with coal when it left
here and it is when she ground-
ed on Commodore's point, in go-
ing down the St. John's. Ste-
phen Crane, the novelist, was on
board and was in Captain Mur-
phy's boat.

The Cubans here are disheart-
ened over the accident, especially
as the Commodore was expected
to carry the men left by the
Three Friends on No Name key.
W. A. Bisbee, owner of the
Dauntless, received the follow-
ing from that key to-day: "The
Dauntless rescued a large body
of men and a cargo from No
Name key. Many of the men
were in a helpless condition.
The Dauntless will wait and
meet the Commodore and de-
liver the men and cargo to her.
Will report as per signal seen at
Miami and will return as soon as
we meet the Commodore, probab-
ly Friday."

This confirms the reports re-
ceived from Key West Friday
night stating that the Dauntless
was anchored off No Name key
Friday afternoon taking out
men and cargo.

The Cubans here are very
much concerned over the report
that many of the men are in a
helpless condition. It is not be-
lieved that any of them were
wounded when fired upon by
the Spanish patrol boat off the
Cuban coast, but that their con-
dition is the result of exposure
on No Name key. The key is a
deserted island, and the men
have had no protection from the
weather for the past ten days.
It is believed that those who are
two weak to be taken on the
Commodore will be brought to
this port on the Dauntless.

New Republican Daily.

The Tribune, the new Repub-
lican daily newspaper, to be
published at Raleigh will make
its first appearance next Sunday.
W. W. Haywood will be the
editor; and C. M. Kenyon,
business manager.

The Dolphin off for Florida.

The United States dispatch
boat Dolphin left Washington
Sunday for Jacksonville, Fla.,
under orders to assist in enforce-
ing the neutrality laws. She is
expected to make no stops en
route, and should have reached
her destination Wednesday.

This paper for \$1.00 a year.
