

FROM VELVET LIDS.

From velvet lids Love wings the dart That deepest thrills the human heart.

THE OUTLAW'S RUSE.

I have knocked about a good deal in my time, from doubling Cape Horn as a sailor to digging gold as a miner.

One day in July, while we were on the north fork of the Canadian River, and about twenty miles below Shawneetown, one of the horses in our team was bitten by a rattlesnake.

There was no use in expecting Patton, my partner, back before 8 o'clock or the wagon and I set out on foot.

There was no use in expecting Patton, my partner, back before 8 o'clock or the wagon and I set out on foot.

Here she broke down and began to cry and sob. What could I do but ask her to dismount, gave her my promise of protection, and said that when my partner returned we would drive straight to the ranch and sacrifice our lives, if need be, to rescue her brother and teach the Indians a lesson?

VOL. III.

MURFREESBORO, N. C., FRIDAY, AUGUST 26, 1887.

TELEGRAPHIC SUMMARY.

Eastern and Middle States.

The mysterious disappearance of Emil Schoenberg, associated with John F. Betz, the millionaire brewer of Philadelphia, in various ways, has been accounted for by the latter's assertion that the missing man has forged his name and the names of other parties to the bank of about \$200,000.

The Thistle, the Scotch cutter which is to represent Great Britain in the coming international yacht race, arrived at New York a few days ago after a voyage of twenty-one days.

An express train near South Norwalk, Conn., struck a wagon containing Ebon Van Rensselaer, his wife, daughter and grandson. All four were instantly killed.

JOHN R. DUNN, a New York broker, has been arrested and lodged in jail in default of \$10,000 bond on a charge of being an accomplice in the robbery of \$150,000 from the Manhattan Bank by his paying teller, Scott, two weeks ago in London and from there sends on a full confession.

The Pennsylvania Republican State convention at Harrisburg nominated William B. Hart as its candidate for Governor.

CHARLES P. HENRY, D. D., LL. D., one of the most prominent Methodists in America, died a few days ago at his home in New York, aged seventy-nine years.

GEORGE BRINSKI, who was President Cleveland's army surgeon, died of consumption at his home in New York, aged sixty-two years.

CHARLES P. MILLER, a prominent New York lawyer and political reformer, and his wife, Mrs. Miller, died at their residence, New York, on Tuesday.

PROFESSOR SPENCER F. BAIRD, Secretary of the Smithsonian Institution, died at his home in Washington, D. C., on Tuesday.

South and West. Prairie fires have caused heavy damage in the vicinity of Mexico, Mo.

THREE men, C. W. Conell, D. Holzmann and John Hackett, while traveling from Thompson Falls, Montana, to the Coeur d'Alene (Dakota) mines on horseback were killed by a landslide highwayman and robbed.

Mrs. HEBBERT, an inmate of a Joliet (Ill.) hospital, has been in a trance condition for several weeks, and is unable to restore her to consciousness.

SENATOR RIDGEBERG was released from jail at Woodstock, Va., on Tuesday, three hours after his arrest on the charge of having been a member of the conspiracy to assassinate President Grant.

The largest raft of pine logs ever towed in the world has reached Bay City, Mich., on the St. Marys river.

A CLOUD-BURST on the upper Rio Grande and Republican Rivers, in Nebraska, entirely swept away two new bridges, and a great number of bridges in the canyons by the sudden rise were drowned.

The committee having in charge the coming encampment of the Grand Army of the Republic, at Fort Totten, Minn., have decided that the procession will be six miles long.

N. MATSON & Co., Chicago jewelers, have failed \$25,000.

ACCORDING to Chicago advices, the fruit crops have virtually failed everywhere in the United States except California.

An attempt to "corner" the California gold market by the purchase of the two chief officers of over \$6,000,000.

OLIVER ATKINS, aged 55, deliberately killed William Hawkins, aged 31, at Memphis, Tenn., by shooting him through the heart with a revolver.

Washington. Contracts for the building of five new mail routes in the Territory have been awarded.

The President has appointed William Parsons, of the Territory, as special agent to all lands in severity to the Indians on the Utah reservation in Oregon.

