ELIZABETH CITY, Jan. 21, 1895

The beginning of the end is come. Cuban affairs have reached a crisis.

The thousands of wretches starving almost at the front gate, touched the heart of humanity as nothing has ever done before, and a mighty cry of indignation and pity has swept up from all quarters of our land.

Even the marble heart of the government has been touched, and Uncle Sam is accustoming himself to the unfamiliar duties of charity.

Diplomatic relations have been none too friendly during the past few weeks, tho the State Department continues to affirm that everything is all right.

Every day's dispatches from Madrid confirm the report that the Ministry is greatly worried by "disquieting news."

The most powerful fleet of war vessels ever gathered under the American flag, is now off the coast of Florida, ready to steam to Cuba at a moment's notice.

In face of these facts the protestations of amity fool no one. Whether the end is at hand or not will be seen, and that soon.

Mr. McKinley holds the commanding trump: the only uncertainty is when he will show his hand.

The encliridion just issued by Justice Walter Clark, of the Supreme Court, so lately a prominent candidate for Vice-President and Carolina's unanimous choice for Governor, shows the logical presentation, pure diction, and clear thought that would be expected from so eminent a scholar and jurist.

The number of subjects treated declares the breadth of his intellect; their terrible earnestness its depth. Since Mr. Clark was appointed and then elected Judge of the Superior Court, he has been prominent in the eyes not only of Carolinians, but also of the reading public.

In the Arena, Green Bag, and other serious journals, he has presented almost unanswerable arguments for his hobbies—Free Coinage, Government Control of the Telegraph and Telephone, and Regulation of Railroad Rates.

This pamphlet, which he publishes for twenty-five cents, is a compilation of "Addresses and Articles," containing the cream of his work during the late years.

It is our misfortune that we are not in Raleigh just now, where they are having an old time circus, sure enough.

Governor Russell is ring-master and creates interest enough for a camp-meeting with his widely advertised domesticated puppets, Pearson and Caldwell.

These two rare specimens are kept caged and guarded (no jest) in the Railroad Commissioner's office but a free exhibition is given each day.

Judge Simonton and the Southern Railroad are the star actors; but the show proper is given by the clowns and buffoons, each in his specialty—Otho Wilson, of Gideon Band fame, with his Hofseeder; Rev. (?) Babb, the thrice-bounced; John Moses Smith, the Meek and Dr. Pugnacious Burns.

The exhibition is all might; funny to the spectators, but His Nibs makes it a serious business to the actors. It we
