"THERE ARE NO TRUSTS."

This is what Mark Hanna says: While the oil trust, steel trust, sugar trust, paper trust, salt trust and numberless other trusts are forcing prices up, declaring fabulous dividends, robbing the people of their hard earnings, this bloated plutocrat coolly makes the above statement. Others have said that there are bad trusts and good trusts. Others have declared that trusts are not such bad things after all. The platforms of the different parties have repeatedly denounced trusts. The various parties have pledged themselves to eradicate trusts. It remained for Mark Hanna to disclose the fact that there are no trusts. According to this oracle the parties have been denouncing a non-entity. The deluded people have been crying out against a thing that does not exist, a chimera of the brain, a wild fantasy of a distorted imagination. Is not this the quintessence of humor, the height of comedy? It is almost enough to make the midriff of a stiffest corp-e shake with laughter. Just think of it! Mark Hanna, the fat, bloated, cold blooded, calculating, unscrupulous Mack—the intimate friend of trusts, the passionate lover of trusts, the fellow who gives trusts a quadrennial hug and lifts his enormous campaign funds from their pockets this Mack, posing as the friend of the masses and endeavoring to quiet their fears by saying "there are no trusts." It is funny too funny. It is absurd. Mack what ailest thou? Thy cause must be growing desperate. Thy former tricks must have lost their charm. The eyes of the people must be opening to thy true character. The fortunes of thy favorite—McKinley—must be dire and calamitous indeed to demand such antics. Mack do by all means give us another revelation before that fateful day in November when your trust-loving and trust-producing Administration shall be hurled from power.

MR. DUKE'S GIFT.

Mr. Washington Duke has given another \$100,000.00 to the Endowment fund of Trinity College, making \$500,000.00 he has given in all. Over a half million of dollars is a vast sum of money for one man to give to an educational institution, and Mr. Duke deserves the gratitude of all people for his liberality.

Glorious News.

Comes from Dr. D. B. Cargile, of Washita, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face, and the best doctors could give no help; but her cure is complete and her health is excellent." This shows what thousands have proved,—that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion builds up the strength. Only 50 cents. Sold by Standard Pharmacy Druggist. Guaranteed.

IN MEMORY.

Jacob Salomonsky departed this life on the morning of the 10th instant in his sixty-first year. He had been in feeble health for sometime and his death was not unexpected. He left a large family and a host of friends to mourn his demise.

For thirty-five years or more he was a familiar figure upon our streets, and in our business and social circles. He was highly esteemed in the community and especially so in the fraternal societies in which he held membership. He was broad and Catholic in his views and possessed a tender, sympathetic heart.

He was generous to a fault. No worthy cause failed to find in him a sturdy and ardent supporter.

In his palmier days when fortune smiled upon him, many a heart was made to rejoice by reason of his kind, unostentatious ministries. Ever jubilant and happy himself he seemed a perfect demonstration of the fact "Mercy is twice blessed: It blesses him that gives, and him that takes."

Our noble Hebrew friend is now gone. But his deeds of kindness, his acts of charity, his many social virtues will long live in the hearts of his sorrowing friends. Thou generous son of Abraham, farewell.

It Happened in a Drug Store.

"One day last winter a lady came to my drug store and asked for a brand of cough medicine that I did not have in stock," says Mr. C. R. Grandin, the popular druggist of Ontario, N. Y. "She was disappointed and wanted to know what cough preparation I could recommend. I said to her that I could freely recommend Chamberlain's Cough Remedy and that she could take a bottle of the remedy and after giving it a fair trial if she did not find it worth the money to bring back the bottle and I would refund the price paid. In the course of a day or two the lady came back in company with a friend in need of a cough medicine and advised her to buy a bottle of Chamberlain's Cough Remedy. I consider that a very good recommendation for the remedy." It is for sale by Dr. J. E. Wood.

DEMOCRATS TO ORGANIZE.

There is danger that our people feel too secure since the great victory of August last. The Electoral vote of this State must not be lost by inactivity. Democratic Congressmen are to be elected and if we do not work hard and continuously, defeat may follow victory. How badly would we feel if in the national election we should have the humiliation of seeing the electoral vote of the State given to McKinley and Roosevelt, or fail to elect our nine Congressmen. In another column we publish a call to the clubs of the State. The necessity of active work is upon us. Let every man feel that in some sort, success or defeat depends upon his personal efforts.

After "taking stock" Ex President Harrison has discovered that he is for McKinley and Roosevelt. This means that the Ex-President has climbed down off the fence—following the lead of Ex-Secretary Carlisle and Andrew Carnegie.

A Life and Death Fight.