SECRETARY LAMAR has ordered the restoration of the Territory's domain of the Indian lands granted to the Atlantic and Pacific Railroad Company.

The Association of Official Agricultural Chemists, from each of the agricultural stations and colleges in the country and from other bodies exercising official control of fertilizers and manures, has met in session at the Agricultural Department.

An extra force of Treasury clerks has been dispatched to the Territory to take possession of the \$50,000,000 of the Treasury notes.

PHOENIX breweries have been seized in Philadelphia for defrauding the Government.

Two Boston hackmen named Bean and a sister, who was the wife of a member of the Boston Police Department, have been notified that they are joint heirs to a fortune of \$10,000,000 left by Thomas Bean, who was killed in a duel in 1850.

The President has appointed John Madison, Collector of Customs at Dunkirk, N. Y.

A SPECIAL Cabinet meeting was held at the White House on Thursday last, and the President, Secretary of State, and other members of the Cabinet were present.

SECRETARY LAMAR and wife have gone on a vacation to the White Mountains.

A COMING postoffice report will show that there are 55,157 postoffices of all grades in the United States, and that there are 13,075 postmasters of all grades appointed during the past year.

Foreign. The fisheries of Newfoundland, and also the crops, have failed, and over 50,000 persons on the Island are in destitute circumstances.

Four fatal accidents to Alpine tourists are reported from Zurich, Switzerland, and making eighteen deaths in the Alps within a month.

A CYCLONE has ravaged a great part of the Territory, and the Department of Agriculture has ordered the destruction of a number of houses were destroyed and several persons were killed.

The cholera is fast decreasing everywhere in the Territory.

A FIGHT has occurred in Africa between Tipu Tib's Arab slave traders and Basako natives, in which 104 Arabs were killed.

Under the new Irish Criminal Code, three persons were sentenced to six months' imprisonment and one to two months' for resisting the National Guard.

STANLEY, the African explorer, is reported in a dispatch received at the office of the French Secretary of Foreign Affairs to have been deserted by his escort and killed by the natives.

MANY fatalities and serious damage resulted from a heavy storm throughout England. In London three persons were killed, and numerous fatalities occurred in the country districts.

THREE prominent officers of the Amer of Afghanistan's army have been executed for traitorous conspiracy.

AN INDIAN UPRISING.

COLORADO UTES UNDER CHIEF COLOROW IN THE WARPATH.

Several Skirmishes, and State Military Ordered Out.

Chief Colorow, a noted Ute Indian Chief, recently abandoned his reservation in Colorado, and gathered a band of about eighty followers to the highest point of excitement.

The citizens of Garfield county are all wrought to the highest point of excitement over the fact that the whole White River country is swarming with Indians, and that they are committing a number of depredations on the ranches lying away from Meeker.

The first intelligence of the serious turn of affairs was obtained by a correspondent near the Milk River trail, about eight miles above Meeker, where he overtook Dan Van Cleave, the Adjutant General's courier, returning from the Milk River trail.

"I left Glen Wood Springs on Sunday morning, and rode down Grand Elk, striking up the Milk River trail, and going over an old Ute trail to Meeker, where I arrived just seven hours after the first news of the trouble had started.

At Meeker, I gave the dispatch sent by General West to Commissioner Gregory, who immediately sent a messenger to carry the reply. The people of Meeker were very much excited, and the town was in a state of great commotion.

I remained at Meeker until seven o'clock last night, being undecided as to the best route to take to find Kendall. Senator Edley called on me at Meeker, and reported that Sheriff Kendall and fourteen men were at Frank Martin's ranch on the Milk River, within half a mile of Thornburg's cattle-ford.

He said that some of Kendall's men had deserted him, and that he had sent a messenger to find out if they had. He also said that he had found Kendall, and that he was in good spirits, and was accompanied by only fourteen men.

He said that thirty-five men had set out from Meeker on Saturday day before, and that he had two skirmishes with the Indians one on Saturday and one on Sunday. The fight on Saturday resulted, he believed, in the wounding of two Indians.

