Victims to stomach, liver and kidney troubles as well as women and all feel the results in loss of appetite, poisons in the blood, backache, nervousness, headache and tired, listless run-down feeling. But there's no need to feel like that. Listen to J. W. Gardner, Idaville, Ind. He says: "Electric Bitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me new strength and good appetite than anything I could take. I can now eat anything and have a new issue on life." Only 50 cents at Hoskins' Drug Store. Every bottle guaranteed.

We have one thing to be proud of. We have elected John H. Small for Congress from this District and Simmons has carried the state by nearly 50,000. Carried 13 votes in this town and about 50 in the whole county.

Four years more of Hannaism McKinleyism, and Ruessveltism. This gang has been elected but not by a majority of the people for the majority were for Bryan, the best man in the Union, but by a minority which is composed entirely of moneyed men.

The votes have been counted and the rascals are again in power and the will of the people has again been trampled under the feet of the oppressors. Should every free born American citizen have voted his convictions W. J. Bryan, the great statesman would have been the next President of the United States. "It is better to be right than President" especially so if you have to be elected by fraud and corruption.

**THE TWENTIETH CENTURY.**

The twentieth century, which will begin on Tuesday, January 1, 1901, will have twenty four leap years, the greatest number possible. February will have five Sundays three times—1920, 1976, and 1984. The earliest possible date on which Easter can occur is March 12. The last time it occurred on that date was 1818. The latest date that Easter can occur is April 25. It will occur but one time in the coming century on that date—1943. The middle day of the century will be January 1, 1951. There will be 380 eclipses during the coming century. In 1935 there will be seven eclipses. There will be eight solar eclipses visible in the United States—1918, 1923, 1925, 1944, 1977, 1984, and 1994.—Turner's Almanac.

Stories in 'The Youth's Companion.'

In the 52 issues of the year The Youth's Companion publishes more than 200 stories, yet so carefully are they selected that at prove inexhaustible in variety, unfailling in the power to delight. The stories already in hand for The Companion's 1901 volume show that this feature of the paper will be as strong as ever.

Among the groups of stories will be one of "Settlers' Day Tales"—stories actually told at some of the gatherings of pioneers in the West. There will be four stirring "Tales of Our Inland Seas," picturing the adventures of the sailors on the Great Lakes; and there will also be four "True Tales from the Zoos," told by famous keepers and trainers of wild beasts. And this in only a beginning. We shall be glad to send Illustrated Announcement of the volume for 1901 with sample copies of the paper free to any address.

All new subscribers will receive The Companion for the year remaining weeks of 1900 free from the time of subscription, and then for a full year, 52 weeks, to January 1, 1902; also The Companion's new Calendar for 1901, suitable as an ornament for the prettiest room in the house.

**AN INSPIRATION.**

"It's a go," announced the young man with beaming face, "and the happy day has been set!"

"So you got your courage up to the point at last?" said the friend who understood the situation.

"Yes. Spy, it isn't had when you get started. But it is a wonder I didn't get nervous prostration before I made the plunge! I was six months trying to get courage enough to ask the all important question. But every time that I opened my mouth to speak I simply broke out into a cold sweat and couldn't say a word for the life of me. I would have retreated a dozen times bag and baggage if I could have done so gracefully. Not that I didn't want the girl, but simply for the reason that I despaired of ever being able to ask her to be mine. The girl acted, too, as if she had a right to hear something to the point I could only sit there like a chuckle headed idiot and abuse the weather. I would have been right there in the same horrible situation if something hadn't happened to break the ice.

"One night last week we were sitting side by side on a sofa and during one of those blissful moments when nothing was being said I chanced to notice the girl's eye intently fixed upon a motto that hung on the wall opposite and which read "Love One Another." I'll be hanged if I ever saw that motto before, but it gave me an inspiration, and I leaned over and murmured, "Shall we?" and she murmured, "I don't mind," and it was all over but the "shouting!"