Mr. W. A. Hines of Manchester, Ia., writing of his almost miraculous escape from death says: "Exposure after measles induced serious lung trouble which ended in Consumption. I had frequent hemorrhages and coughed night and day. All my doctors said I must soon die. Then I began to use Dr. King's New Discovery for Consumption, which completely cured me. I would not be without it even if it cost \$5.00 a bottle. Hundreds have used it on my recommendation and all say it never fails to cure Throat, Chest and Lung troubles." Regular size 50c and \$1.00. Trial bottles free at Standard Pharmacy.

W. A. Hines, Manchester, Ia. The kind you have always bought. Dr. J. E. Wood.

When you cannot sleep for coughing, it is hardly necessary that any one should tell you that you need a few doses of Chamberlain's Cough Remedy to allay the irritation of the throat, and make sleep possible. It is good. Try it. For sale by Dr. J. E. Wood.

"HESITATORS"

Ex President Cleveland and Ex Speaker of the House Reed are on the top rail of the fence not having declared themselves yet. Drop gentlemen, drop on one side or the other. You must feel lonesome.

"For three days and nights I suffered agony untold from an attack of cholera morbus brought on by eating cucumbers," says M. E. Lowther, clerk of the district court, Centerville, Iowa. "I thought I should surely die, and tried a dozen different medicines but all to no purpose. I sent for a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and three doses relieved me entirely." This remedy is for sale by Dr. J. E. Wood.

Summing up the Result.

If McKinley is elected we shall have to maintain a big standing army and perpetuate the war tax.

If Bryan is elected we shall have Free Silver and have done with Imperialism. Take your choice—but take BRYAN.

You assume no risk when you buy Chamberlain's Colic, Cholera and Diarrhoea Remedy. Dr. W. W. Griggs & Son will refund your money if you are not satisfied after using it. It is everywhere admitted to be the most successful remedy in use for bowel complaints and the only one that never fails. It is pleasant, safe and reliable. Aug. 4mo.

MERCENARIES FOR COLONIES

A French General's Suggestion for the Philippine Republic. During the course of a conversation recently with a distinguished French general who has seen a good deal of service in Algeria and in Cochin China, he expressed astonishment that the United States government should be using its regular troops and its volunteers for the suppression of the rebellion in the Philippine Islands. For climatic reasons, he suggested the organization of a force recruited not only from Americans, but from foreigners, with a special view to service in the Philippines.

France, he pointed out, made use of her so-called foreign legion, a brigade of some 16,000 or 20,000 men, for her hostile operations in Tong King, and in the same way Holland does not dream of employing Dutch troops for the warfare in Sumatra, but has organized brigades of foreign mercenaries for service in the Orient. Both the Netherlands and France offer far lower rates of pay than the United States, and the latter, especially if it were to concede a small bounty, would not have the slightest difficulty in raising and equipping a valuable force of German, English, French, Italian and Irish soldiers of fortune, mercenaries in the true sense of the word, who would place their services at the disposal of the United States government for use in the Philippines, for the sake of the pay and the adventure.

Of course, the foreign legion thus formed would be foreign and officered entirely by Americans, who would naturally be compelled to maintain an iron discipline, the same as is the case in the French foreign legion, which comprises men of every nationality in its ranks. The foreign legion of France was formed partly to admit of the use of the service of foreign volunteers, and partly owing to the unpopularity in France of military service in the colonies. Holland's foreign legion was formed for the same reason, and the general declared that the United States would do well to follow the example of these two countries, all the more as the warfare in the Philippines is almost identical with that in the Dutch colony of Sumatra and in Tong King.

Gold Deposits in the Philippines.

At the distance and with the slight exploratory work which has been carried on in the Philippine Islands, the minerals that can be profitably exported are best known. George F. Becker, in his recent investigation, has given a very clear view of the present mineral exploration in the Philippines, and has shown that gold is found in a great number of localities in the archipelago, from northern Luzon to central Mindanao. In most cases the gold is detrital, and is found either in existing water courses or in deposits now deserted by the current. It is said that in Mindanao some of the gravels are in an elevated position and adapted to hydraulic mining. There are no data at hand which indicate decisively the value of any of the placers, but the fact that they are washed largely with cocanaut shells for pans by the natives is an indication of either rich deposits or quite coarse gold. In the province of Abra, at the northern end of Luzon, there are placers, and the river Abra itself yields auriferous gravel. In Le Planto there are gold quartz veins as well as gravels, and here also is the best developed deposit of copper ores, although these are also reported from a great number of localities on the island of Luzon, Mindoro, Capul, Masbate, Pansay and Mindanao. This last island is practically unexplored and full of possibilities.—Dr. David T. Day, in the Engineering Magazine for May.
