### Effort To Ward Off Bad Epidemic In County Being Made

#### CLINICS TO BE HELD IN BREVARD AND ROSMAN

#### All People Unable To Pay Urged To Take Treatment Saturday

All indigent children of the county will have the privilege of diphtheria treatment on Saturday, the treatment to be free of cost to such children whose parents are unable to pay the regular fee for having their children immunized against this dread infection.

Parents who are unable to pay for the treatment should call at the offices of Dr. C. L. Newland beginning Saturday morning at 8:30 o'clock, and will be held at the Rosman high school building at 11 A. M. All children of the Brevard high school area, that is, those children between the ages of six months and ten years who live in the lower end of the county, will be given the treatment at the Brevard high school buses, will be given first treatment at Dr. Newland's office, and those children of the same age who live in the area covered by buses of Rosman high school will be given the first treatment Saturday afternoon, at the Rosman school building.

Only children whose parents are unable to pay for the treatment will be given the vaccine, at this time, others who are financially able to provide the treatment will be taken care of upon their local or family physician.

Funds for buying the medicine have been underwritten by the Brevard Kiwanis club, with other contributions from the town and individuals of the county contributing. It was first thought by members of the Kiwanis club that the organization would be unable to provide the move without financial assistance from any other source. However, check revealed that there would be from 800 to 1,000 children whose parents are unable to provide the cost of vaccination, and other assistance was necessarily asked for.

Several contributions of substantial nature have already been made by individuals and firms, and others are being called upon by a committee from the Kiwanis club. Work of giving the vaccine would be two weeks ago, is being done gratis by Dr. Newland, a member of the Kiwanis club, while the Parent-Teacher association is assisting in every way possible.

Transportation will be furnished for those who cannot get to the clinics by the school board, and the regular routes will be followed by the school buses, those coming to Brevard running on their regular school-day schedule, while buses to transport children to Rosman (Continued on page five)

### Deplores High Cost State Government Under Rule Of Democrats

Boone D. Tillet, Republican nominee for lieutenant-governor in the next state election, Monday night, approximately one hundred people braving the rains to hear the Republican leader speak at the speaker's house.

High cost of state government and their causes came in for a large part of Tillet's speech, he charging that the unnecessary number of bureaus and commissions created to give political supporters jobs materially assisting in running the cost of state government to almost unbearable proportions. Indebtedness in the amount of \$189,000,000 has been piled upon the people as a result of the policy declared by the Democrats regime of the past several years.

Public officials in North Carolina and other state governors, are not elected by the people of the state, he declared, a small "ring" deciding four and eight years ahead of the people the next governor. In this, he pointed to E. B. Jeffers, chairman of the state highway commission, and Julian Merritt, both of whom are being groomed at state expense for the next gubernatorial candidate. "We have no freedom in North Carolina," he said, "as long as the people were before the Revolutionary war," the speaker asserted.

Mr. Tillet spoke for more than an hour. He was introduced by Lewis P. Hamlin, minority leader in the house of representatives of 1929. Roscoe L. Nicholson, executive chairman, presided.
