EX-AUDITOR SENTENCED

Dramatic Scene Before a Nebraska Judge.

Ex-State Auditor Eugene Moore, of Lincoln, Neb., has been found guilty of embezzel ing \$20,000 of State funds and sentenced to eight years in the State penitentiary. Sixty quarts of uitro-glyceorine were hauled there for the purpose of shooting a gas well. The explosive was placed in a large zinc tub, located at the end of the steam exhaust pipe, for the purpose of thawing out the mixture. It is the theory that the tub became overheated, causing an explosion with disastrous results. A hole ten feet long and several feet deep was torn in the earth. The engine was blown to pieces.

> Drillers Haney and McGuire had a remarkable escape. They were standing within thirty feet of the scene of the accident, and were hurled twenty feet by the force of the explosion, but with the exception of a few bruises they escaped unhurt.

> Persons one mile away were lifted from their feet from the concussion and the jar was felt for ten miles. Fire followed the explosion, but the flames were quickly extinguished.
