SUPPLY OF DRINKING WATER.

Whatever else we need, and our wants are many, we need for health and happiness a plentiful supply of pure and wholesome drinking water.

Artesian wells from one hundred to five hundred feet deep are being bored all over the country and supply whole communities with pure water.

Let us issue bonds payable in ten, twenty or fifty years and place a number of these wells about town, scattered here and there so that they can be reached from all parts of the city.

The health of our people is paramount. Street improvements, electric lights and water works are all important, but first and foremost must attention be given to a plentiful supply of good drinking water.

It used to be regarded as impossible to secure good water under conditions existing here but that day has passed. A few hundred feet underneath us is to be found all that can be desired.

The town of Lumberton the county seat of Robeson suffered epidemics of typhoid fever. They were fortunate enough to elect an enterprising Mayor, who gave some thought to the matter. On his suggestion bonds were issued by the town and some eight or ten wells were bored in different localities and now the people are enjoying the luxury of good health without the fear of epidemics.

These wells are the need of the hour. We hope that the matter will be taken in hand and carried on to successful operation.

HON. J. H. SMALL.

The senatorial contest is commanding so much attention just now that there is danger of sacrificing other questions and losing grounds at other points.

Mr. Small must have the attention of our people in this district from now on. He must be re-elected to his seat in Congress. Our Republican friends are up to some sort of a trick. They are not fools enough to run two tickets and have never intended it. Doubtless they think such proceeding would tickle the Democrats immensely, and make them so sure of success that they will become careless and inactive. Press the battle, good friends, at all points. Bring every vote to the polls and insure the re-election of Mr. Small.

A Fiendish Attack.

An attack was lately made on C. F. Collier of Cherokee Iowa, that nearly proved fatal. It came through his kidneys. His back got so lame he could not stoop without great pain, nor sit in a chair except propped by cushions. No remedy helped him until he tried Electric Bitters which effected such a wonderful change that he writes he feels like a new man. This marvelous medicine cures backache and kidney trouble, purifies the blood and builds up your health. Only 50c at all Drug Stores. Dr. J. H. Pool, South Mills, N. C.
