THE YOUTSEY TRIAL.

THE KENTUCKY COURT. The Prisoner Becomes Hysterical and Loses Control of Himself He Denounced Arthur Goebel, Brother of the Murdered Governor, as a Liar Youtsey Believed to be De-

Meanwhile the audience could not be forced to keep their seats until the Judge threatened to fine those who stood up. Loutsey settled back in his chair, closed his eyes and seemed in a state of collapse. He waved his handkerchief above his head in an aimless sort of way and

groaned and cried hysterically. Finally quiet was restored and Judge Williams asked Arthur Goebel another question, when Colonel Crawford asked a postponement of the trial until tomorrow on account of the defendant's condition. Judge Cantrill said he could not see any cause or reason for the defendant's outbreak, but in justice to his attorneys he would postpone the case until to-morrow. Chief McClaskey Makes a Statement on the Remarkable Turn of Af-

New York, October 9.- A statement made by Captain McCluskey to-day gives a remarkable turn to the \$10,000,-\$00 Rice mystery. Captain McCluskey saw the certified copy of the second will alleged to have been made by William Marsh Rice on June 30th last. According to the terms of this will Albert T. Patrick, the lawyer, is not to receive one dollar for himself. Charles F. Jones, the valet, is not to receive one

All of the relatives of Mr. Rice named as legatees in the first will are to receive larger bequests by the second will than they would have received unler the first will. The William M. Rice Institute, of Houston, Tex., named as residuary legatee in the first will, reselved nothing by the second will. Pattick, by the second will, is named as residuary legatee, it being expressly stipulated in the document that he is to devote the money to the perpetuation of the name of William Marsh Rice by the establishment of a charity, the details of which had been communicated to him verbally and in writing by the testator. By the terms of this second will Captain McCluskey said Mr. Patrick, the lawyer, would come into the control of nine-tenths of the estate of Mr. Rice, which is valued all the way from \$4,000,000 to \$10,000,000.

Captain McCluskey said that the William Marsh Rice Institute, of Houston, has no actual existence. It has no existence, but it has a full board of officers. All the plans of the building and the details of its purposes have been perfected, but it has not got beyond an existence on paper. This institute was to have been es-

tablished on lines somewhat similar to those of Cooper Union and to have been sperated on the same broad plane of philanthropy. Just what precaution the aged millionaire took, if the second will be genuine, to see to it that Patrick faithfully and conscientiously carried out the

tharitable plan is not known. THE BUBONIC PLAGUE. Washington, October 9 .- Surgeon. General Wyman, of the Marine Hosfrom Assistant Surgeon John E. Anderson at Liverpool, saying that there
