ELIZABETH CITY, November 19, 1907

"To see our French selves as others see us," is an oft quoted but seldom-meant wish. If realized, we declare the mirror warped, or that it is not our true selves we see.

The usual proclamations naming many causes for rejoicing, have been issued by the President and the Governor, setting aside November 25th as a day of thanksgiving.

It should be, and justly is, a matter of great pride among us Southern women, the noblest in creation, have never so far forgotten their womanhood as to unsex themselves for "charity," or lesser cause than necessity.

mands such degradation makes the very name odious and befouls womanhood. Two thousand women have called on murderer Lueltger in his Chicago cell, twelve hundred have written him letters, while thirty eight ladies wish to marry him.

A DELIGHTFUL OCCASION. IN CAMDEN COUNTY.

The party which Miss Bessie Ferebee gave her friends on Saturday evening, Nov. 6, was in every way a most enjoyable affair. The weather was delightful, and for those having to drive some distance, it could not have been more so.

The young men present were Dr. Cowell, Messrs. Doc Cowell, Chas Morgan and Master Hal Shaw, of Shawboro; Dr. Sawyer and Mr. V. Ingate Boushall, of Camden; Messrs. J. J. Keilly and C. C. Upton, of Wallace; Mr. Jordan, of Corland, and Messrs. Neil, Calvert and John Ferebee, brothers of the hostess.

"A GOOD TIME." In glory Camden's moon was shining, O'er a scene so gay and bright, For the thoughts were all of pleasure, In Miss Bessie's home that night.

Among the various types of beauty, Coy and winning none the less, Always smiling, always gracious, Came the sweet young hostess, "Bess" As we name them, not too fancy.

Our citizens, particularly the gunners, have been much interested in the suit now pending between Mr. Jno. D. Doxey, of Poplar Branch, and several of the guards employed by the Currituck Club.

According to John's story, he was some distance from the club's marsh and the guards came and laid their boats along side with sails hoisted, thus driving off his ducks.

He had them indicted for spoiling his day's work. What the outcome will be is very doubtful, as the club will no doubt stick to their guards and carry the case to the Superior Court.

A very enjoyable and exciting deer drive took place here on Saturday last, Messrs. J. E. C. Bell and R. E. Flora, of Shawboro, and several local gunners participating. The dogs used were Mr. Flora's well-known pack, the finest in the county, if not in the State.

Several deer were jumped, but only one killed, and that after a long run, during which both dogs and buck swam the canal. Such of our citizens as were on the bridge saw the chase. It is to be hoped that both gentlemen will come again soon, as we seldom have the pleasure of listening to a well-broken pack of dogs in full cry.

Most people have read or heard of Prof. Boone, who recently entertained the Norfolk public with an exhibition of his hypnotic powers and examples of mind reading. While it is not generally known, there is a colored man (Lewis Simmons by name) in the employ of Mr. T. P. Hall, of this city, whose exploits in the same direction, fairly rival those of the professor.

Lewis can look at a drummer and tell at a glance whether he is good for a nickel or a quarter tip. No chicken ever roasted too high for Lewis to charm him from his perch, and he can look at a hog and tell at once whether he needs corn or honey. With all this knowledge, however, he makes no charge whatever to any hypnotic power though it is rumored that he will soon go on the stage with a choice collection of trained animals.