One white man had his horse shot from under him. The two parties encamped within a couple of miles of each other on the Milk River. The Indians had been driven off the hills toward Meeker, and were in the valley below.

The light continued for about an hour. One Indian fell from his horse, and Kendall thought it was Enoch, the outlaw son of Colorow. It is certain, however, that one Indian, whoever he was, was dropped from his horse dead.

He was also said by Alfred Kendall to be Enoch, the outlaw son of Colorow. It is certain, however, that one Indian, whoever he was, was dropped from his horse dead.

He was also said by Alfred Kendall to be Enoch, the outlaw son of Colorow. It is certain, however, that one Indian, whoever he was, was dropped from his horse dead.

PLEURO-PNEUMONIA.

How the Work of Stamping Out the Disease is Progressing.

WASHINGTON, D. C.—The monthly report of the chief of the bureau of Animal Industry to the Commissioner of Agriculture shows the following work done by the bureau during the month of July in stamping out pleuro-pneumonia: Total number of herds and stables inspected, 4,233; total number of animals examined, 1,952.

Of twenty-two herds, containing 386 animals, 48 were diseased when placed in quarantines. Post-mortem examinations were made of 995 animals, and 130 were found to be affected with the disease.

One hundred and thirty-nine animals were placed in quarantine, and 130 were found to be diseased. Eleven herds containing 181 animals, of which 22 were affected with pleuro-pneumonia, were placed in quarantine. Two hundred and five animals were slaughtered by order of the bureau, 47 of which were diseased.

The remainder were slaughtered, because of pleuro-pneumonia. In New York 33 animals were killed by order of the bureau, and 10 in Maryland 49 premises were inspected, and 4,312 animals examined. Eleven herds containing 181 animals, of which 22 were affected with pleuro-pneumonia, were placed in quarantine.

Two hundred and five animals were slaughtered by order of the bureau, 47 of which were diseased. The remainder were slaughtered, because of pleuro-pneumonia. In New York 33 animals were killed by order of the bureau, and 10 in Maryland 49 premises were inspected, and 4,312 animals examined.

JUMPED THE TRACK.

A BALTIMORE AND OHIO TRAIN CRASHES INTO A SIGNAL TOWER.

A Washington (D. C.) dispatch of Wednesday says: Another so-called "accident" on the Baltimore and Ohio Railroad, within the city limits of Washington, at an early hour this morning, caused the death of one person, the probable fatal wounding of two others, and injuries more or less serious to sixteen or eighteen.

Train No. 4, the St. Louis, Chicago, and Cincinnati express from the West, due in Washington at 6:30, came thundering into the city over the Metropolitan branch at 6:30, and at the curve, nearly a mile away from the city, the engine jumped the "down track." For some reason the brakes were not put down. The air brakes, it was said, did not work, and the engineer began blowing his whistle, which caused the brakemen to put on the regular brakes. Either the brakemen did not heed the signal or it was not given in time to stop the train, flying at a frightful rate, the engine thundering on toward the sharp curve in the track, and in a few moments it was in the little corner made by the intersection of the tracks, with the railroad signal tower in the distance, and the engine, where railroad men are employed to regulate the signals and the switches, was in a position to strike the sharp curve of the Y. The cars behind had the engine flew the track and smashed into the signal tower, and in an instant there was a wreck, which, in a few moments, had been crushed in railroad animals. The engine was dragged from the track, and ploughing through the dirt and muck, a distance of 100 feet, rolled completely over. There it lay, giving forth its steam and hot water in great quantities. The steam ploughed in the dirt and covered the engine in front of the engine with a fine layer of yellow mud, the color of a fresh coat of paint. The steam and water were blown through the house, and some of the inmates were killed.

Near the engine lay Hamilton Brosius, the engineer, crushed and dying, and his fireman with several bones broken. But behind the engine was a severe case of pleuro-pneumonia. One car was crushed and nearly buried under the tracks. The engine was in a position to strike the sharp curve of the Y. The cars behind had the engine flew the track and smashed into the signal tower, and in an instant there was a wreck, which, in a few moments, had been crushed in railroad animals.