**Over-Work Weakens Your Kidneys.**

**Unhealthy Kidneys Make Impure Blood.**

All the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail. Home of Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

**GROCERIES!**

I Am doing I think my portion of the Grocery Business in Edenton, and why is it? It is not by going around and covering the town with bills for Cheap Prices one day and the next day prices are so high customers come in and go out without anything.

It is by selling each customer alike and treating all with due respect. When coming down town to buy anything in my line call to see me before buying anything in the Grocery, Agat or Tinware line.

**Jr. C. U. A. M.**

For the benefit of the Jr. C. U. A. M., and its members and others, We have heard on one or two occasions that some of our members are trying to make the impression on others, that the Jr. O. U. A. M., is somewhat on the downward road. We as members, in good standing would like to dispute any such impression and I say it is no one but those who are in arrears of their dues are too trifling to pay up and yet they don't want to be suspended for non-payment of dues.

Brothers, the Junior Order United American Mechanics was built upon the foundation of virtue, liberty and patriotism. Without these principles the main objects of the Order falls, and the necessity of its existence is gone. A Council should be a band of brothers, united in interest and one in affections and brotherly love. Coldness and indifference should have no place among them. The interest of one should be the interest of all, and the success of each should be gratifying to the others. The Council and its interest should be such as its various interest demands and socialability should prevail in all places and at all times. Strife and bickerings must be banished without its walls. The fraternal hand shake should be warm, and carry conviction of sincerity, all should work to make the members of the Order fraternal and social. If love was the ruling passion of men today, there would be no poverty. Crime would be unknown, prisons would be turned into schools, conservatories and palaces, where joy and pleasure reach their highest state. If love were the sovereign in the hearts of men, smiles would gladden the faces now coursed by tears, laws would be obeyed, with out enforcement, courts would become things of the past, peace officers would need to keep watch no longer, the sick would be surrounded with more tender care, and the whole world would be renewed and purified as if fresh from the divine Creator. But, did you know that the brotherhood of man is on the advance in the world? Men's hearts had as adamant heretofore are being warmed at the altars of fraternal orders. The ennobling principles taught around these sacred precincts are crystallizing themselves upon the hearts of members until they become a part of their growth, and until their lives are in accord with the highest and holiest hopes of life. These altars are being daily erected throughout the land and millions, already learning the divine precept taught here and are daily adding to their numbers. These duties of modern times are heralding the doctrine of the fatherhood of God and the brotherhood of man, throughout the whole world, and even death is being robbed of its terror for the loved ones left behind, by the human provision made for the support and comfort of the bereaved.

**IN MEMORIAM.**

Death is ever hard to bear, and always leaves a vacancy which so often can never be filled. When its icy hands took from our midst Herbert Snell and claimed him for its victim, we why it should choose him, in the bloom of youth and in the verge of manhood, whose life had just begun to be so useful, and who we hoped to be influential and a help to brothers, sisters, and most of all the Church, which he loved so well. He possessed unusual dignity, and his word was to be relied upon. Few young men of eighteen years, were more manly and reliable than he. While his dear ones are so deeply wounded with grief. There are many friends who feel their loss deeply and will miss him many times, especially at Church, where his sweet voice so often mingled in hymns of praise. God is too wise and good to cry, and perhaps he took him while fit for the kingdom and that the tie for heaven might be stronger, and these form a deeper interest over the crystal river. No human power can fill the aching void in our hearts, for him whom we all loved, and only the power of Him who doeth all things well can console those who are so deeply grieved. Thus it is that youth with its beauty and bloom is stricken with the power of death and we reminded that there is one who rules above man, and "His mercy is as the wideness of the sea."

"There is no place where earth's sorrows are more felt than up in heaven. There is no place where earth's fallings have such kindly judgment gives; for the love of God is broader than the measure of mans mind, and the heart of the eternal is most wonderfully kind."

A FRIEND.
